BEARS CHALLENGE THE UNIVERSE

Important Information:

This passport issued to travelers who dare launch into a year of intercellular learning and galactic fun. Amid the morning star burst please identify yourself with this certificate at Boarding Gate 8283. Passports shall be yielded to no one save the Customs Officials at your final destination.

DATE OF DEPARTURE:

August 23, 1982

TAKE-OFF TIME:

8:00 A.M.

LAUNCH SITE:

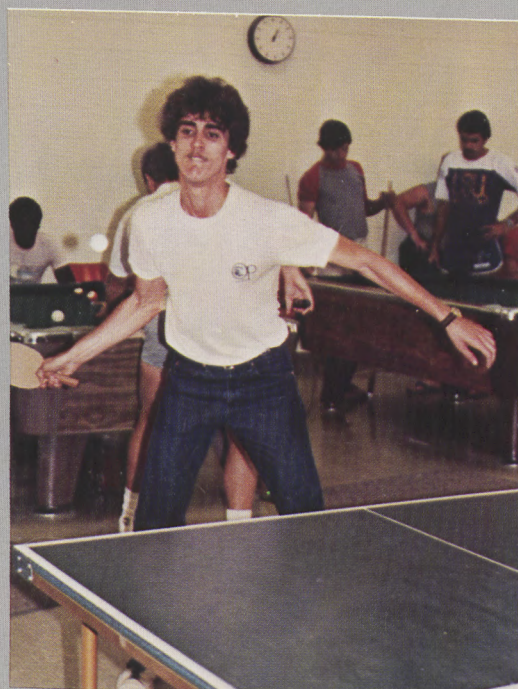

All-Prep

FARE: One Milky Way bar

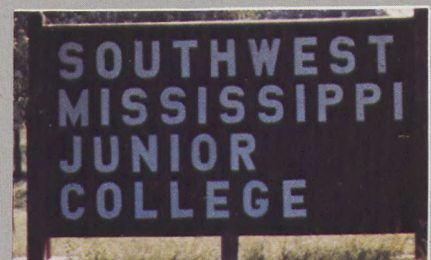

*DESTINATION: Southwest Jr.
College Space Station*

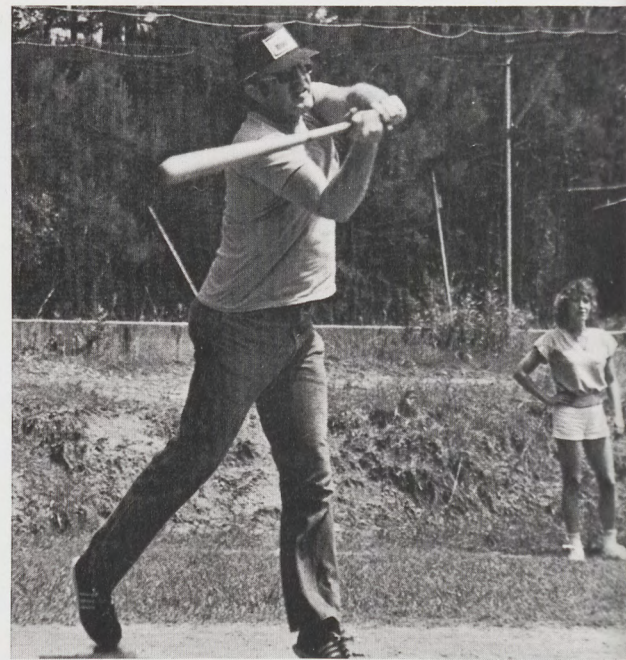

ITINERARY *Journey From Space*

<i>SPACE INVADERS (STUDENT LIFE)</i>	<i>p. 6</i>
<i>SPACE OLYMPICS (SPORTS)</i>	<i>p. 22</i>

BLAST-OFF FOR THE 80's.

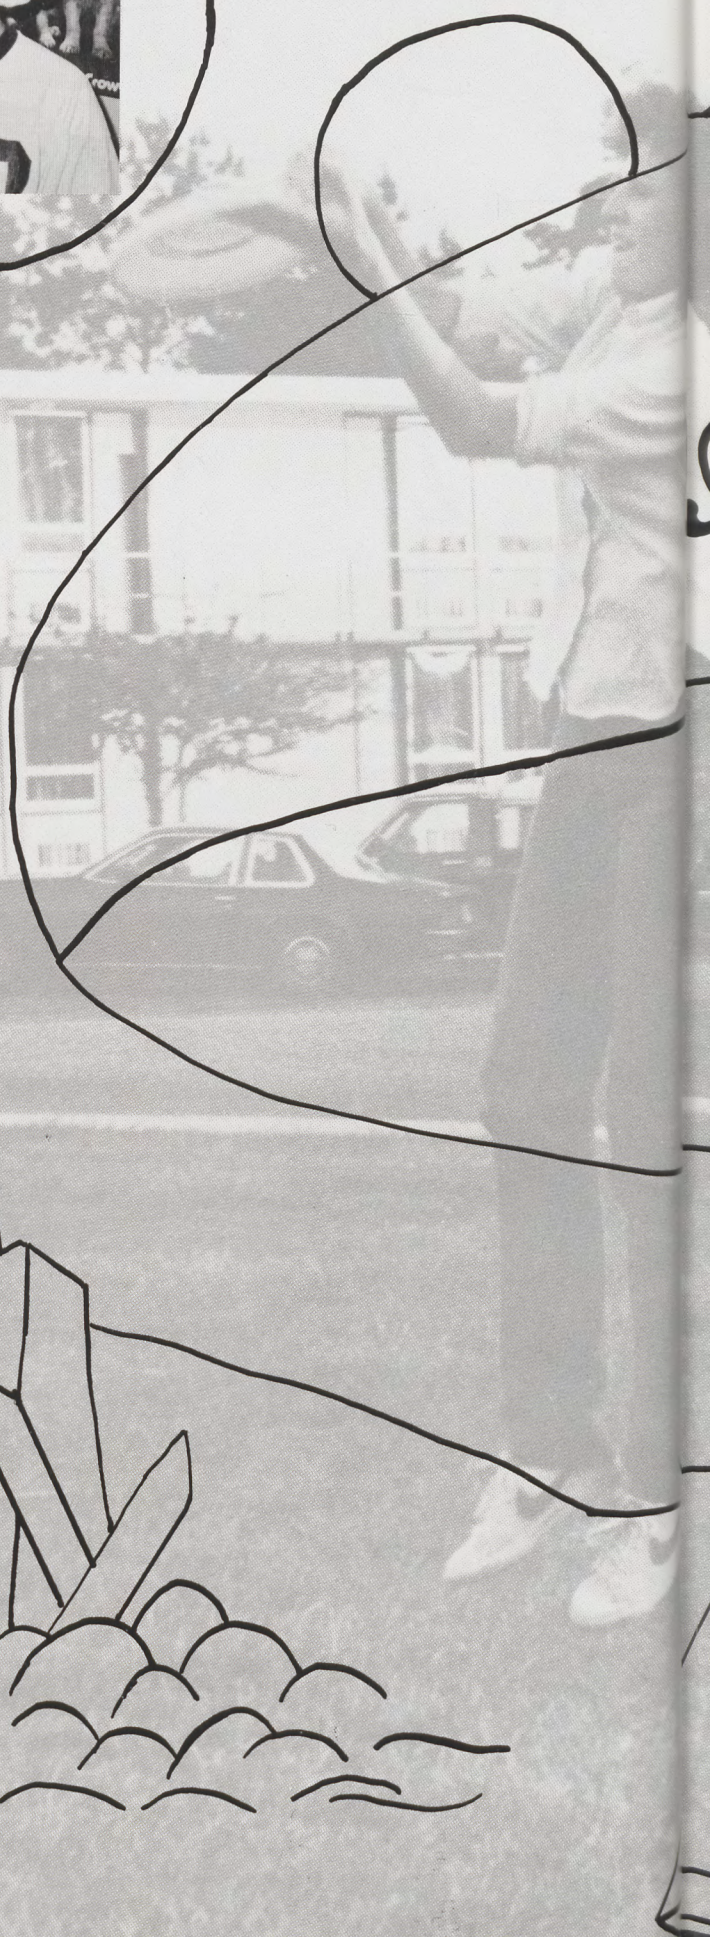

SPRING, 1982

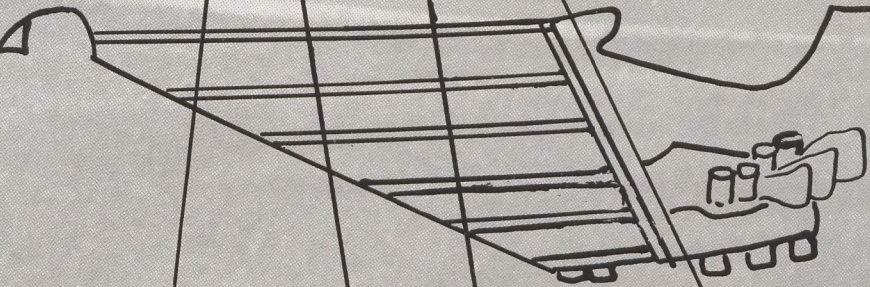

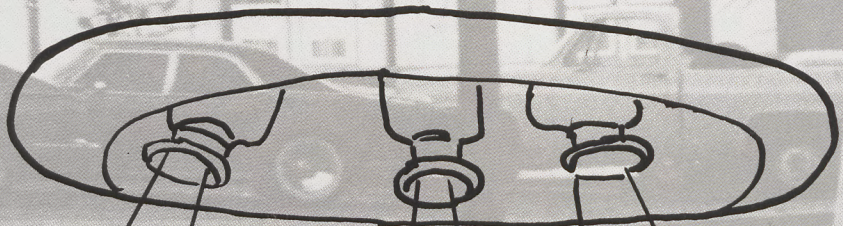

The Extra-Terrestrial

Space Invaders

Left: Jeff Jones—College is fun. You are able to meet new people and learn about yourself by being away from home. The people here are different from LSU and have their motives together.

Right: Debbie Jo Brown—I like college life, even though the classwork is hard. The Southwest boys' and girls' basketball team is my favorite group.

Right: Lauren Richmond—College life is different from high school, but altogether, it's a blast!

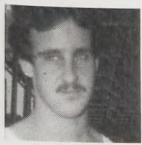

Right: Ron Williams—This is the most beautiful campus I've seen. The professors are most helpful. Even though school is challenging, my span of concentration is hard to keep. It's invigorating to think again and use my mind.

*WHAT DO YOU
COLLEGE*

Below: Robin Fortenberry—It's easy to know everyone with such a small amount of people. It's a chance to be independent.

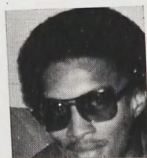

Left: Renee Bordelon—SMJC has excellent cuisines. The benches by the trees are excellent resting places. College life helps you become self sufficient and provides a time to meet new people.

Right: Rhonda Gunther—I enjoy campus life. College life is what you make it. Getting involved is one of the most important things that aids a person in the development of their future life.

Left: Candy Toler—I really love it. The activities keep me busy so I don't have time to get homesick.

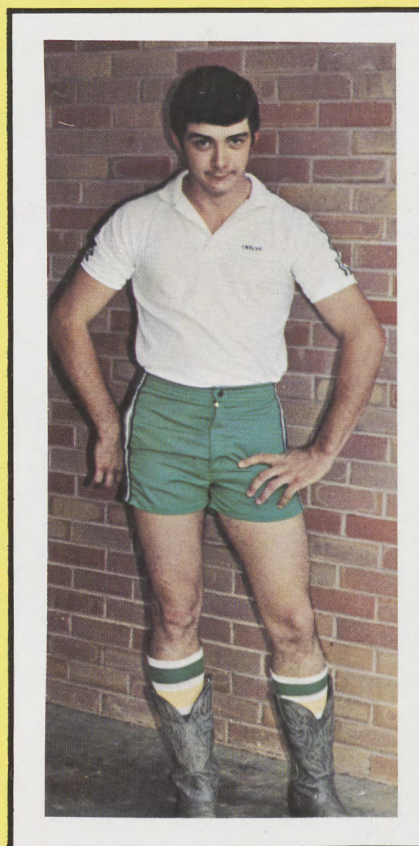

Right: Jessie Williams—College for me is okay right now. It gives one a great start to reaching his career goals. It should be the first place to start. SMJC has a great boys' basketball team.

*LIKE ABOUT
LIFE?*

WELCOME ABOARD THE SMJC SPACE STATION

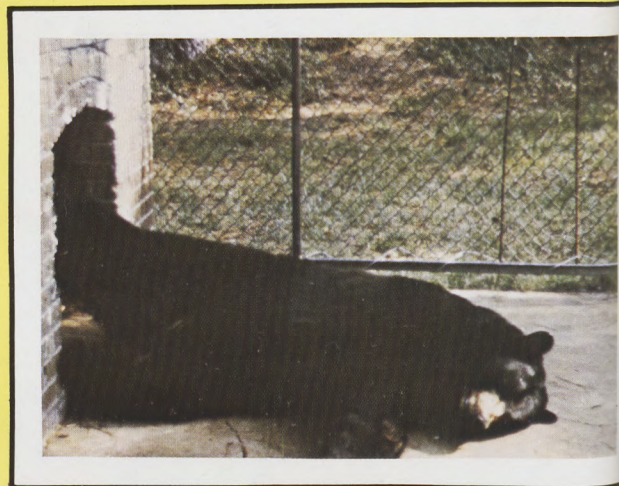

Enthusiasm started off with a boom at Southwest Mississippi Junior College. Appearances show that several organizations have planned a year of energetic activities. Excitement will definitely rise as Homecoming approaches.

Below: The influx of styles from All-Prep is presented by Tom Dixon. Watch out! Further exposure may be catching.

Right: Charlie Bear considers SMJC to be a spot of solar prominence. His star qualities bring even greater attraction to 8283 space station.

Below: At the BSU ice cream party, Angie Herrington tries to communicate with an earthling by the use of her intergalactic sign language.

Right: Watching the Limbo was an awe-inspiring experience for Daniel Wiggins and Vicki Welch. If they had been shocked further, they might have been turned to stone.

Below: Eating globular clusters is a delicacy of Nona Hughes and Kendall Turnage. This aids the cadets in planning their next celestial orbit.

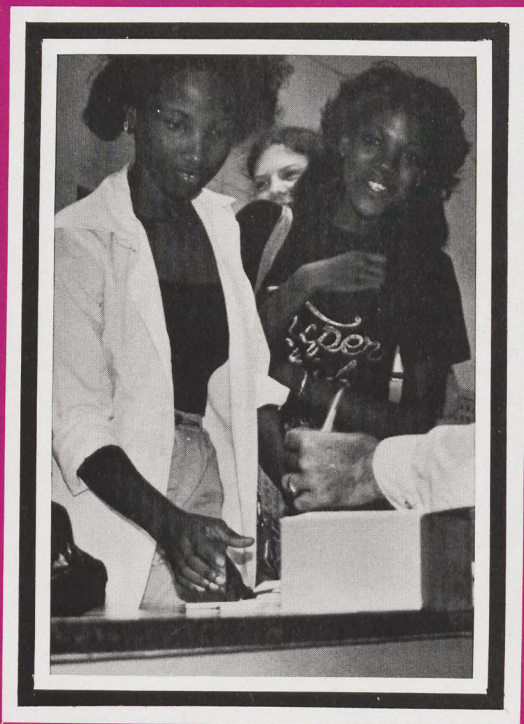

Below: The football players move like the speed of light. One streak and they're off!

Below: Due to the gravitational pull of the volley ball, everyone appears to be caught in time.

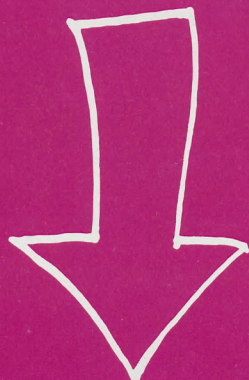

YOU ARE HERE

Above: Say! What do I do with that? Come on, we'll miss the special Milky Way dessert.

Below: Man! This is for the birds! We go by numbers, not names. Zap! This place is way out.

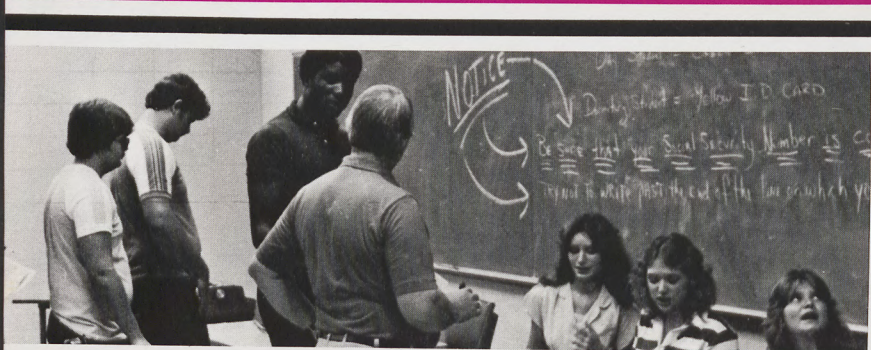

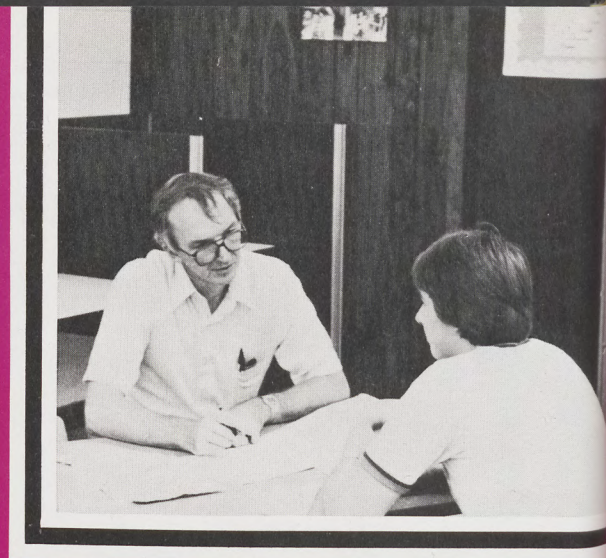

DOWN

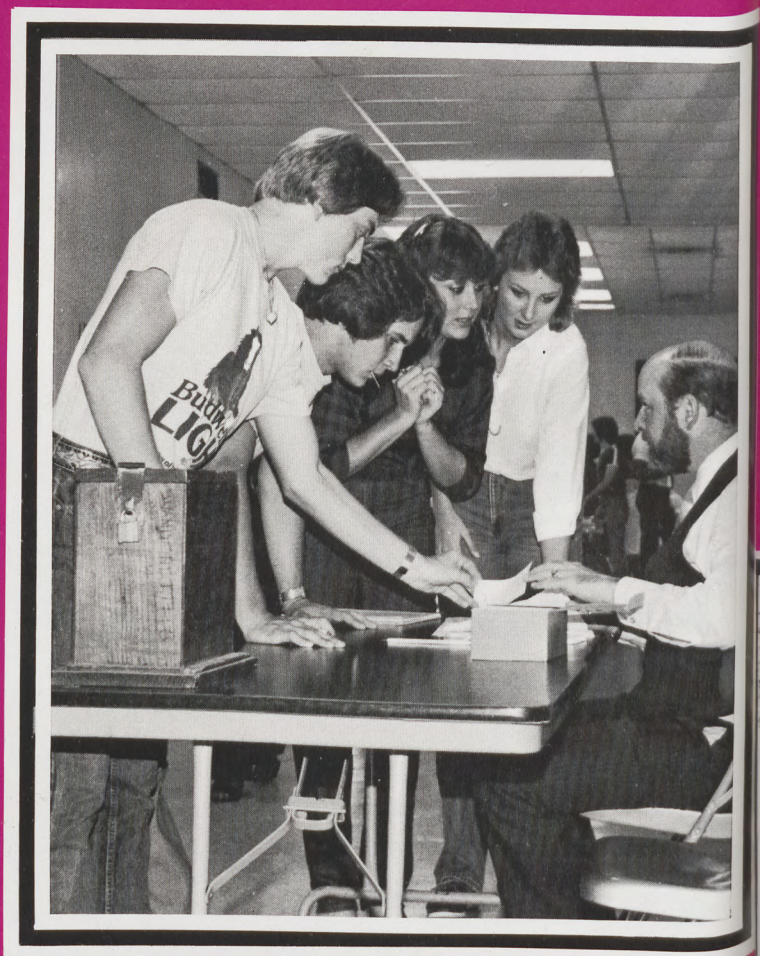

TO

EARTH

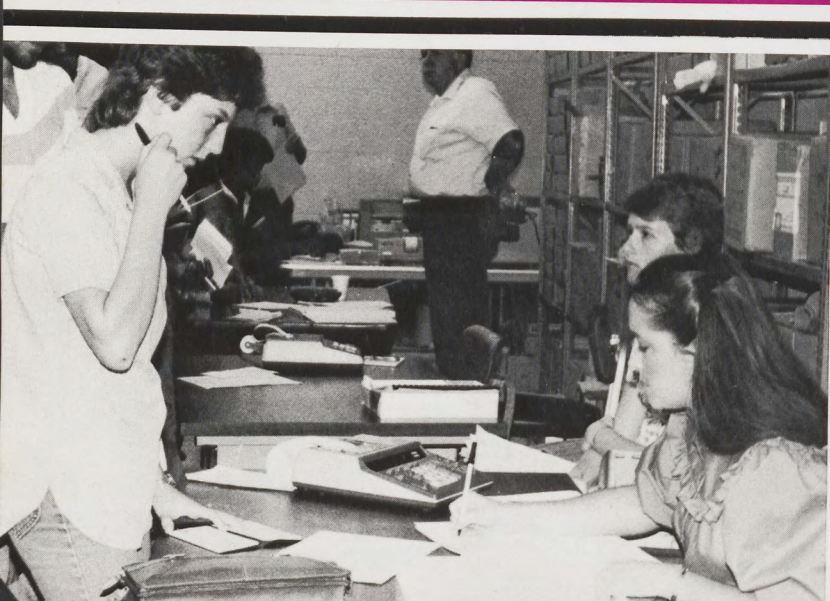

Now! Tell me that again. Did you really see a strange spaceship land on top of the boy's dorm last night?

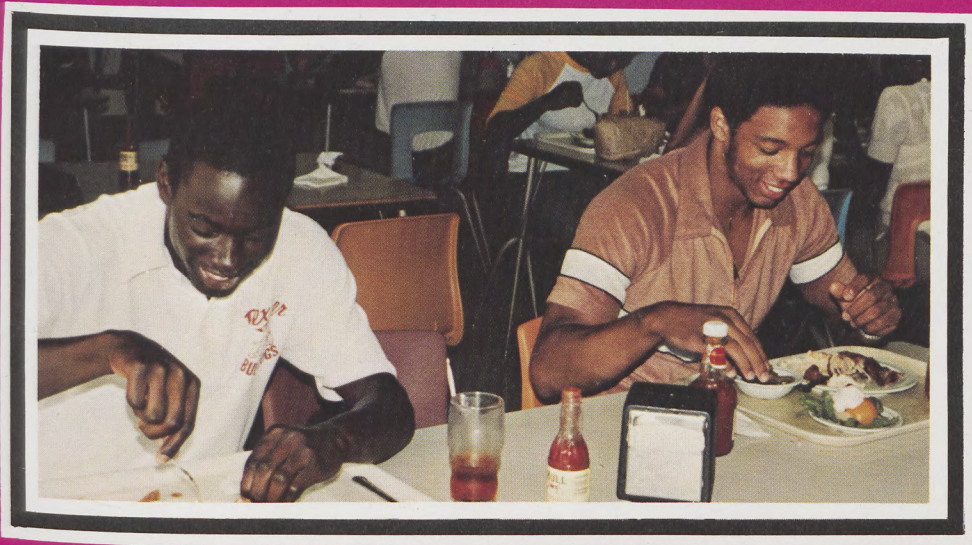

Below: Oh no! That can't be. I didn't sign up for outer space math.

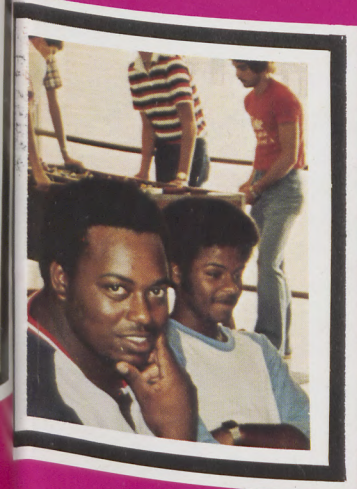

Oh, please! Let me do something. Say! What are we voting for? The next flight to Mars.

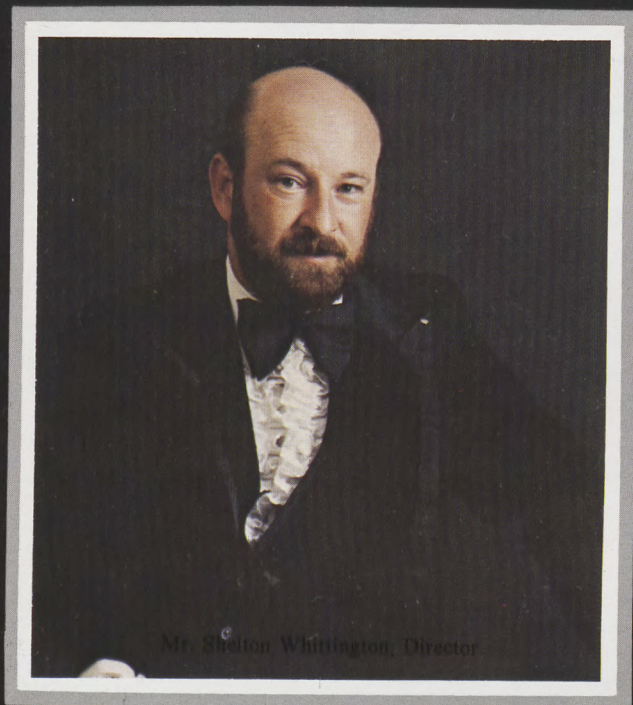

CLOSE ENCOUNTERS

SPECIAL FX

SPECIAL FX SPECIAL FX SPECIAL FX

SMJC Band

Mr. Shelton Whittington, Director

The Special FX (whether sun or moon) is none other than the SMJC Band. With its enormous supply of lunar dust this group performs fantastically under the radar control of Shelton Whittington. From the moon orbits the field director, Robin Fortenberry.

The special FX is interesting to observe and can be seen from all points of the solar system. Under good physical conditions, the Special FX performs in and out of its orbit from the SMJC space station, their homebase.

The red line, rifles, and flags make up the spectro-heliographic section. Its primary astronomical purpose is to fill in the special features with minute details. With a backdrop of stars, the SMJC Band puts on a spectacular performance each galactic year.

BAND: Willie Sue Ayers, Michelle Bond, Rene Bordelon, Diana Brent, Keith Brock, Libby Buie, Susan Cotten, Chris Felder, Ted Fortenberry, Dan Gent, Linda Kay Jackson, Carleton Kennedy, Terry King, Darren Lambert, Debra Lea, Mitch Parker, Lori Sims, Brenda Slater, Will Soyars, Charlene Hay, Darlene Johnston, Sam Magee, Robert McDavitt, Otis Washington, Robert Wesley, Rene Jones, David Goodwin, Allan Williams, Lisa Luckett, Scott Stenson, Kathy Albritton, Luigi Bartimoccia, Lydia Bellipani, Sheila Brock, Carol Fleming, Robin Fortenberry, Drum Major; Mike Freeman, Steve Holsten, Angela McCullough, Penny Rembert, Chris Taylor, Edwin Stewart and Paige Buie.

Left: Drum Major, Robin Fortenberry.

RIFLES: Marilyn Abram, Kerrie Audiffred, Amy Price, Michelle Jolly, Stacy Taplin, and Patsy Nunery.

FLAG CORPS

Thressa Dunn, Melissa Hughes, Sherry Meyn, Lauren Richmond, Captain: Roxie Taylor, Kim Yawn, Donna Hay, Carla Magee, Karen Clark, Diane Madison, Captain; Lydia Charimonte, Tabitha Felder, Jan Wilson, and Dollie Ayers.

RED LINE

Jackie Armstrong, Amy Brabham, April Flemming, Rhonda Gunther, Amy McCoy, Jennifer Williams, Yvette Sturgeon, Betty Moak, Beverly Brown, Amy Wilks, Joyce Smith, Mary Ellen Armstrong, Mattelyn Cassels, Tejory Lewis, Stacy Mixon, Tammie Pair, Pam Vince, and Pam Wells.

The parallax shift is practiced routinely by the SMJC 8283 red line.

Say, what's that! Just an optical illusion. Flag members must have incurred it from the green cheese at lunch time.

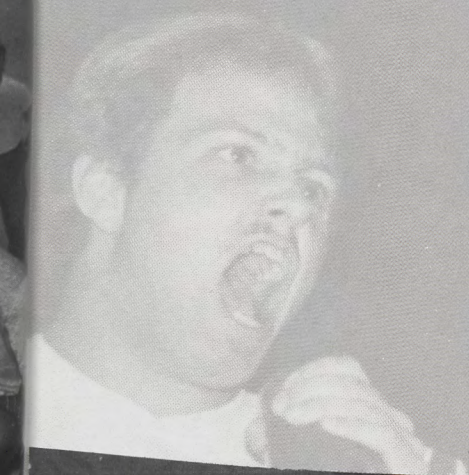

Gee! It's stuck. How do I get it to move? Just shift it to the left and shift it to the right, Dollie.

Oct.	16	Co-Lin	Away
Oct.	23	Pearl River	Away
Oct.	28	Northeast	Away
Nov.	6	E. Central (HC)	Home

THE FORCE PREVAILS

EARTH COMMUNICATIONS

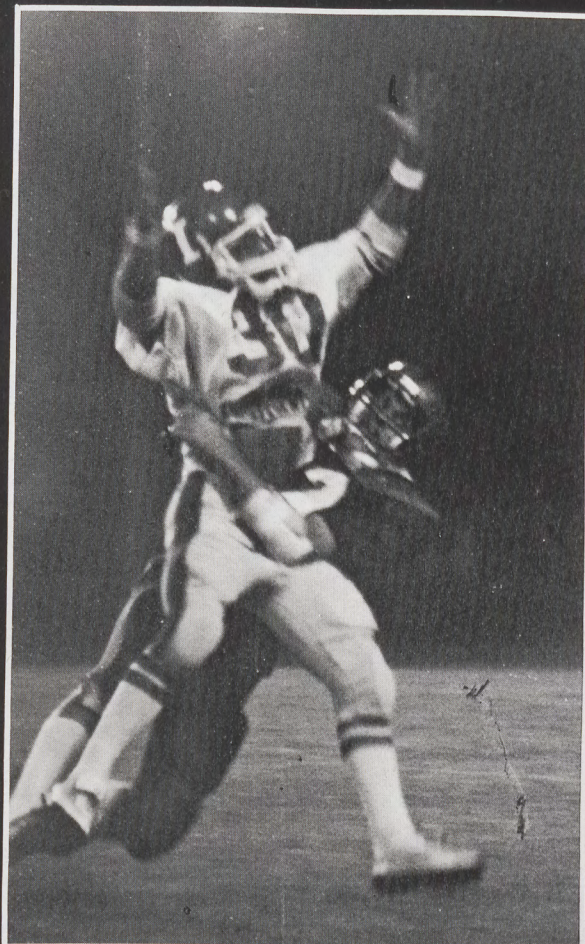

"Being a football player at Southwest Mississippi Junior College was a challenge for me. Although there were thrills of victory, there were also times of defeat knocking at my door. Even though the Bears' record of 2-7 didn't sound impressive, determination was always present."

Each member of the football team felt a closeness and maintained a strength. "With this tremendous strength, we were like a family drawn together and unitarily went out to fight our battles. During this time, we continued to look to the Lord and our head coach, directing all the credit to them."

Each game was an experience that each football player lived to his utmost. When one was knocked down, he would just get up and pray for courage and stamina to keep going.

"Playing football was a challenge, but it was one that we could look forward to as long as we followed the coach's instructions."

INTERVIEW OF JEFF BROWN

E

The strength of the Force can't be measured in meters as it strives to keep Hinds from making another touchdown. (final score: 7-0)

TO HEIGHTS UNKNOWN

The suspense grows as the Force work together with their magnetic pull to overthrow the opposing field of foes.

One of the referees supervises closely as one team member of the Bears zooms forward with a Hinds member hanging on for life!

All want a piece of the action as the awesome Force puts an end to out-of-space fumbling from the Itawamba earth station.

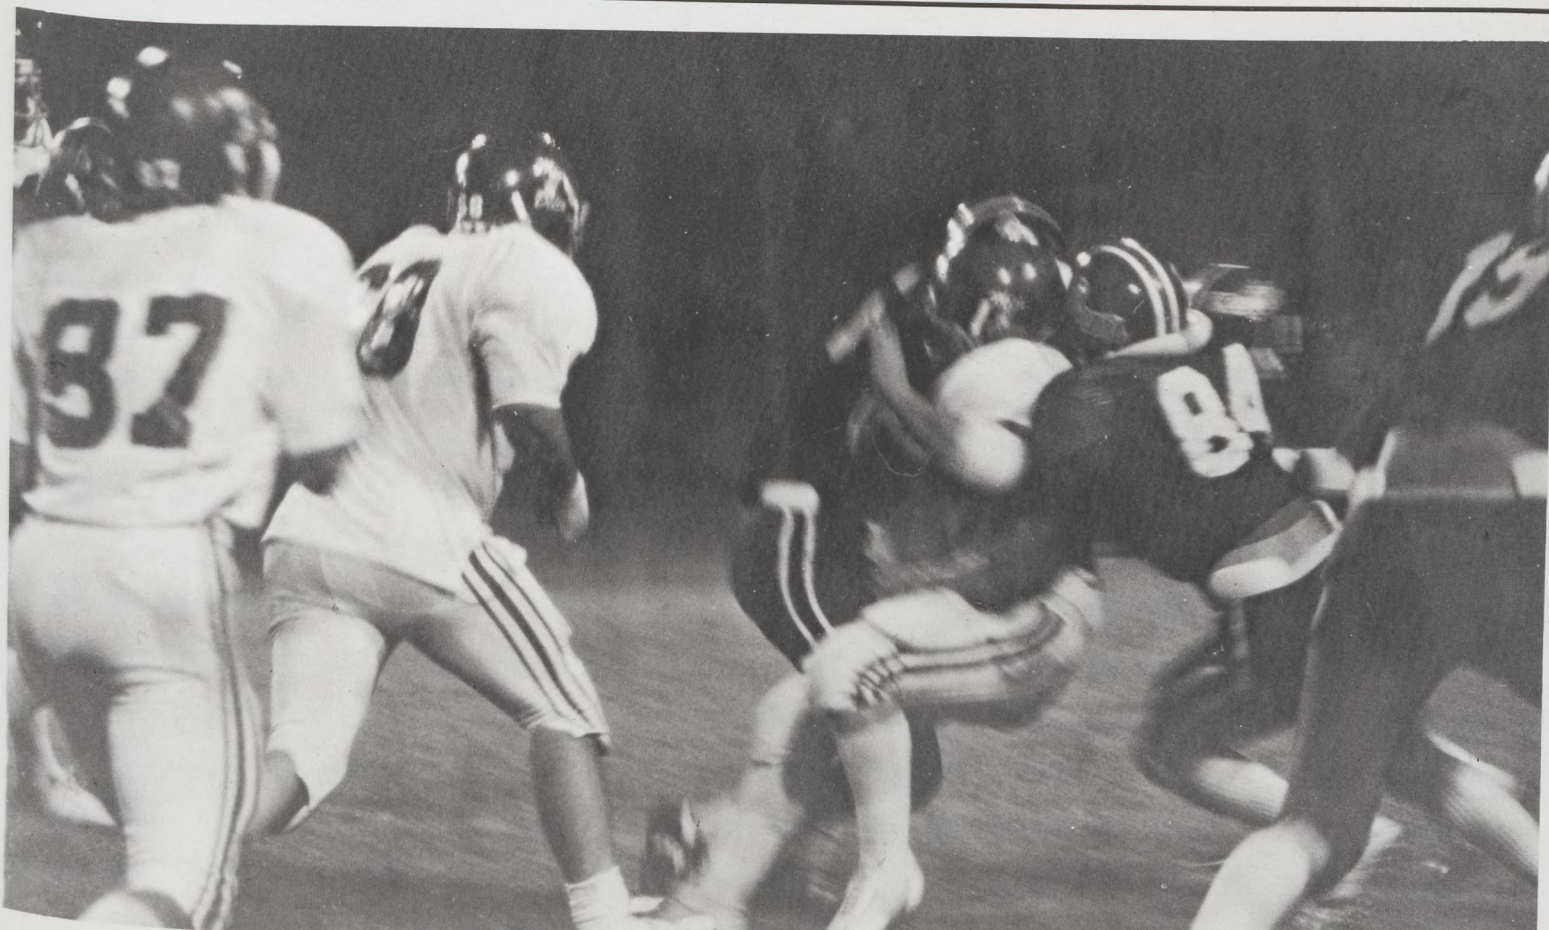

A SPACE ODYSSEY?

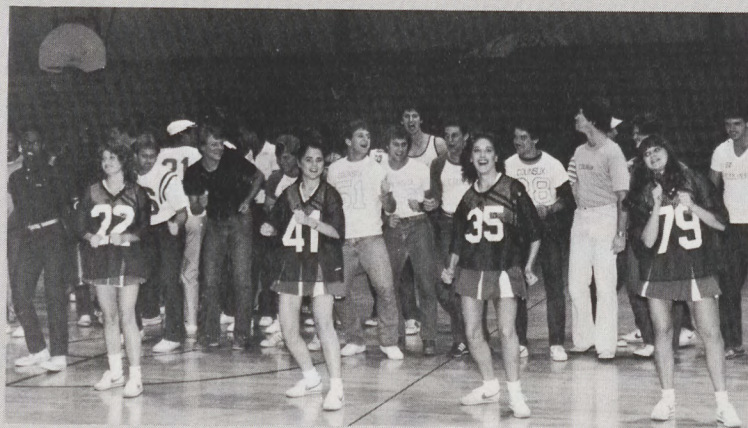

Left: Too late! The Force has used their magnetic power to take over the ball, regardless of the Jones cadet's attempt to flank onto the field.

East Central looks gigantic, but the power of our Force has enabled them to endure anything with surprisingly opposing determination.

Freshman Gaye Williams

SMJC

The Comets from All-Prep are regularly making preparation for the basketball season.

They are quite energetic and seriously plan cheers to encourage the Shooting Stars to go on to victory. The Comets go on trips with the Shooting Stars. For the Comets, the sky is the limit!

With individual input and hard work, good vibrations come from the Comets.

COMPUTERIZED SPORTS REVIEW:

Southwest football coaches are from left: Coach John Ogden, Coach Floyd Davis, and Coach Mac Anders.

BE PROUD OF YOUR BEARS!

The Southwest Mississippi Junior College Bears struggled through a difficult 1982 gridiron season and emerged with a 2-8 record. After an opening—game victory over defending State Champ, Holmes, the Bears dropped six straight games, then defeated highly-touted Pearl River, and ended the season by losing two very, very close games.

Throughout the disappointing season, however, one very important element remained consistent: the morale of the team. Southwest won and lost as a team. There was a notable absence of the griping and the laying of blame on others that usually accompany a losing season. The team acted as one big family for the most part, and its "fathers," Coaches Davis, Anders, and Ogden, made everyone very proud to be Bears.

We would also like to thank the Alumni for their great support, as well as all the other fans who made the long journeys to cheer on the Bears. There is nothing more gratifying than to look into the stands and see scores of supporters. We heartily salute the Bear fans and supporters!

Statistically speaking, Craig Martin led the Bears in rushing by gaining 315 yards on 73 carriers and scoring 3 touchdowns. That's a 4.3 yard rushing average for a 31.5 yards per game average. Anthony Fisher averaged 35.1 yards per game in 7 games as he gained 246 yards on 59 carriers for a 4.2 yards per rush average. Richard "John Deere" Wales gained 139 yards on 51 carries, while Randy Benedetto gained 70 yards on 20 carries.

Marvin Clement passed for 729 yards while completing 49 of 136 passes to lead the Bears. That's a completion rate of 36%. He also threw 4 touchdowns and 11 interceptions. David Anderson was 33 of 91 in passing for 496 yards, 2 touchdowns, and 5 interceptions. Chip Peroyea completed 7 of 18 passes for 51 yards and had 1 scoring strike and 1 interception. The biggest passing night of the year occurred at Poplarville against Pearl River. In that game, Marvin Clement passed for 351 yards. Peroyea passed for 9 yards, and David Anderson, who had been moved to wide receiver in the "unbalanced offense," caught 10 passes for 170 yards and 1 touchdown.

Kenny Floyd led all receivers by snagging 26 passes for 453 yards and 2 touchdowns. Tommy Carter caught 16 passes for 214 yards

and 1 score. Gerard Caulfield gained 196 yards and 2 touchdowns in 7 receptions. The versatile David Anderson caught 16 passes for 249 yards and 1 touchdown in JUST 3 games. Craig Martin caught 6 passes for 24 yards and Richard Wales chippin in 32 yards on 5 catches.

Todd Haygood was 11 for 13 in extra points for 84.6%. The Sophomore from Liberty also made 1 field goal in 6 attempts. Haygood also punted 81 times for 3,126 yards, which is a 38.6 yard average.

David Verrett returned 23 punts for 178 yards and had a 7.7 yard return average. During the Pearl River game, Verrett took a Wildcat punt at the Bear 48, bobbled the ball momentarily, sprinted towards the left sideline, and was gone! His 52 yard punt return was the only touchdown scored by Southwest Special Teams this year. Verrett also returned 17 kickoffs for 373 yards and a 21.9 yard average. Kenny Floyd returned 13 for 232 yards (17.8 yard average) and Anthony Fisher returned 11 for 184 yards and a 16.7 yard average.

Defensively, David Verrett and Robert Dixon each snagged 3 enemy ariels and Charles Johnson returned his only interception for 70 yards and a touchdown. Steve Faust and Marty Whittington each had a pass theft, also, David Tadlock and Steve Faust each had 4 fumble recoveries to lead the Bears. Charles Hughes led the Bears in tackling by getting in on 80. Anthony Coleman and Dwaine Morris each had 73.

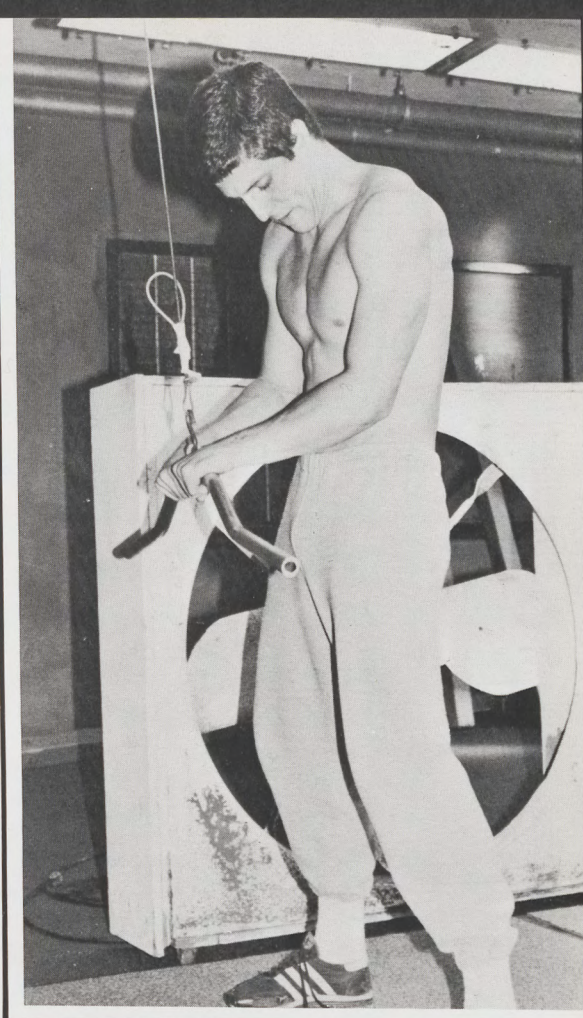

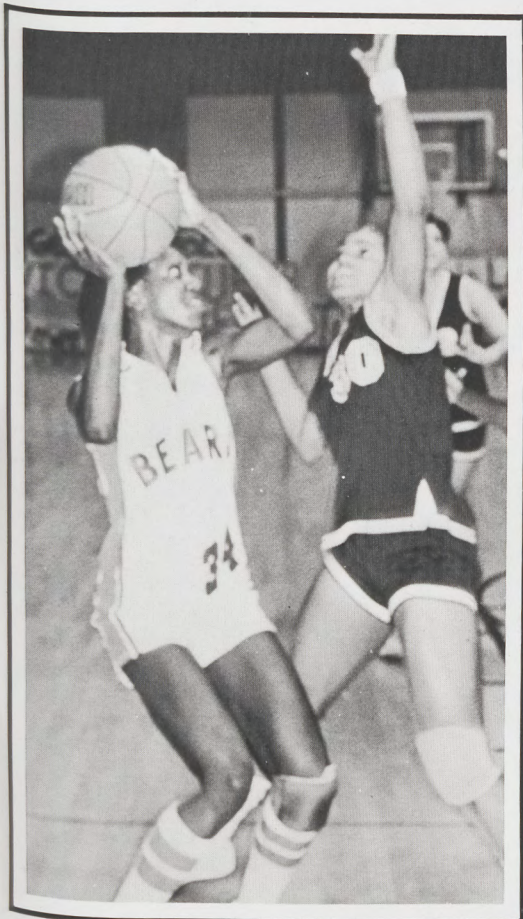

As a team, Southwest rushed 361 times for 702 yards and scored 7 touchdowns while averaging 70.7 yards per game. Opponents rushed the ball 513 times for 1,994 yards and 17 touchdowns while averaging 195.4 yards per game.

Southwest was 89 for 239 in passing for 1,267 yards, 7 touchdowns, 17 interceptions, a 37.7 completion rate, and averaged 126.7 yards per game.

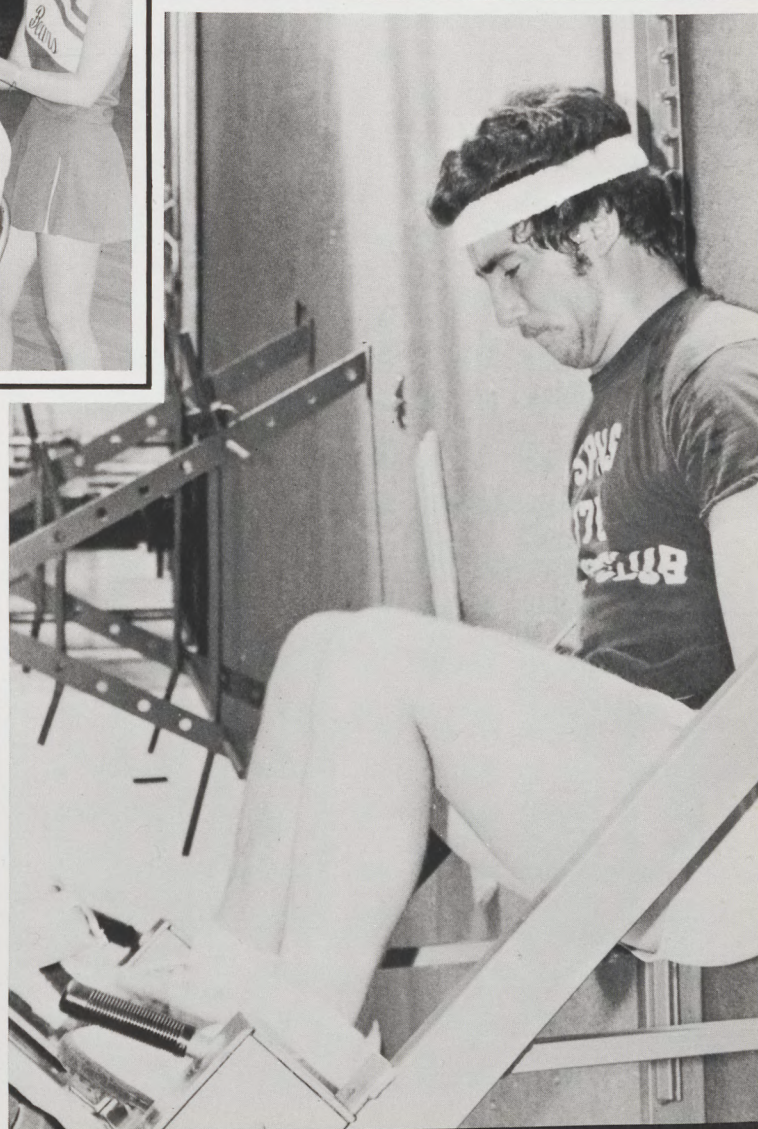

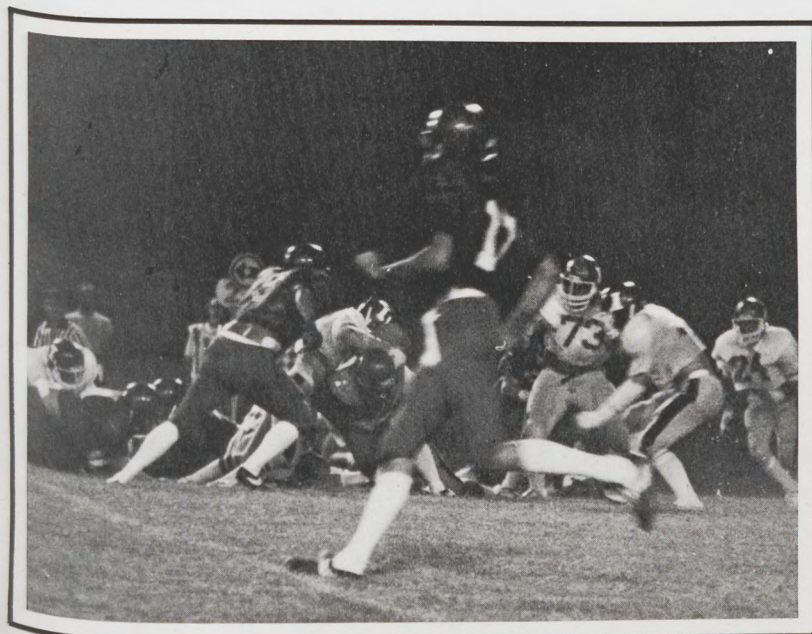

The Bears totalled 1,969 yards for the season and had 600 offensive plays. Opponents totalled 3,460 yards for the season and had 703 offensive plays.

by Lloyd Young.

FITNESS: THE NEW EARTH BUG

The Asteroids, Debbie Van and Donna McCardle, are testing Coach Ogden's directional antenna perception.

/// *SPACE ROCK THROUGH* \\\

Debbie Jo spends a dial inviting the cadets to the next Space Rock jam session!

Above: "Please Santa," says Cadet David Verrett, "bring me a gift of cosmic beams that will make me shine during the year."

Mark, Susan, Jan and Kendall pause for a moment and get themselves ready for the opening musical performance of the Hi-Fidelity group.

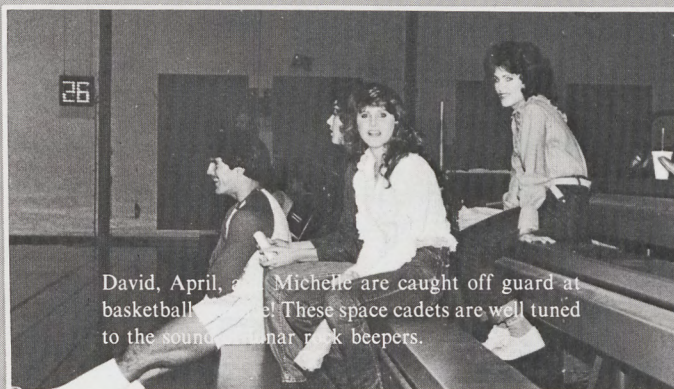

Left: Terry King examines the equipment to see that there isn't any static to interfere with the Hi-Fidelity's performance.

Below: SMJC Hi-Fidelity performs from the earth space station at Christmastime by using their magnetic cosmic tubes.

THE COSMIC TUBES

Even though the weather is dreary and causes a little friction on his cosmic tubes, space cadet, Mitch Parker, performs a rock lyric.

David, April, and Michèle are caught off guard at basketball practice. These space cadets are well tuned to the sound of their rock beepers.

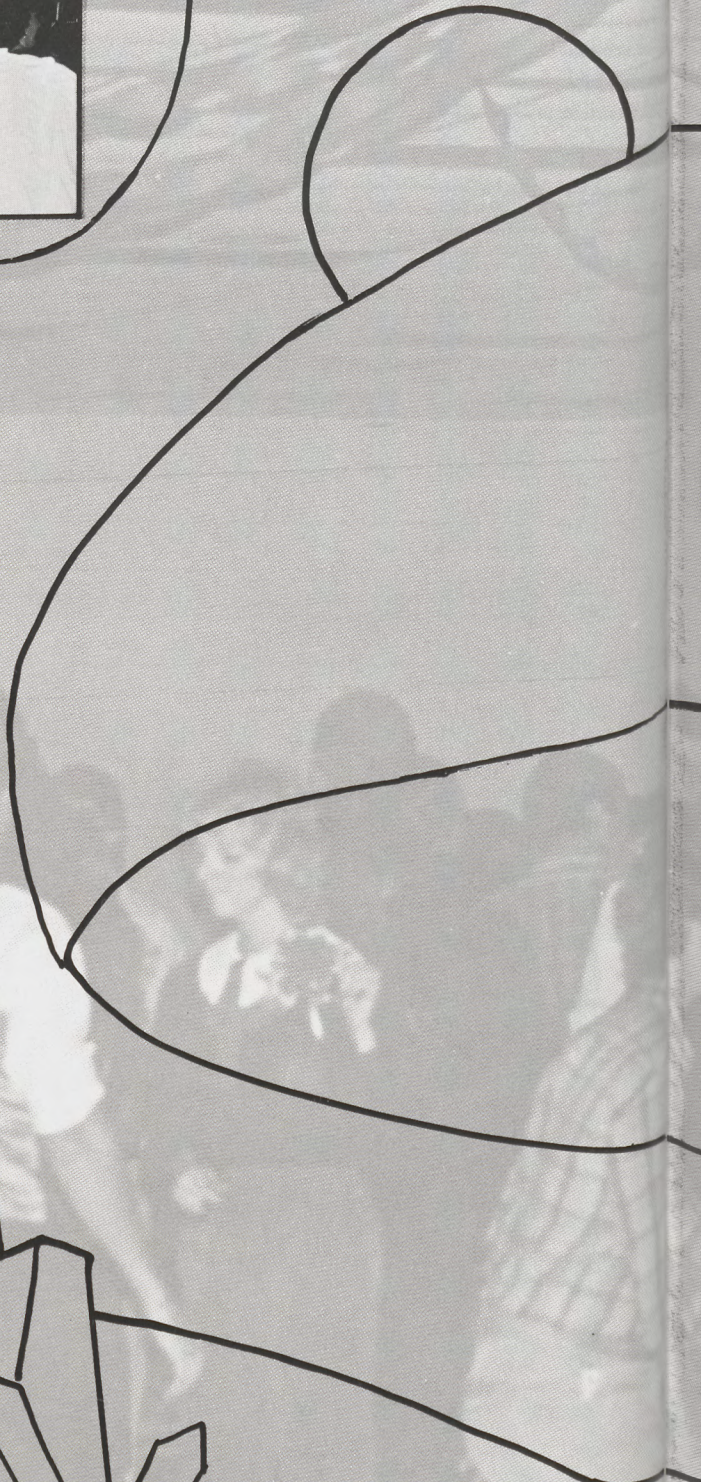

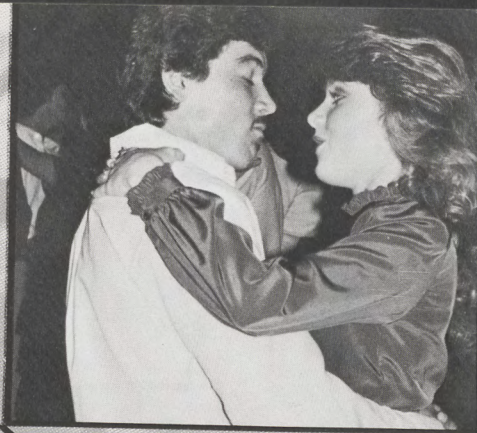

Cadet, Tim Leonard, displays his Karate power during one of his SMJC space station class sessions.

Above: Nona Hughes seems to be hypnotized by a very unusual sight in the background of the Space Rock performance. Rudolph made a special appearance.

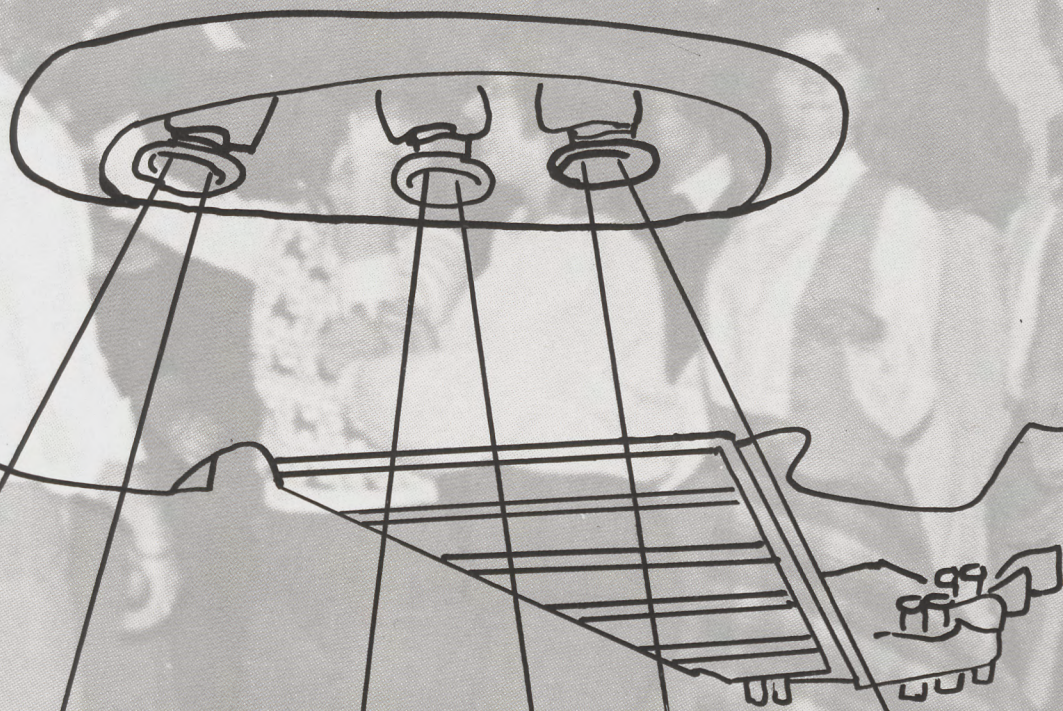

Right: The Stage Band performs in the space region of Summit, and appears to be enticing even the youngest to rock through space!

Celestial Boodies

Cadet Amy Price ranked as Miss SMJC on the SW space station. She is the Twozome wandering star of Mr. and Mrs. Wilton Price of the galactical time dimension, Summit, MS. On All-Prep, she attended Parklane Academy and participated in FBLA, Student Council, National Honor Society, band, and basketball. Amy's conquest in college is SGA President. Her studies on earth have led to a major in dental hygiene.

MISS SMJC

AMY PRICE

*a
n
d*

DAVID ANDERSON

MR. SMJC

Cadet David Anderson ranked as Mr. SMJC on the SW space station. He is the Twozome wandering star of Mr. and Mrs. Ken Anderson of the galactical time dimension, Westlake, LA. On All-Prep, he attended Westlake High School and participated in football. David's conquest is Co-captain of the football team. His studies on earth have led to a major in business.

CAMPUS FAVORITES

JOHNA GREER and STEVE SMITH

Cadet Steve Smith ranked as the male Campus Favorite on the SW space station. He is the Twozome wandering star of Mr. and Mrs. Frank Smith of the galactical time dimension, Tylertown, MS. On All-Prep, he attended Parklane Academy and was President of the Student Body. Steve's conquests in college include Phi Theta Kappa and football. His studies on earth have led to a major in political science.

Cadet Johna Greer ranked as the female Campus Favorite on the SW space Station. She is the Twozome wandering star of Mr. and Mrs. John M. Greer of the galactical time dimension, Centreville, MS. On All-Prep, she attended Centreville Academy and participated in basketball, Beta Club, track, and cheerleading. Johna's conquests in college include Phi Theta Kappa, BSU, FCA, and cheerleader. Her studies on earth have led to a major in agricultural business.

M O S T B E A U T I F U L D E B B I E V A N

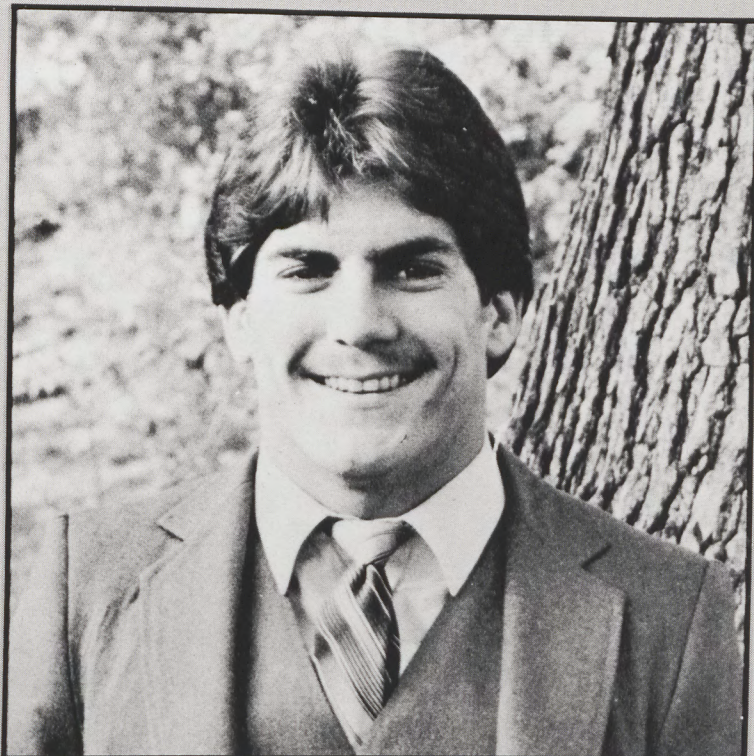

Cadet Debbie Van ranked as Most Beautiful on the SW space station. She is the Twozome wandering star of Mr. and Mrs. Williams of the galactical time dimension, McComb, MS. On All-Prep, she attended North Pike High School and participated in Beta Club, Student Council, and cheerleading. Debbie's conquests in college include FCA, BSU, Redline, and cheerleader. Her studies on earth have led to a major in pre-med.

Cadet David Verrett ranked as Most Handsome on the SW space station. He is the Twozome wandering star of Mr. and Mrs. Davis Verrett of the galactical time dimension, Westlake, LA. On All-Prep, he attended Westlake High School and participated in football. His studies on earth have led to a major in coaching (pro-bowling).

M O S T

H A N D S O M E

DAVID VERRETT

Cadet Dusty Coleman ranked as Campus Beau on the SW space station. He is the Ozome wandering star of Mr. Donald Coleman of the galactical time dimension, Liberty, MS. On All-Prep, he attended Amite School Center and participated in basketball, football, and Senior class President. Dusty's conquests in college include basketball, SGA, and Freshman Treasurer. His studies on earth have led to a major in business administration.

CAMPUS BEAU DUSTY COLEMAN

CAMPUS BEAUTY DARLENE JOHNSTON

Cadet Darlene Johnston ranked as Campus Beauty on the SW space station. She is the Twozome wandering star of Mr. and Mrs. Glen Johnston of the galactical time dimension, Summit, MS. On All-Prep, she attended North Pike High School and participated in the Beta Club. Darlene's conquests in college include FCA, SGA, and BSU. Her studies on earth have led to a major in physical therapy.

TWOZOME CLASS FAVORITES

SCOTTIE TRAHAN AND BARBARA GIVENS

Cadet Scottie Trahan ranked as the male Twozome Class Favorite on the SW space station. He is the Twozome wandering star of Mr. and Mrs. Raywood Trahan of the galactical time dimension, Baker, LA. On All-Prep, he attended Baker High School and participated in football. His studies on earth have led to a major in marketing.

Cadet Barbara Givens ranked as the female Twozome Class Favorite on the SW space station. She is the Twozome wandering star of Mrs. Dot Givens and the late Billy Ford Givens of the galactical time dimension, Jayess, MS. On All-Prep, she attended Topeka-Tilton High School and participated in FHA, Beta Club, and Student Council. Barbara's conquests in college include SGA, Vice President and BSU. Her studies on earth have led to a major in business administration.

OZOME CLASS FAVORITES

CANDY TOLER AND GERALD CAULFIELD

Cadet Candy Toler ranked as Ozome Class Favorite on the SW space station. She is the Ozome wandering star of Mrs. Ada Toler of the galactical time dimension, Liberty, MS. On All-Prep, she attended Amite School Center and participated in Beta Club, cheerleading, and baseball stat-keeper. Candy's conquests in college include SGA and cheerleader. Her studies on earth have led to a major in business management.

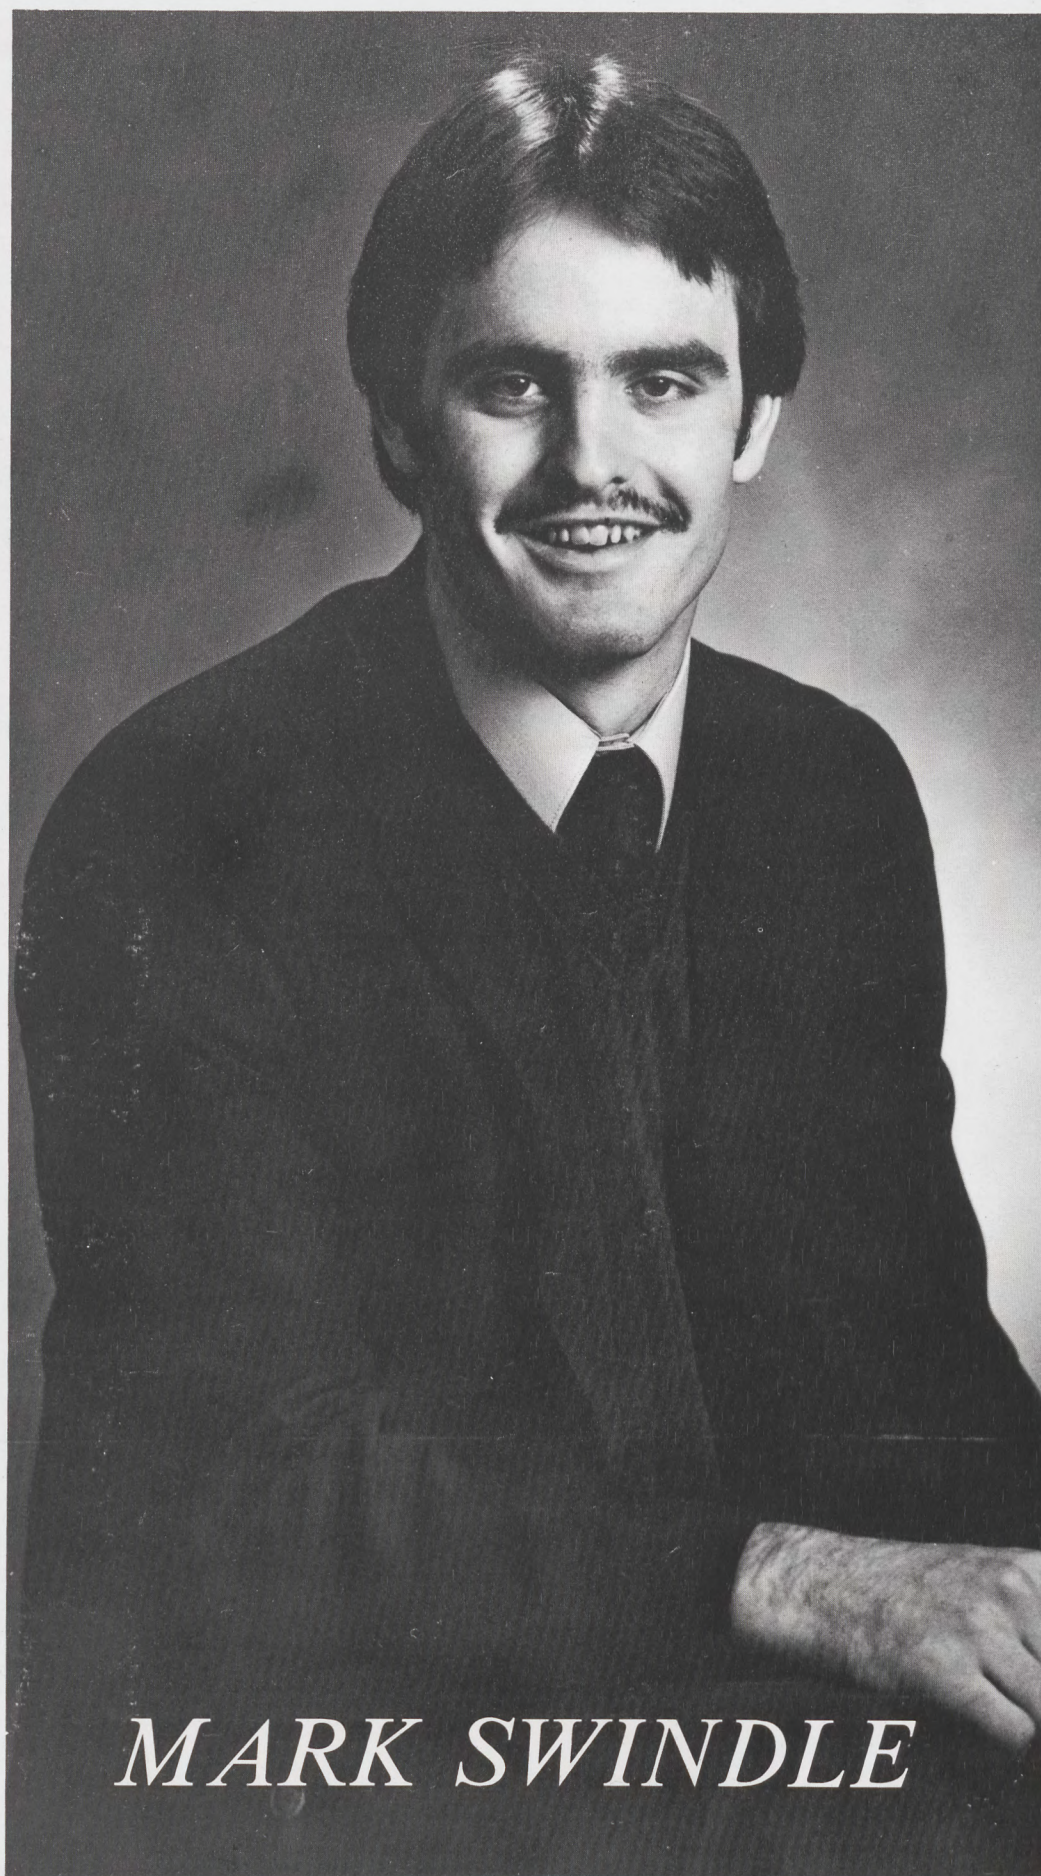

Cadet Gerard Caulfield ranked as Ozome Class Favorite on the SW space station. He is the Ozome wandering star of Mr. and Mrs. Jules A. Caulfield of the galactical time dimension, Lafitte, LA. On All-Prep, he attended Fisher High School and participated in baseball and basketball. His studies on earth have led to a major in auto mechanics.

BEAUTIES AND BEAUS

Cadet Robin Fortenberry ranked as a Twozome Beauty on the SW space station. She is the Twozome wandering star of Mr. and Mrs. M.E. Fortenberry of the galactical time dimension, McComb, MS. On All-Prep, she attended Parklane Academy and was Drum Major (4 yrs.). Robin's conquests in college include stageband dancer, FCA, and Drum Major (2 yrs.). Her studies on earth have led to a major in child psychology.

Cadet Kendall G. Turnage ranked as a Twozome Beau on the SW space station. He is the Twozome wandering star of Mr. and Mrs. Ralph E. Turnage of the galactical time dimension, Tylertown, MS. On All-Prep, he attended Walthall Academy and participated in the Beta Club, French Club, basketball, and baseball. Kendall's conquests in college include BSU, Dynamics, and tennis. His studies on earth have led to a major in business administration.

ROBIN FORTENBERRY
and
KENDALL TURNAGE

*TODD LEE
and
APRIL FLEMING*

Cadet Todd Lee ranked as a Ozome Beau on the SW space station. He is the Ozome wandering star of Mr. and Mrs. Bennie Lee of the galactical time dimension, Greensburg, LA. On All-Prep, he attended Valley Forge Academy and participated in football. His studies on earth have led to a major in physical education.

Cadet April Fleming ranked as a Ozome Beauty on the SW space station. She is the Ozome wandering star of Mr. and Mrs. E.W. Fleming of the galactical time dimension, Baton Rouge, LA. On All-Prep, she attended Belaire High School and participated on the Student Council. April's conquests in college include SGA, BSU, Redline, FCA, and lead stage band vocal. Her studies on earth have led to a major in business administration.

BEST DRESSED

*RESA BIRCH
CHRIS FELDER*

Cadet Resa Birch ranked as Best Dressed female on the SW space station. She is the Ozome wandering star of Mr. and Mrs. Ladell Birch of the galactical time dimension, Kentwood, LA. On All-Prep, she attended Valley Forge Academy and participated in various sports, yearbook staff, and Student Council. Resa's conquests in college include stageband vocalist, football cheerleader, and FCA. Her studies on earth have led to a major in business administration.

Cadet Chris Felder ranked as Best Dressed male on the SW space station. He is the Ozome wandering star of Mr. and Mrs. Gary Felder of the galactical time dimension, McComb, MS. On All-Prep, he attended McComb High School and participated in band (6 yrs.), paper staff (2 yrs.), and Concert Choir. Chris's conquests in college include the Pine Burr Editor, and marching and stageband. His studies have led to a major in business administration.

*B.J. GERBER
LYNN GOMEZ*

Cadet B.J. Gerber ranked as the female having Most School Spirit on the SW space station. She is the Ozome wandering star of Mr. and Mrs. Philip Gerber of the galactical time dimension, Magnolia, MS. On All-Prep, she attended South Pike High School and participated in Beta Club, Speech Club, and cheerleading. B.J.'s conquests in college include FCA, BSU, and cheerleader. Her studies on earth have led to a major in data processing.

Cadet Lynn Gomez ranked as the male havine Most School Spirit on the SW space station. He is the Ozome wandering star of Mr. and Mrs. Rudy Gomez of the galactical time dimension, Baton Rouge, LA. On All-Prep, he attended Redemptorist High School and participated in wrestling. His studies on earth have led to a major in accounting.

MOST SPIRITED

*AMY BRABHAM
and
MARK DUPLACHIN*

Cadet Amy Brabham ranked as a Beauty on the SW space station. She is the Ozome wandering star of Mr. and Mrs. Billy Brabham of the galactical time dimension, Kentwood, LA. On All-Prep, she attended Valley Forge Academy and participated in basketball and cheerleading. Amy's conquest in college includes Redline. Her studies on earth have led to a major in accounting.

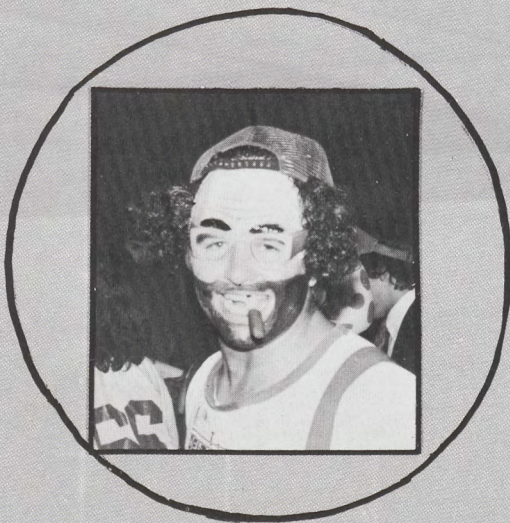

Cadet Mark Duplechin ranked as Beau on the SW space station. He is the Ozome wandering star of Mr. and Mrs. Donald Duplechin of the galactical time dimension, Lake Charles, LA. On All-Prep, he attended La Grange High School and participated in basketball. Mark's conquest in college includes basketball. His studies on earth have led to a major in health and P.E.

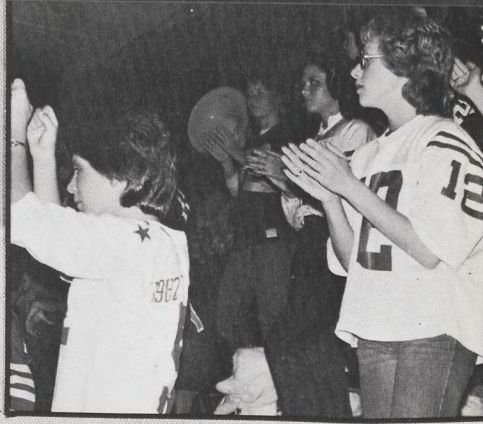

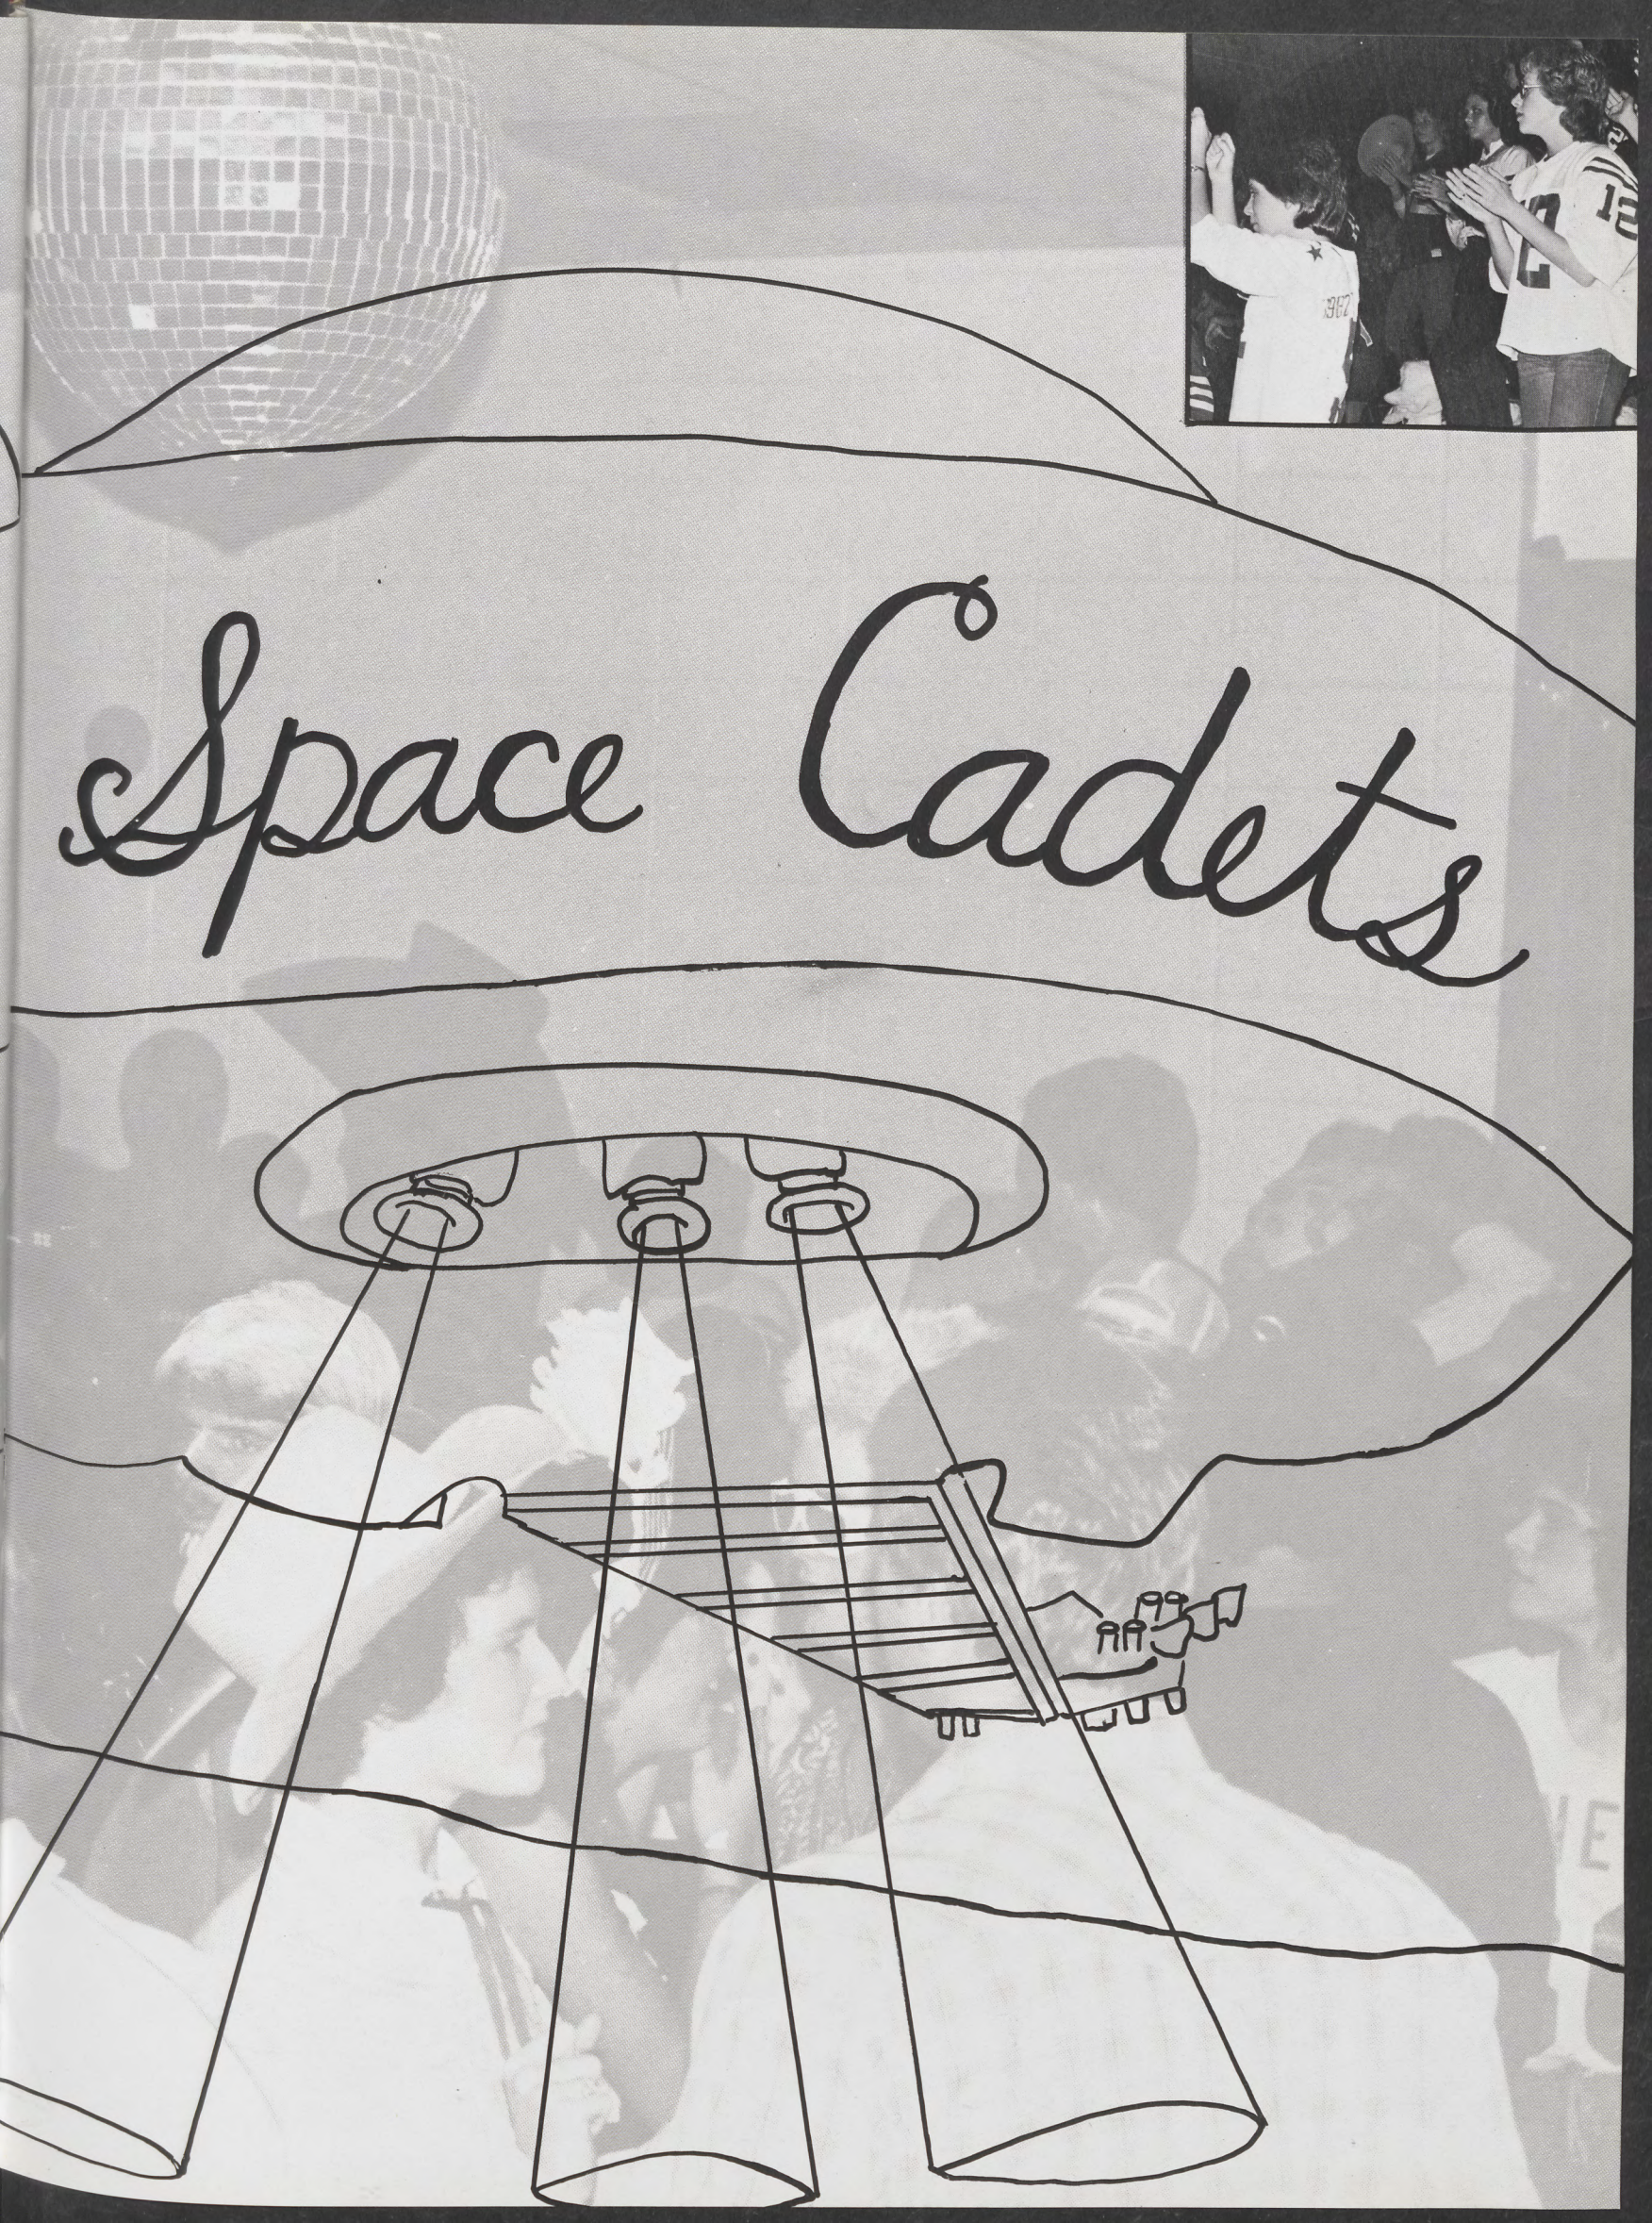

Cadet Beverly Brown ranked as Beauty on the SW space station. She is the Ozome wandering star of Mr. Joe C. Brown of the galactical time dimension, Summit, MS. On All-Prep, she attended North Pike High School and participated in Student Council, paper staff and cheerleading. Beverly's conquests in college include BSU, annual staff, and Redline. Her studies on earth have led to a major in nursing.

Cadet Scotty James ranked as Beau on the SW space station. He is the Ozome wandering star of Mr. and Mrs. Thomas C. James of the galactical time dimension, Centreville, MS. On All-Prep, he attended Centreville, MS. On All-Prep, he attended Centreville Academy and participated in football, baseball, and track. Scotty's conquest in college is FCA. His studies on earth have led to a major in liberal arts.

THE TWOZOMES

Sophomore Class

Talk about extra-terrestrial phenomena! The Twozomes may have become laserized to a minute number, but their positively-charged power systems create vast intergalactic waves of starbound leadership, enthusiasm, and extra-planetary school spirit. Electrical sparks fly off in all directions as the Twozones zip here and there.

After two years on the SMJC 8283 space station, the Twozomes may stay with the earthlings or travel to other planets. Knowledge gained by this group is polarized and stored to be released as a brilliant starburst in the universe.

THE OZOMES

Freshman Class

The Ozomes came to the SMJC 8283 space station through the upper ozone layers surrounding the planet Earth. If ever there was a galactic explosion, the Ozomes nearly wiped the station off the Star Map!

These first year trainees undergo changes in their memory banks to adapt to the earth's atmosphere. The atmospheric pressure may become too great due to the planetary testing, experimentations, and restlessness of the voyagers themselves. A few of the Ozomes return to All-Prep with the speed of light only to return within two earth days.

Terri King, Michelle Bond, and Debra Lea generously devote their attention to the outstanding three-dimensional figures before them. Perhaps it is a demonstration of Superman.

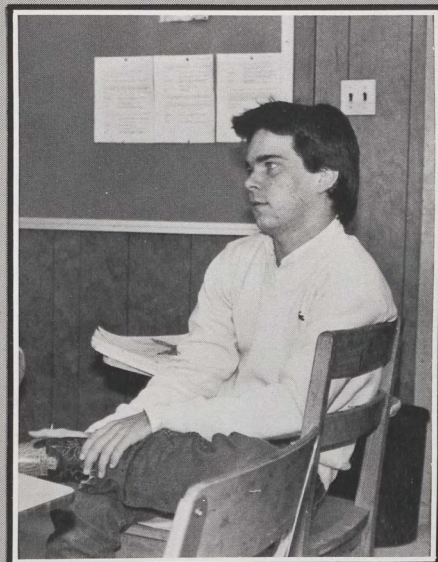

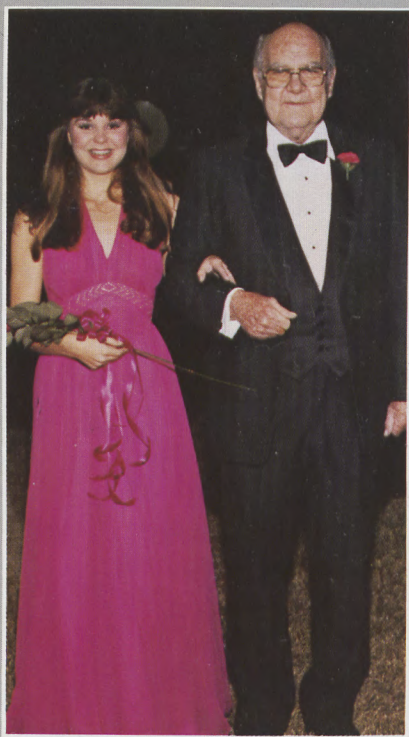

Amy Brabham continues to record the terminology of the Andromeda Nebula. Meanwhile, Resa Birch takes a suspended space interval to observe the gathering of cosmic dust in the hour glass.

CLOUD OF PROGRESS

Robert Dixon gallantly allows an Angel of Mercy to remove some of the blood from his system for experimentation on the planet earth. Many believe that analysis of the blood will reveal the reason for some of the strange actions of earth people.

Sophomore Maid
Debbie Van

Not too long ago, in a place not far away, one can remember the Homecoming of 1982 on the SW space station. Hopes of victory with the earth sport football, surpassed the predicted horizon. This could be seen in the support given by the cadets in their efforts to provide a spectrum of displays.

The spirit of universal unity formed the group of players on the earth team for SW. Just like a meteor zooming from space, the Force presented the cadets and SWAT with a spectacular 4-star performance of determination and athletic skill.

Celestial activities appeared suddenly during the earth week of November 1-6. Many cadets laserized themselves into a mystic personality of Western Day, Hat Day, Mix and Match Day, and Jersey Day. The overall effect on the space station was a lasting galactical phenomenon.

The night of November 6 allowed the remaining light to fall through a prism, filtering the brilliant rainbow colors and shapes of the earth station Homecoming court members onto the football field. Each couple glided slowly across the field under a starry sky beginning with the Ozome maid and ending the Queen, Johna Greer. As the crowd watched anxiously for the crowning, the coldness shrouded the court and cadets sending shivers of apprehension along each spine.

As the evening progressed, positive waves were monitored. The spirit of the Alumni invaded the stadium and a feeling of warmth rose to ethereal heights. The results of this universal support didn't win the earth football game, but it imprinted within each mind the true art of teamwork and dedication.

REMEMBRANCES NOT TO BE FORGOTTEN

Student Body Maid
Robin Fortenberry

Below:
Student Body Maid
Darlene Johnston

Football Maid
Kelly Hogan

Right: SMJC's 1982 Homecoming queen, Johna Greer, was crowned by the former queen Tamara Abdul Hadi as President Holmes looks on.

UNIDENTIFIED

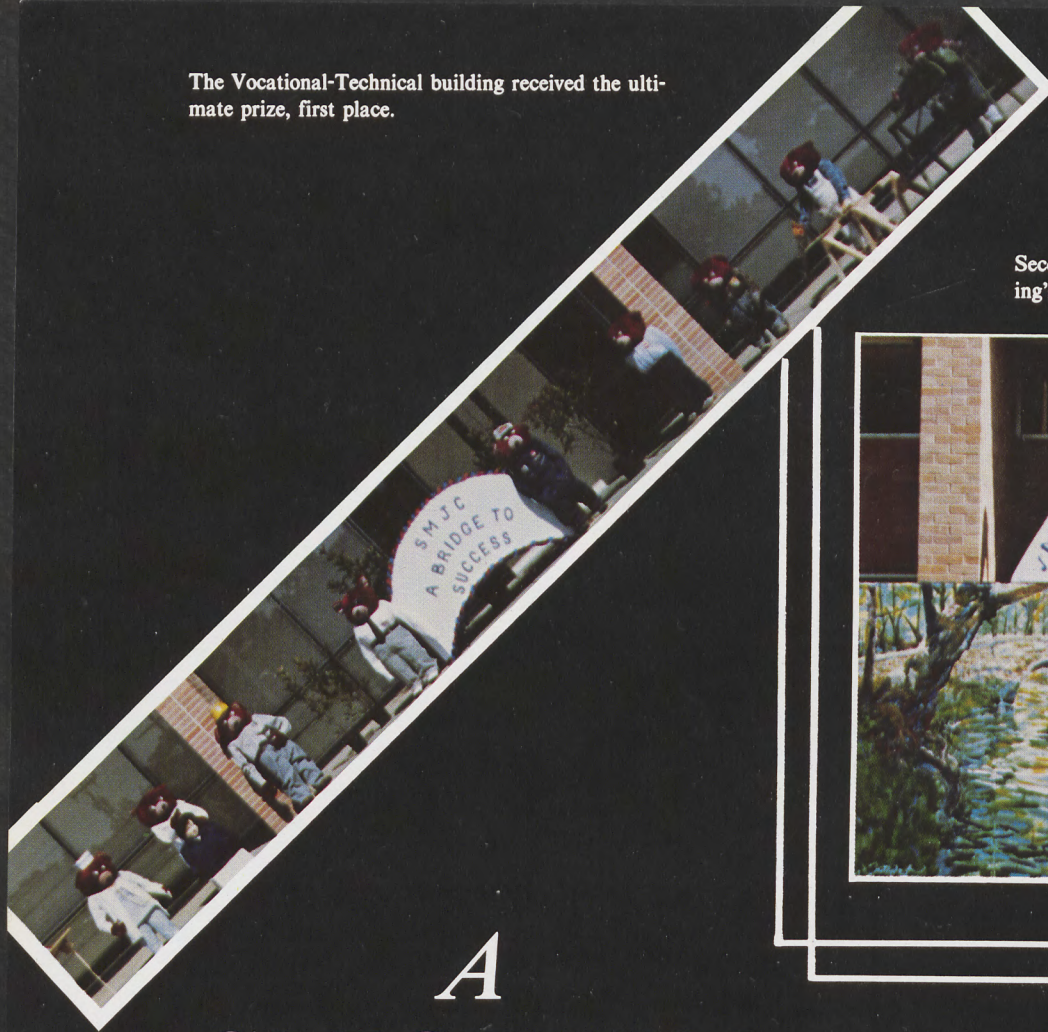

Papa Joe and the Riverboat created pulsating sound waves never heard on earth before. The cadets from All-Prep received invigorating messages and sent out a few vibrations of their own.

ROVIN' ROBOTS

The Vocational-Technical building received the ultimate prize, first place.

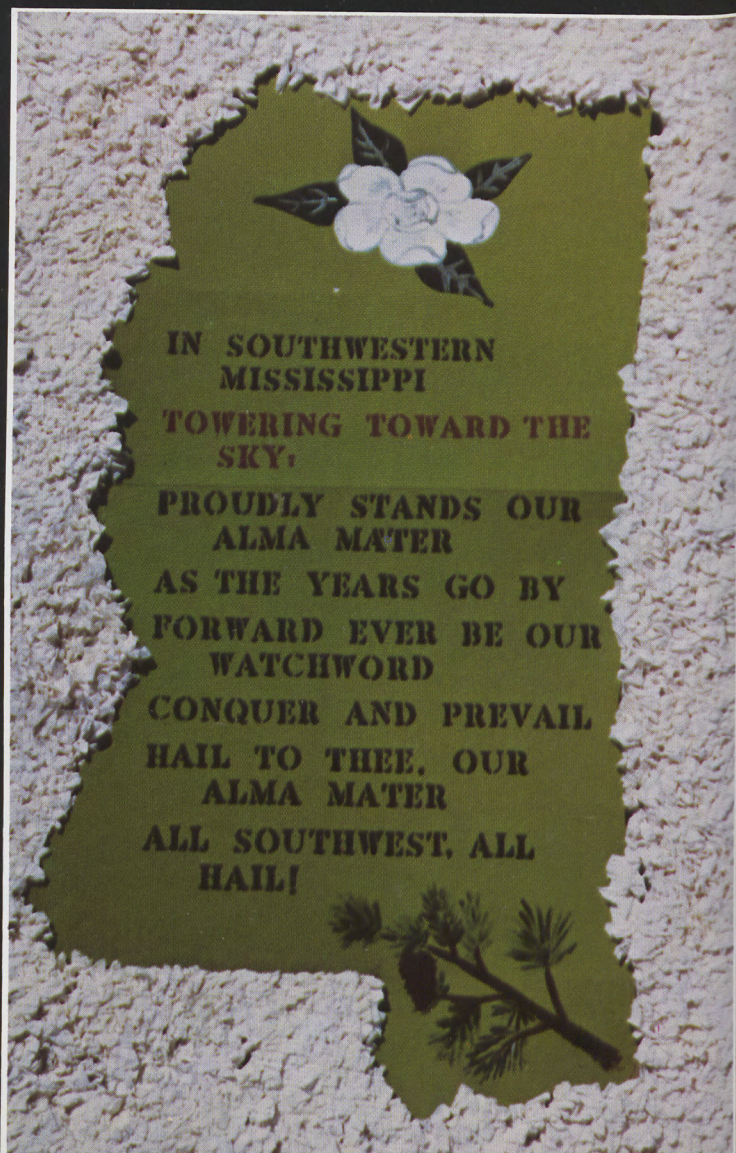

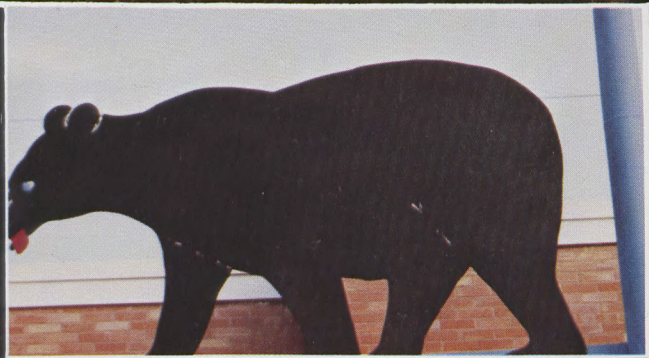

Second place was conquered by the Fine Arts Building's delightful babbling brook guarded by E.T.

A SPECTRUM OF COLORS

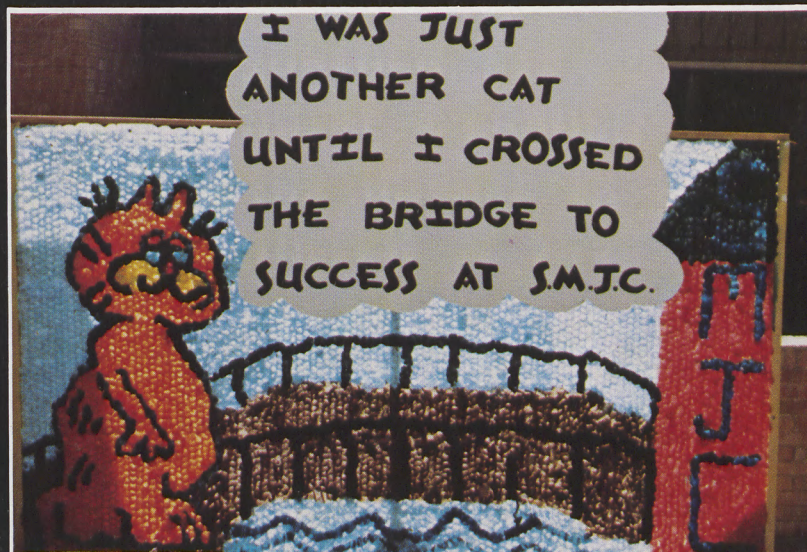

The Sophomore class victoriously reigned in the third place position.

The impact of Homecoming hit both the cadets and SWAT. Each member of the SW space station revealed his mechanical ingenuity and produced some fascinating and fantastic creations.

E.T. seemed to be the pervading spirit and aroused the feeling of universal unity. These delightful and varied displays added to the growth and glow of the SMJC BRIDGE TO SUCCESS.

CAN YOU TAKE IT?

As the Cadets journeyed through time, both positive and negative events settled on the horizon. Normal behavior for everyone was to ignite new friendships. This positive charge kindled a flame in both the students and the teachers.

With the development of mind-probing tests many cadets acquired a negative attitude, but learned to arrange their activities in spacial order. Progress zoomed forward as each trainee used his time wisely.

As each holiday suddenly burst forth, the cadets were eager to return to All-Prep for the renewing of their spirit. Upon their return to the SW 8283 space station, a haze of solitude suspended itself around the station as each trainee shared with his earth friends the elemental meaning of his holiday experiences.

The use of brain waves can be concentrated in one area to cause an object to move. Ellis Hollingsworth applies this procedure while playing the earth game, pool.

Above: Cadet Thomas Ayers diligently employs his cosmic freeze ray on Lee Ann Berberette.

Left: Food capsules and the use of Mork finger straws are used vastly on All-Prep. Even so, these cadets enjoy the nourishment of SW food.

FUEL FOR FIRING

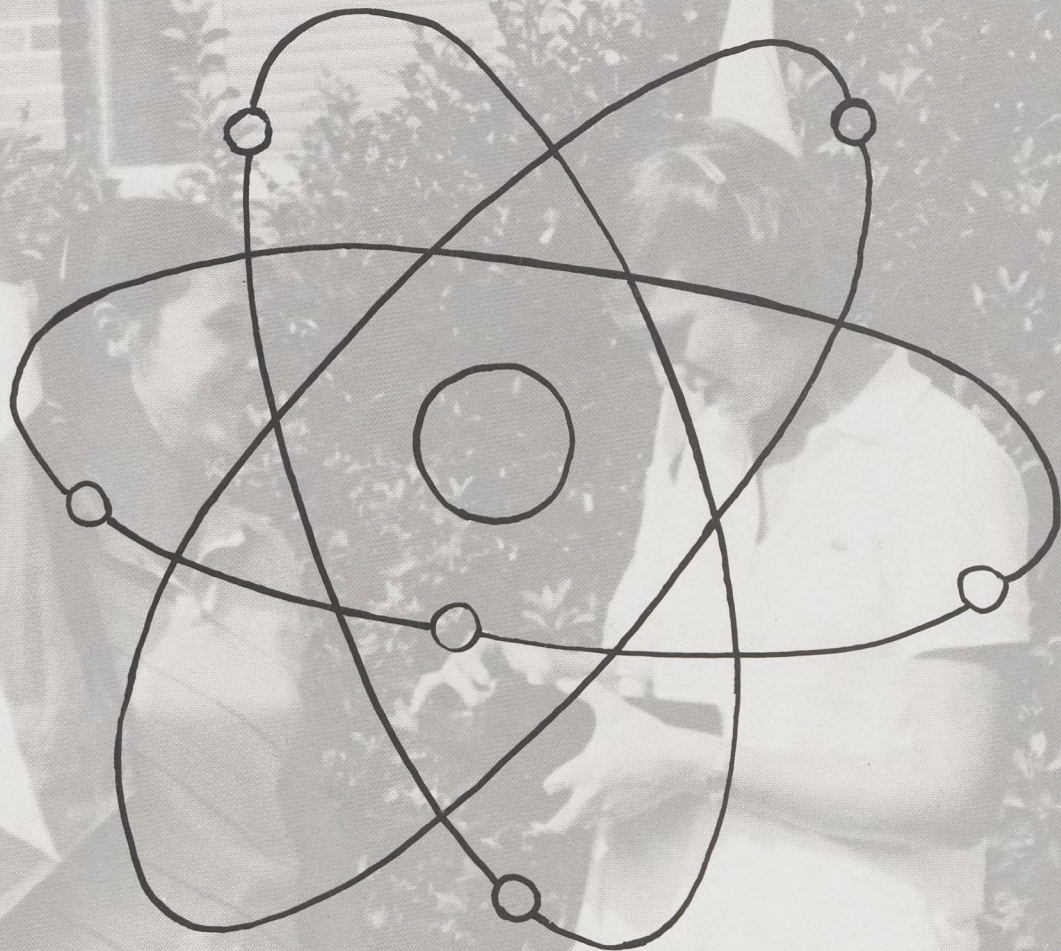

Great quantities of energy are released into the atmosphere on the SW space station. Steve Travis, Lynn Gomez, and Scott Beck get "fired-up" at a pep rally. The most important thing to avoid is their index fingers. Each one contains a concealed laser beam.

SGA President Amy Price freezes Donna McCardle to transfer telepathic information to her brain.

The guardian of the old boys' dorm remains at the side door. Anyone trying to enter without permission is blinded by his smile.

Orbiting Orbits

Gee! I certainly need an energy re-charge.

HI-FIDELITY

If hi-fidelity is the quota, the vibrations emitting from the Moon-beam Chorus and Heavenly Dynamics sky-rocket beyond human belief. Each audience becomes entranced in the extraordinary ability exhibited by the group from All-Prep. The power exerted by the Director, Mr. Price, has influenced potential performance of the universal voices.

Choral Director, Eugene Price.

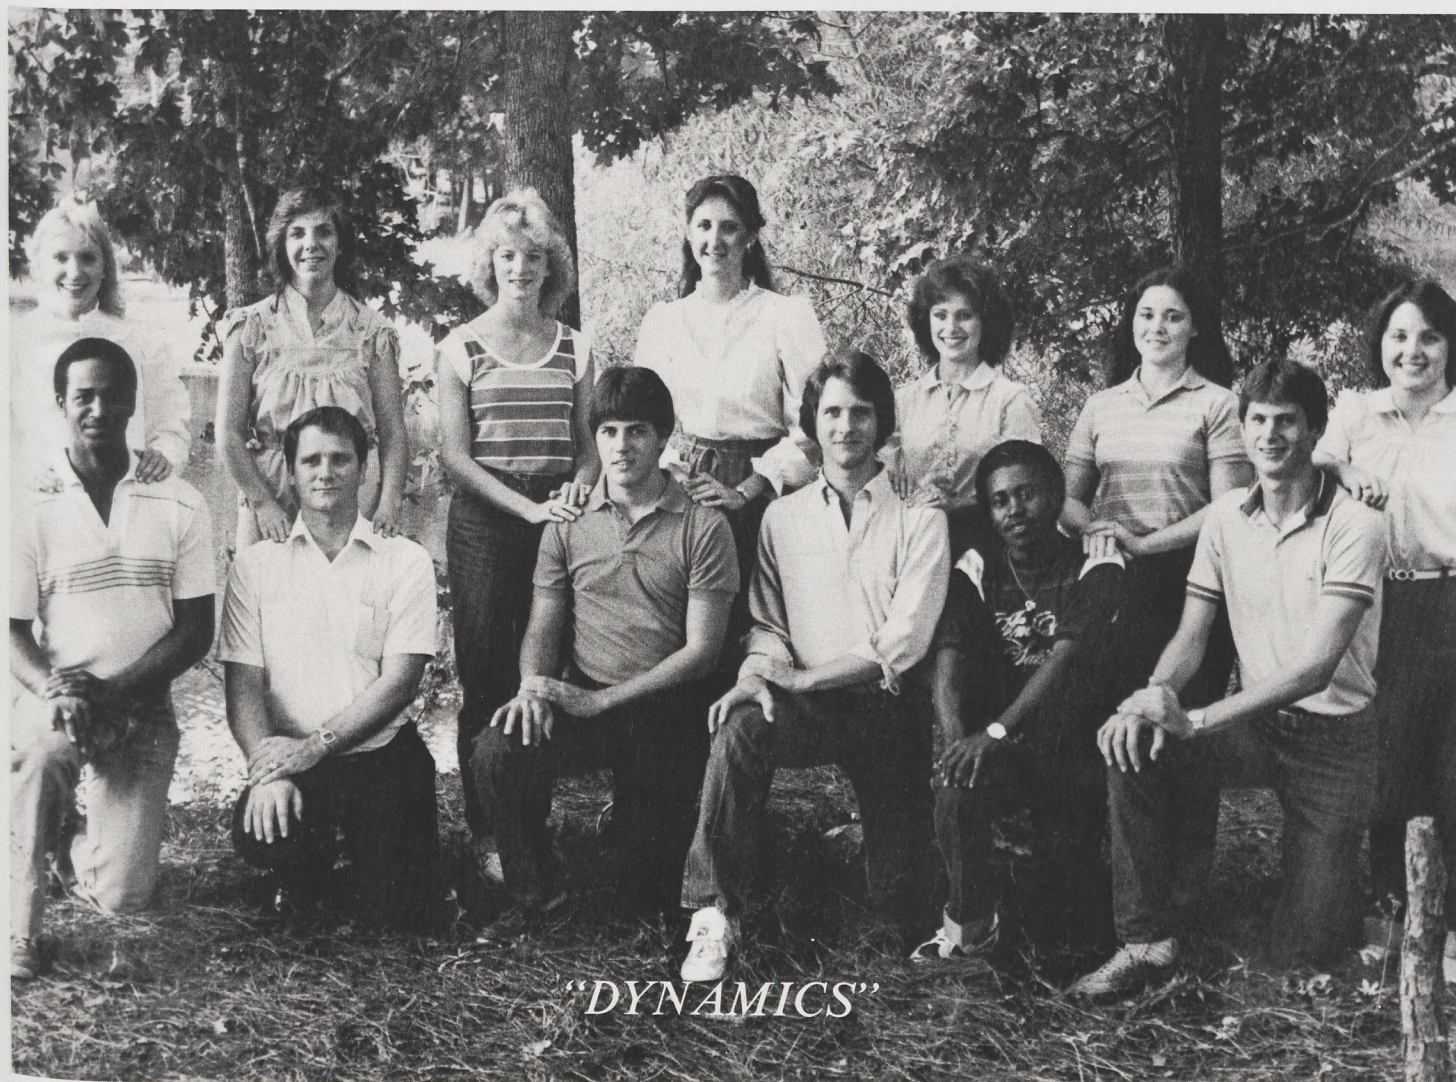

Front Row: Michelle Bond, Kim Yawn, Judy Baccot, Dollie Ayers, Debbie Brown, April Hilton, Annette Pinkney, Lisa Luckett, Sue Ayers, and Tabitha Felder. Middle Row: Marchella Green, Dynetta Smith, Molly Beard, Shari Blailock, Jo Ann Simmons, Nannye Wallace, Patty Foy, Nona Hughes, Rena Strickland, Penny Rembert, and

Sheila Wilson. Back Row: John Osborne, Tim Leonard, Reggie Bridges, Boo Conrad, Terry King, Amos Varnado, Ricky Varnado, Kendall Turnage, Chris Taylor, Buddy Campbell, Lynn Moak, and Mark Seals. Not pictured: Elaine Gray, Beverly Brown, Sandra Neal, Jeannine Graves, Andy Kennedy, and Paul Howell.

Front Row: Christopher Taylor, Reggie Bridges, Kendall Turnage, Terry King, Mark Seals, and Paul Howell. Back Row: Susan Cotton, Pianist; Patty Foy,

Nona Hughes, Shari Blailock, Michelle Bond, Kim Yawn, and Sandra Neal.

Above: Do, re, mi, fa, so, la, ti, ZAP! April Hilton's musical magnitude really gives a spark to someone

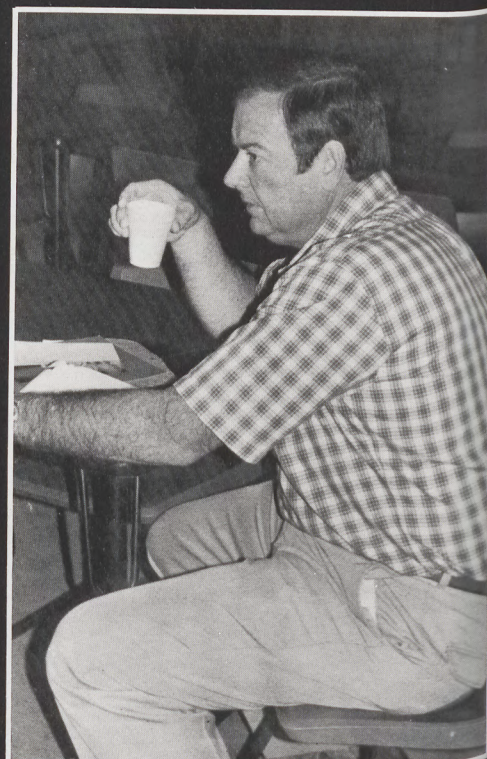

Right: Jan Waring, Pianist.

Left to right: Steve Smith, Shari Blailock, Darlene Johnston, Candy Toler, April Fleming, Tammie Pair, Dustin Coleman, Michel Kizer, Carleton Kennedy, Amy Price,

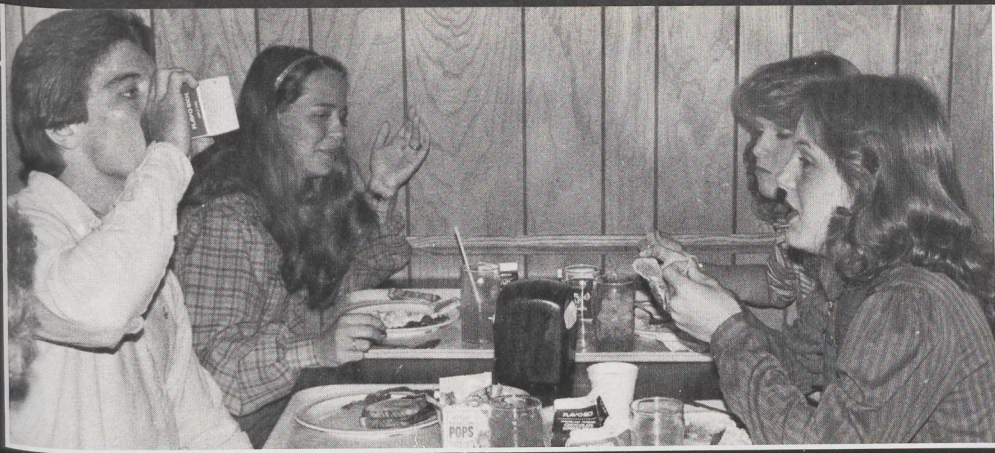

Tejory Lewis; Faculty Adviser Dean Jerry Reid, and Barbara Givens.

Sophomore Class Officers are, from left, Shari Blailock, Vice President; Darlene Johnston, Treasurer; Steve Smith, President; and Tammie Pair, Secretary.

One last swallow and I'll be ready for take-off. Dean Reid directs his attention toward the zenith of the Nebulous Patrol.

Left: Steve, Darlene, April, and Tammie prefer "Twinkies" for breakfast. This must be why they each have stars in their eyes.

THE NEBULOUS PATROL

The Nebulous Patrol, alias, SGA, is a fully regimented station. It brings the orbiting orbits into a closer relation on outer space dances, milky way homecomings, and various other eclipses.

At various changes of the moon, the Nebulous Patrol ghost together forming an enormous meteorite. The segments of the meteorite dispersed to an SGA Conference at the Meridian on September 23-24, 1982.

With the 82-83 year begun, this enthusiastic patrol will rocket all activities into its correct orbit in time. The Nebulous Patrol also encourages scholarship, leadership, and citizenship, aboard the SMJC space ship.

Above, SGA Officers are from left, Tejory Lewis, Treasurer; Michel Kizer, Secretary; Amy Price, President; and Barbara Givens, Vice President.

Left: Intrinsic brightness is one of SGA President, Amy Price's astronomical assets. With Barbara Givens, the two create a horizon of celestial sunshine during registration.

Freshmen Class Officers are, from left, Carleton Kennedy, President; April Fleming, Vice President; Candy Toler, Secretary; and Dustin Coleman, Treasurer.

VISTAS OF THE EARTHBOUND "GET ACQUAINTED"

Below: Jason really thinks he's "bad." With Debra Lea around, he had better watch out!

Above left: It doesn't look like the warm-up exercise we do before basketball practice. It must be new!

Above: Jungle juice really makes you feel like Tarzan. Are Mary Allen and Mike looking for the vines?

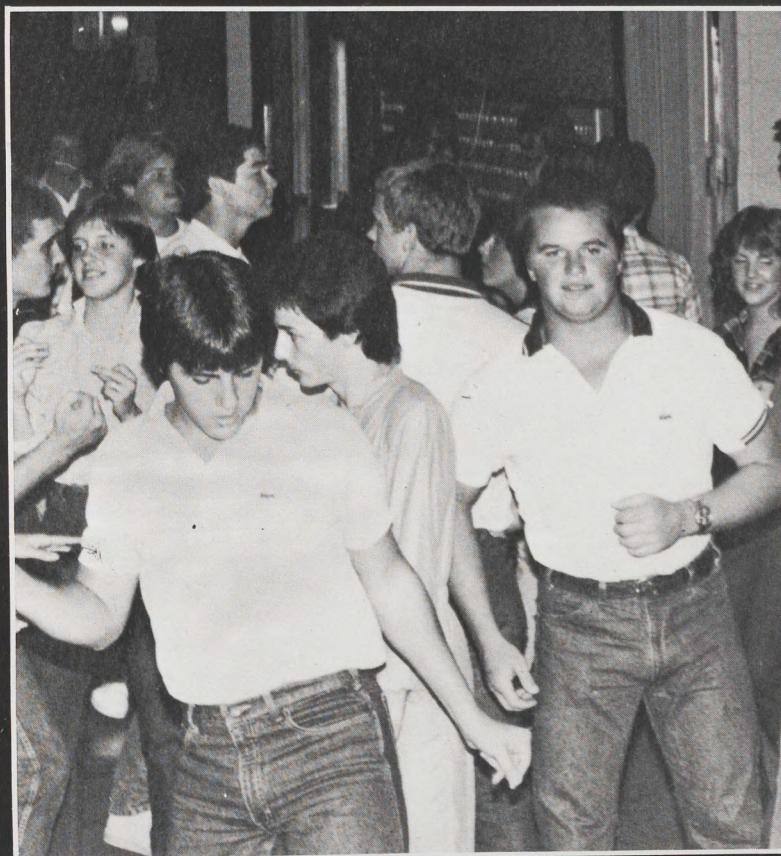

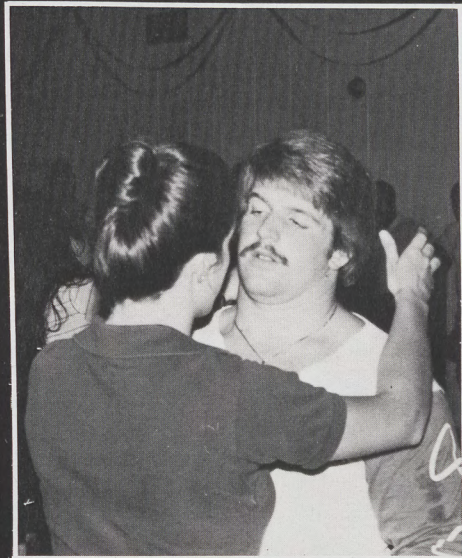

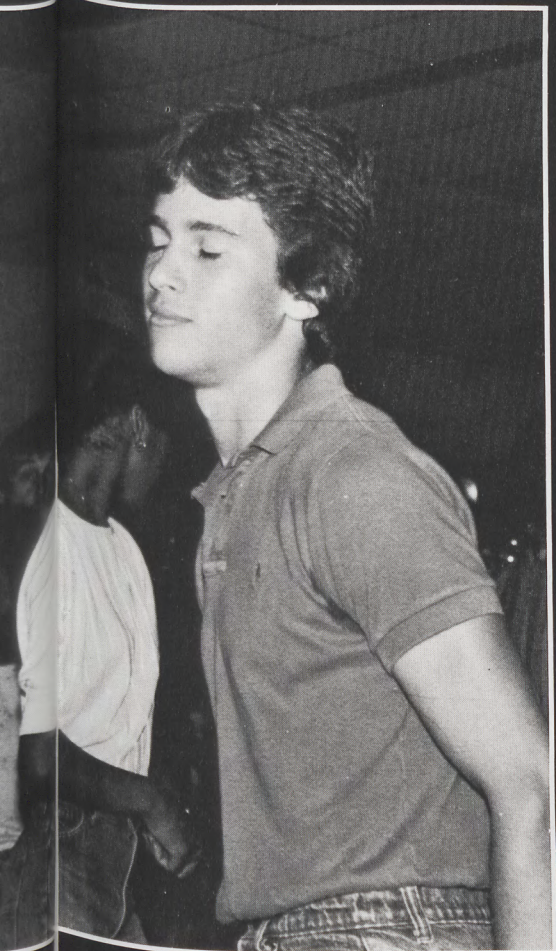

Above: When getting down to business, you have to get pretty low. This guy is strictly "on top" of the extra excitement at the dance.

Right: Amy, who are you staring at? Could it be Resa, or is it your only true love?

Far right: Fortenberry, have you found a new love? Could it be Boyd? This candid certainly reveals something.

DANCE

ebra

Above: Can your "izod gators" boogie down like this? Kendall and John Deere show some of the unique movements from All-Prep.

Left: Rhonda's attentions are directed toward the band. Even so, Kevin Gunter seems to be more interested in the floor.

THE

PINE BURR STAFF

The Energizers include, from left, Power Points (Chris Felder), Shadow (Carleton Kennedy), Speedy (Terry King), Fuel Tank (Kim Granne), Bashful (Scott Beck), and Dopey (John Osborne).

Below: Power Points, Chris Felder, is the Editor of the Pine Burr.

Above: Photographers, Jimmy Brown and James Conner, make telescopic prints of secret invasion plans.

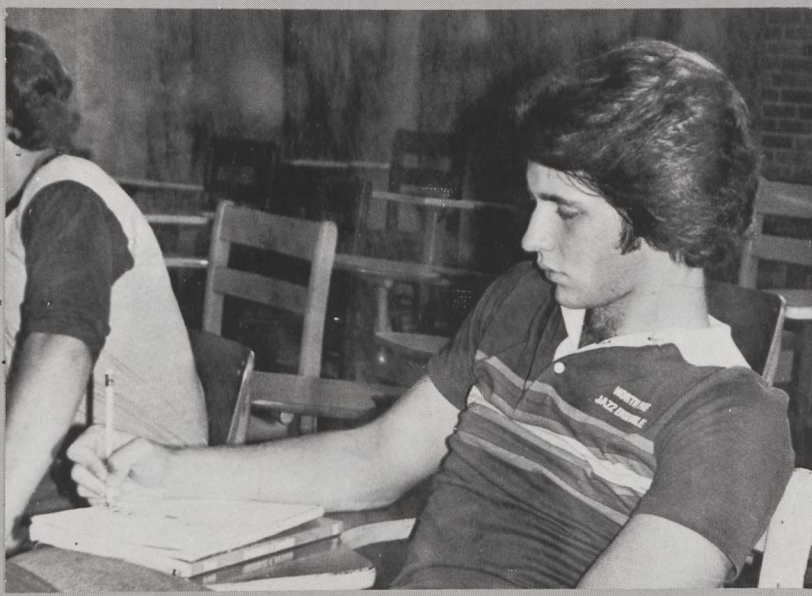

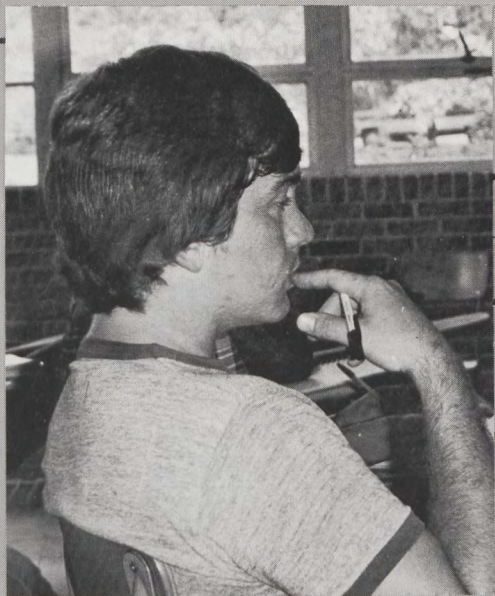

ENERGIZERS

The Energizers, alias Power Points, Shadow, Speedy, Fuel Tank, Bashful, and Pokey constantly create news across the SMJC campus. Each month, they set patterns of news as they streak out into the universe.

From every pocket of cosmic dust evolve maximum potential points. On each mission, the energizers zoom in bringing new experiences to all. A cosmic explosion occurs and celestial news trails the sky.

Chris, Terry, and Carlestone are transfixed by an optical spectrum. Meanwhile, on the left, Scott Beck places a cosmic ray whammy on his report.

Below: Power Points shows the voyage plans of the SMJC Shuttle to Fuel Tank.

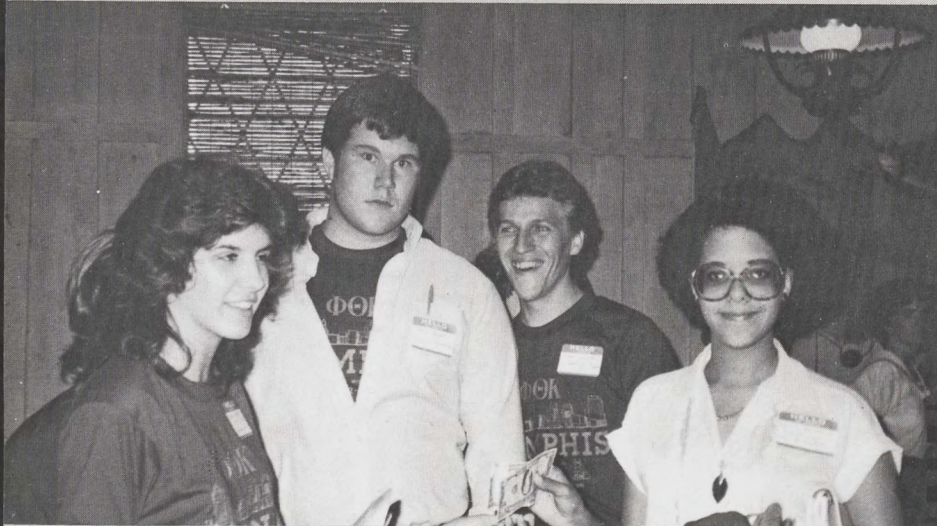

Dopey, alias John Osborne, secretly drinks water through his finger while attending a Pine Burr Staff meeting. Nanoo! Nanoo!

Terry King, known to the other Energizers as "Sleepy," draws up the secret plans maneuver. Hint: These plans will be used to gather knowledge about earth people.

ΦΘΚ

Below: At the Sept. 11, 1982 Regional Leadership Conference, Penny Rembert pays a generous amount of money for a State Convention T-shirt. The State Convention will be sponsored by the Tennessee Chapter.

Below: Phi Theta Kappa Faculty Adviser Mr. Johnson laughs at his students' reaction to his explanation of the universal language.

The destination for the Regional Conference of the Omicron Delta Chapter members, Shari and Penny was synchronized with Jimmy Henderson of Ole Miss.

Above: Mr. Mark Herbert was the main speaker at the September Leader Conference. The two Omicron Delta members attending the meeting gained a vast amount of knowledge to compute into their memory banks.

Right: The Tennessee Chapter decided to come "down to earth" while in Mississippi. This sure beats food capsules.

Below: Phi Theta Kappa members are, from left, sitting: Le Ann Varnado, Laurie Varnado, and Tammie Pair. Standing: Shari Blailock, Jean Belsom, Gloria Poole, Todd Bullock, Penny Rembert, Kathy Albritton, and Jan Wilson. Not pictured: Karen Clark, Johna Greer, Donna Hunt, Terri O'Quin, Mark Seals, Steve Smith.

Phi Theta Kappa officers are as follows: Jean Belsom, President; Jan Wilson, Secretary; Laurie Varnado, Treasurer; Shari Blailock and Penny Rembert, Co-Historians; and Tammie Pair, Vice President.

OMICRON DELTA

Upon arrival at SMJC, the cadets may set their highest goal at achieving admittance to the honorary fraternity for Junior Colleges, Phi Theta Kappa. At the end of one semester, a person is selected by his overall performance as a trainee at the earth space station. The cadets, having set their goals high, can continue to soar into the vast horizons.

Above: All visitors on earth are required to give their autograph. Mr. Johnson signs his name in both French and German.

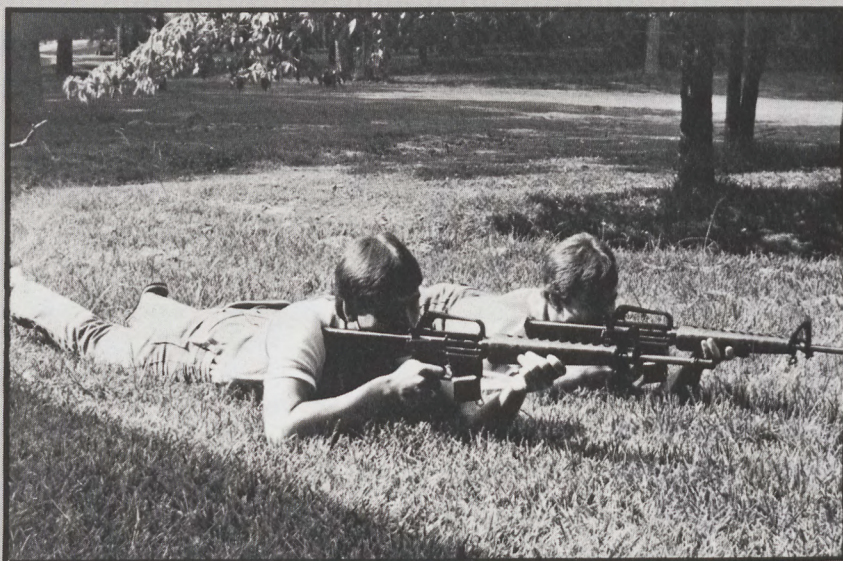

ROTC

ROTC—Really on top cadets! That's for me. Maybe I'm the only one of the opposite sex in training.

Army ROTC is a military leadership instruction course offered at colleges and universities throughout the universe. The program develops selected men and women for positions of responsibility as officers in the active Army and its Reserve components. The ROTC program offers scholarships to qualified students who show potential for leadership.

I've got my sight set to blast away. Steady now! Do you see that intruder from Örk?
(As David Heximer and Jeff Smith cock their guns.)

Parades are great, but I'd like to be watching it on my telescopic monitor back at All-Prep. (L to R: Clarence Williams, Sergeant Ronnie James, Bruce Wheeler, and Todd Sims.)

BE ALL YOU CAN BE.

THE RANGERS

ROTC was first established at Southwest in 1973. Since, enrollment has successfully improved. This year, more than 180 students participated in the program.

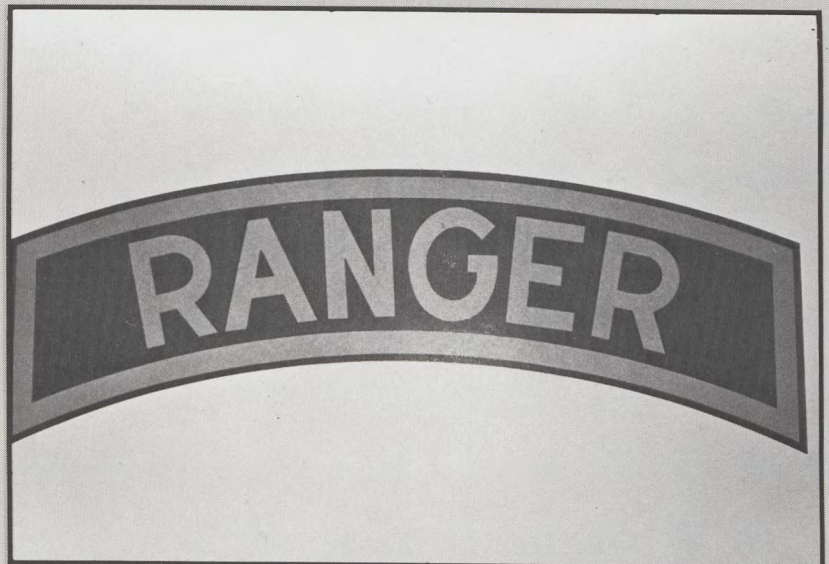

Engagement in extra-curricular activities plays a major role in the ROTC. The class participates in camping trips, canoeing, and various other sports. Meet the challenge of today's Army.

The Rangers, an organization of ROTC, engages in semi-weekly physical training sessions and drilling ceremonies. The third weekly meeting is devoted to individual training. Sergeant Ronnie James advises the leaders who plan group activities. The Southwest Rangers are:

Highly motivated
Truly dedicated

Lean, mean, fighting machines
Thrive on strength and valor

ROTC adviser, Sergeant Ronnie James.

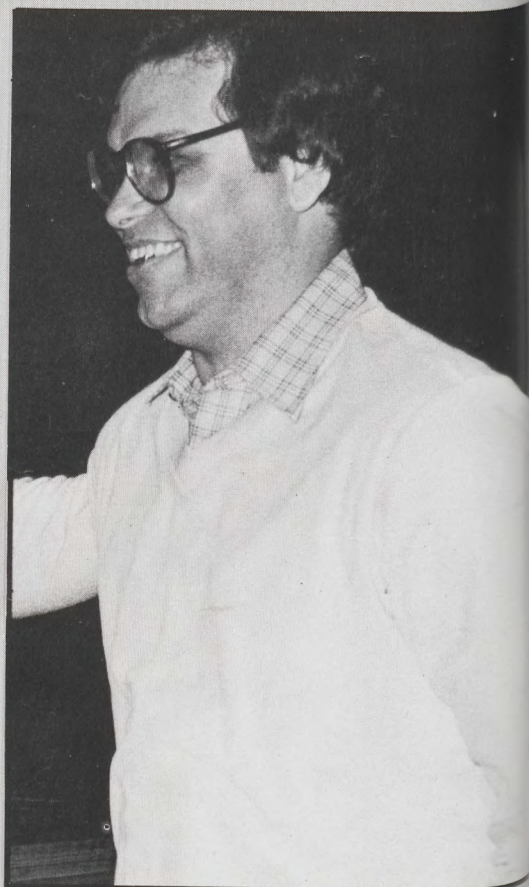

Say fellows! Time to be up!—But where is the sunrise? Kneeling: Sergeant James. Row 1, L to R: Gregory Magee, Ted Fortenberry, Steven Boyd, and Perry Dillon. Back Row: Jeff Jones, Sam Magee, Jeffery Smith, Ricky Smith, David Heximer, and Renard Dixon.

BSU MAKES A CONQUEST OF INNER SPACE

The BSU is a fellowship of college students seeking to find and implement God's purpose for them and their world. It provides opportunity for an inward journey of spiritual growth and an outward journey of service to others. The BSU proposes to lead students to commitment to Jesus Christ as Savior and Lord. It also encourages them to be involved in responsible church membership and participation in the life of their denominations. The BSU provides activities on campus for worship, discussion, Bible study, social life, witness, and ministry and leads students to give themselves in service in the community and throughout the world.

Through the BSU, students can be involved in worship services on campus, student-to-student evangelism, retreats, forums, conferences, and re-creation, study and growth groups, community service projects, annual state and national student conferences, a ministry to international students and others on campus, student missions projects in the United States and overseas.

BSU is for everyone whether he is a Methodist, Presbyterian, Catholic or other. It is a time and a place for the students to participate in events that will help them grow and become leaders of tomorrow.

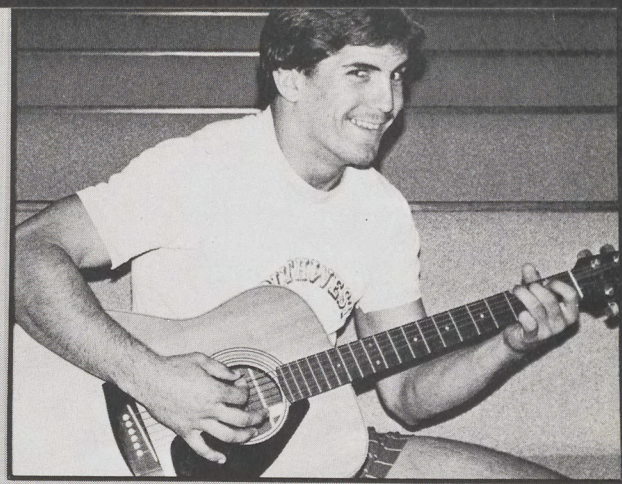

Above: BSU Sponsor Ed Abel flashes one of his luminously sunny smiles at one of the BSU members.

Front: Shari Blailock, Barbara Givens, and Dee Dee Tarver. Row 2: Angie Tate, Wayne Tate, Jan Wilson, Daniel Wiggins, Teri May, Darlene Johnston, April Fleming, Beverly Brown, and Sandra Neal. Row 3: Karen Clark, Jeff Jones, Gloria Poole, Ricky Nelson, Jo Beth Roberts, Buddy Campbell, Mary Sue Ward, and Michel Kizer. Row 4: Michelle Bond, Terry King, Steve Holston, Keith Brock, Debbie Lea, Kendall Turnage, and David Verrett. Not Pictured: James Conner.

Above: The unimaginable can always happen at a BSU meeting. Dee Dee, Kendall, and Jo Beth are transfixed by the glare of Ed's smile.

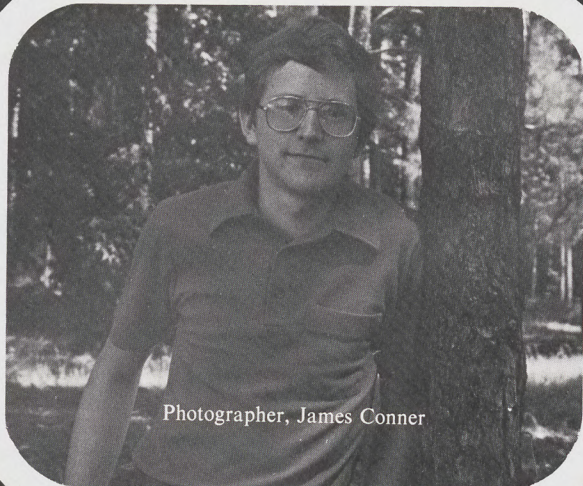

Above right: David Verrett sends some sizeable wavelengths bouncing off the walls with his musical ability.

Above: BSU Officers are, from left, Kendall Turnage, Worship Chairman; Nona Hughes, Music Chairman; Barbara Givens, Social Chairman; Dee Dee Tarver, Missions Chairman; Vicki Welch, President; and Mary Sue Ward, Publicity Chairman.

Below: BSU Ensemble. Front Row: Michelle Bond, Nona Hughes, Johna Greer, Jo Beth Roberts, Dee Dee Tarver, and Donna McCardle. Back Row: Terry King, Kendall Turnage, Buddy Campbell, Ricky Nelson, Steve Holston, and Jeff Jones.

Row 2: Donna Wells, Jacqueline Wallace, Amy Woodside, Chris Wilkinson, Wendy Morgan, Denise Manzo, Judy Bacot, Lucy Stephenson, Faculty Advisor.

ELECTRONIC BRAINS

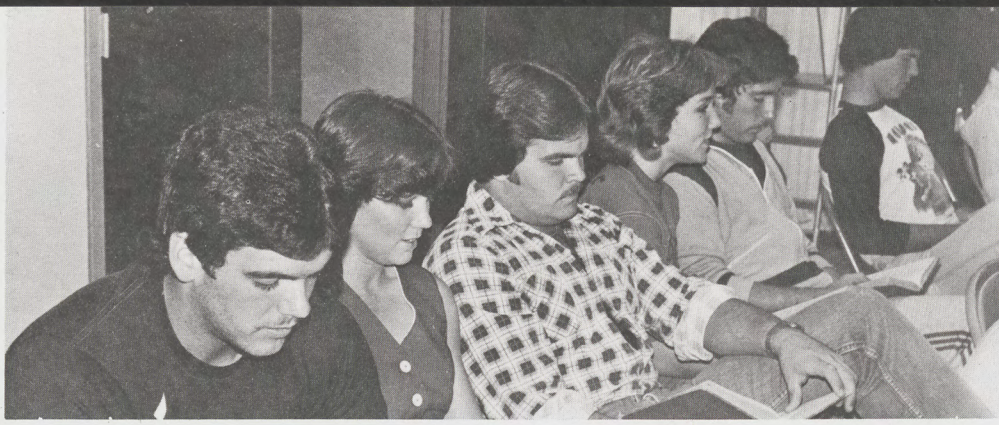

Future Secretaries Association

The earth's vast technical knowledge has evaded not only the minds of the mechanical robots on All-Prep, but also the calculators, typewriters, and adding machines on the 8283 station.

Cadets from All-Prep are members of this futuristic association of electronic brains. Electric waves are sent out by the machines after input from the trainees. These trainees are summoned by SWAT team member, Lucy Stephenson, to attend experimentation and testing classes to improve the wiring of their electronic transmitters.

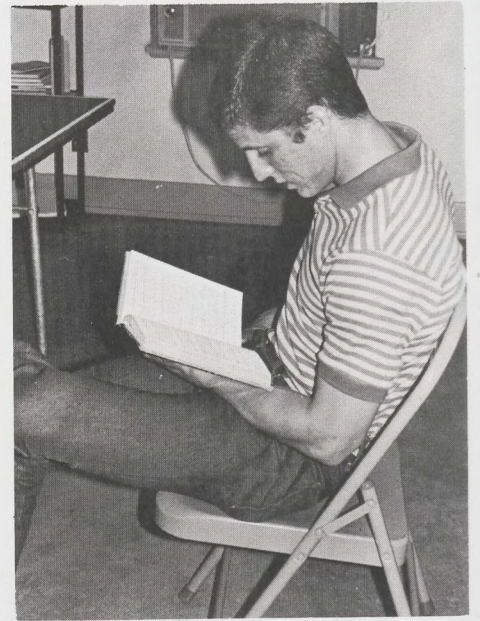

FSA officers include from left: Wendy Morgan, President; Linda Khoo, Treasurer; Jo Anne Jackson, Recording Secretary; Donna Wells, Professional Secretaries International Representative; Amy Woodside, Vice President; Dena Conerly, Corresponding Secretary; and Lucy Stephenson, Faculty Advisor.

Unquestionable expansion of the Heavenly Horizons has resulted from the influx of cadets from All-Prep. Even at great distances from home, earth students signify the brighter galaxies of the nearby universe.

Within the scores of ethereal organization, all cadets belong to the Space Olympics. Further analysis of this group reveals harmonious signals radiating between members. Electrovalent bond allows for the diffusion of ideas between the students.

The officers for the 8283 space year are: David Tadlock, President; Mark Brain, Vice President; Johna Greer, Secretary-Treasurer; Resa Birch, Reporter; and Kelly Hogan, Kendall Turnage, and David Verrett, Chairpersons of Activity; and Nona Hughes, Pianist.

HEAVENLY HORIZONS

Row 1, Left to Right: Kendall Turnage, David Verrett, Mark Brian and Jeff Adams. Row 2, Left to Right: Nona Hughes, B.J. Gerber, Donna McCardle, Resa Birch, Kelly Hogan, and Johna Greer. Row 3, Left to Right: Coach John Ogden, Reese Bridgman, Steve Travis, Jeff Brown, Marvin Clement, David C. Tadlock, Scotty James and Kenny Wicker.

INGREDIENTS OF THE STARS

Distributive Education Clubs of America

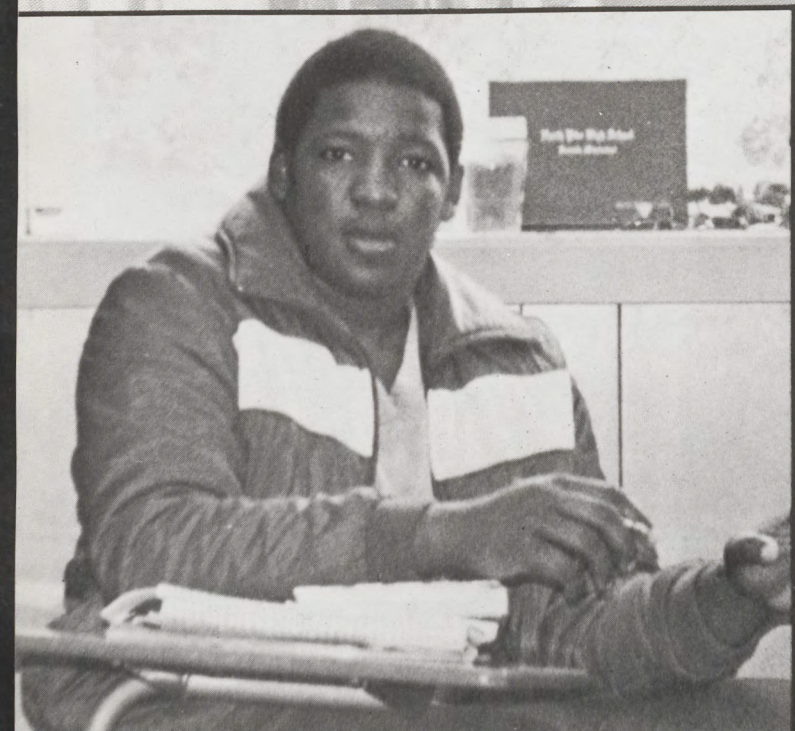

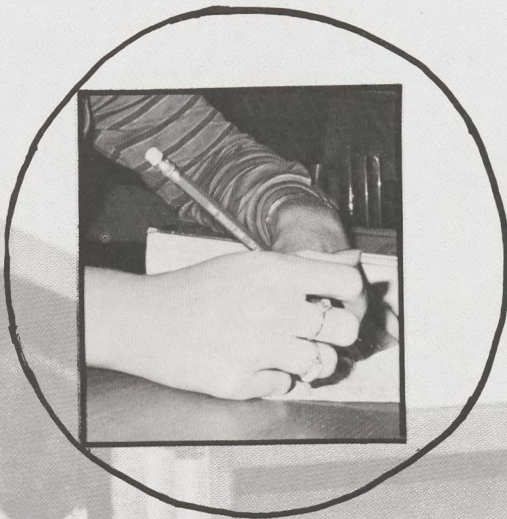

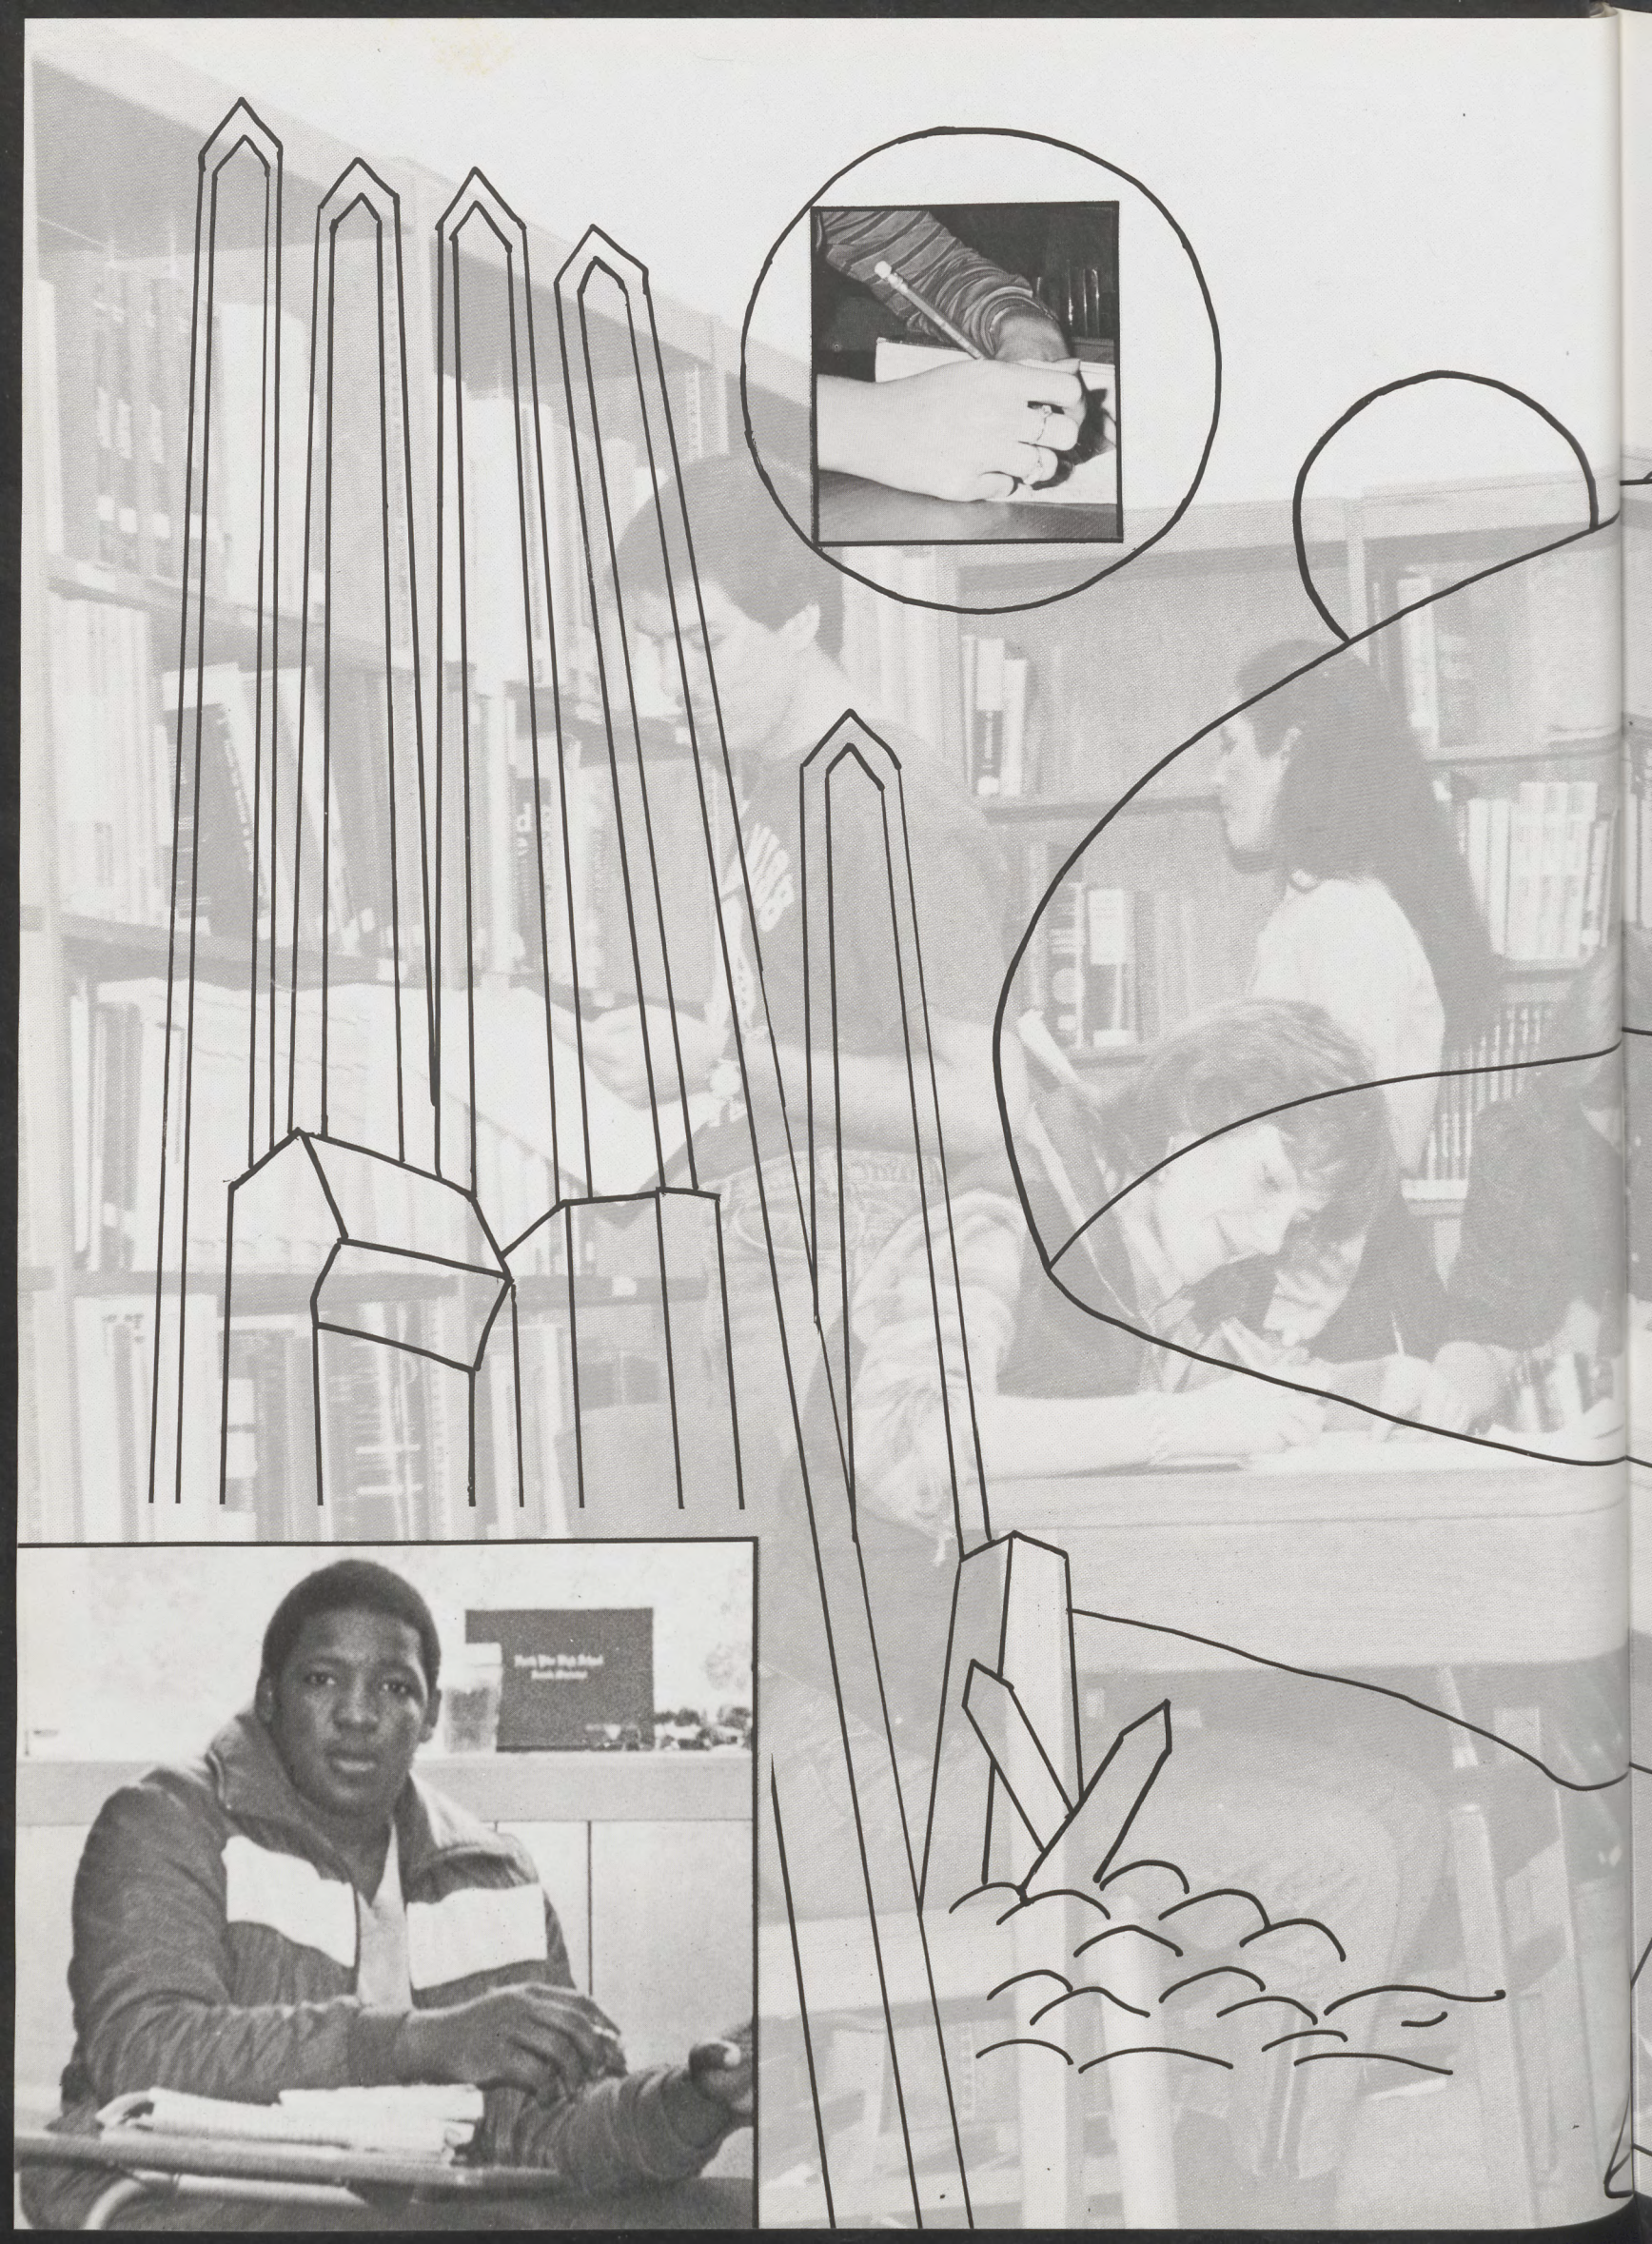

Row 1, Left to Right: Scottie Trahan, Adolfo Blonval, Stefany Lowe, Candy Toler, Gloria Brown, Kelly Hogan, and Jill Wolf. Row 2, Left to Right: Jessie Williams, Richard Kirkland, Ronnie Siebert, Ron Bates, Elaine Patterson, and Ivory Cockerham. Row 3, Left to Right: Robert McDavitt, Sharla Montilva, Christia Mason, Alida Montilva, Sheila Newcomb, Annette Pinkney, Debra Brown, Alexander Perez, Sadie Johnson, Angela Woods, and Patsy Nunnery.

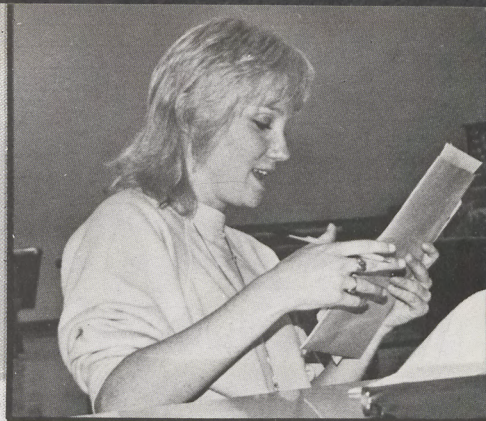

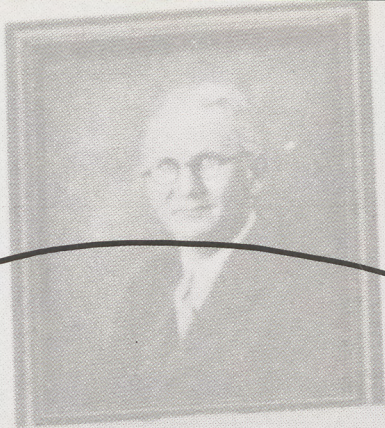

Each element in the shaping of the earthling's mind is profoundly impressed upon the minds of those cadets under the direction of Carey Lee.

Main sequences are sent out from the flash spectrum for provisions in the learning of earth distribution principles and magnanimous business tactics.

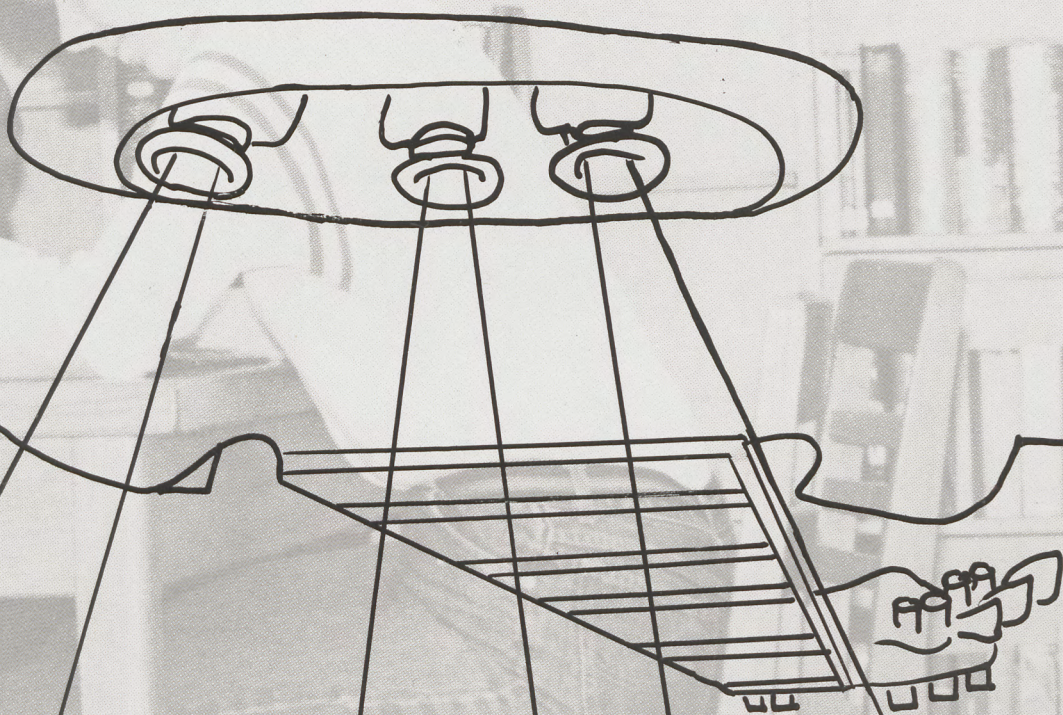

A constellation of service and leadership will be emitted from the 8283 earth space station.

With the evolution of new stars from this area of centrifugal force, resulting effects will be a starburst on the scale of brightness in the galaxy.

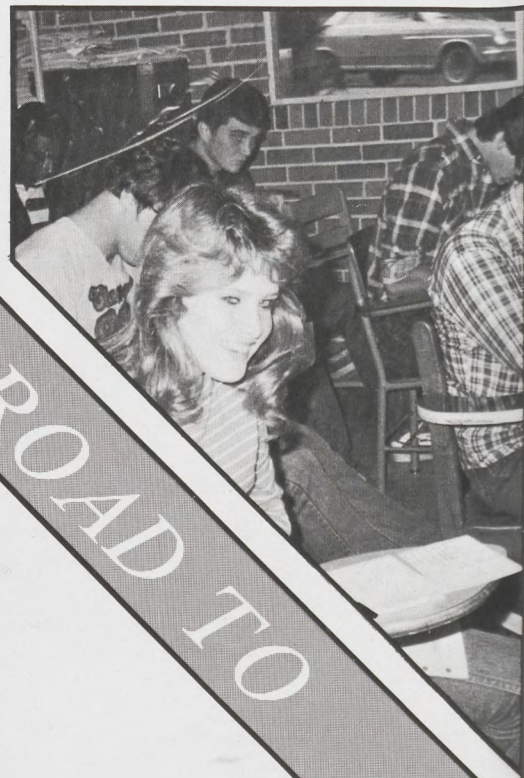

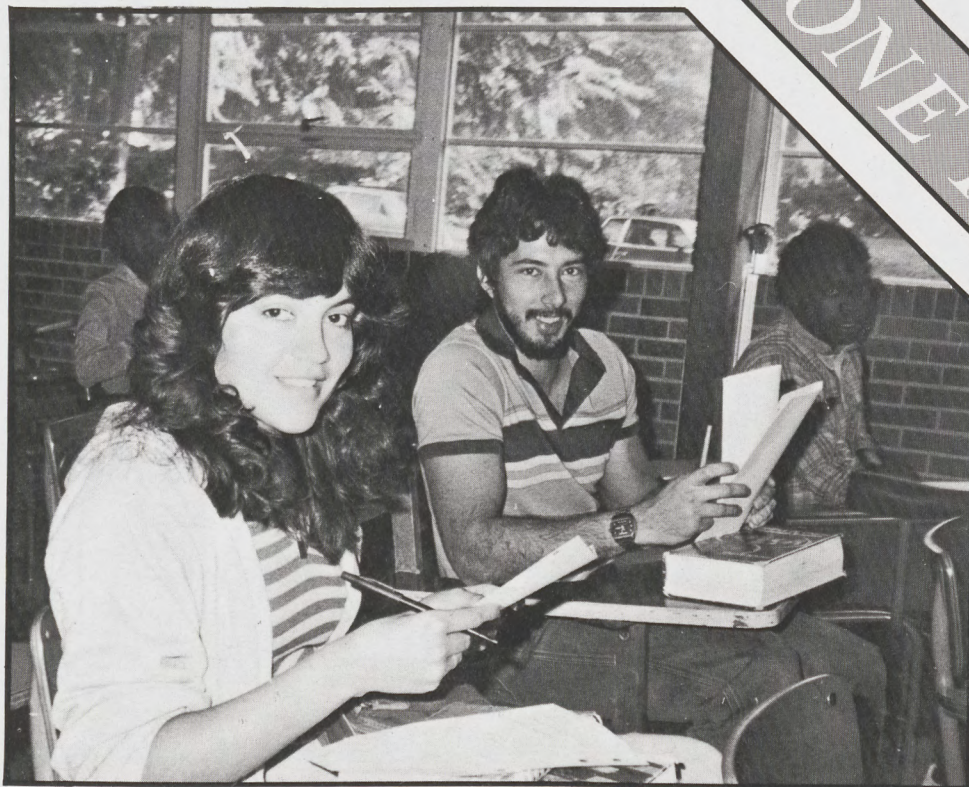

Images Of Space

Right: April Fleming conforms to the influential tune of the earth's spacious language. This is helpful when speaking all universal languages.

Interesting components can be found in Mrs. Craig's English class. Raiza Martinez, and Luis Marques add a wealth of information to this group.

Above: Cathy Andrews, Ann Whittington, and Alice Nunnery work steadily on the dynamic explanation for Mrs. William's assignment. Further concentration is required to simplify the material gathered from a wide variety of sources.

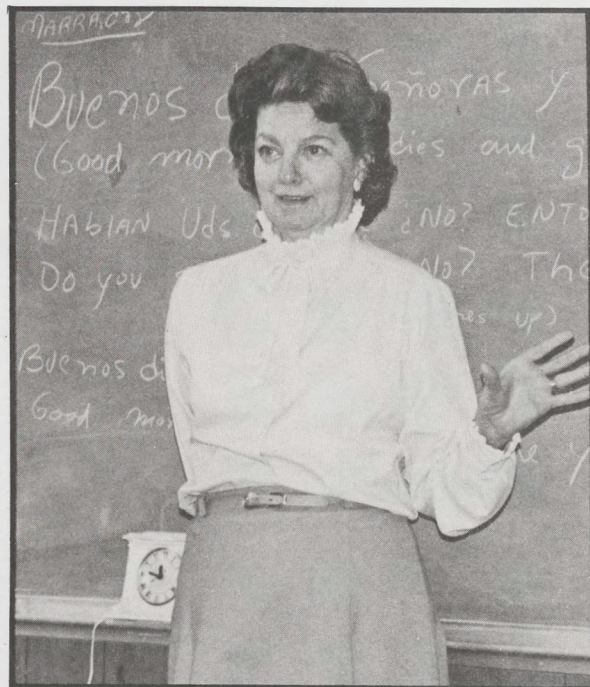

Right: Pronounce these space words after me, cadets. Andromeda, dwarf elliptical, cepheids, and luminosity.

Left: Penny Boyte has arrived at her atmospheric height to comprehend a galaxy of intelligent environments.

Everyone is being timed, and is asked to guess what I have in my hand—on the sound of the buzzer. Your reply must be scientifically inclined.

COSMIC UNDERSTANDING

Early-grown lemons were used by Mrs. Mildred Craig's Ozome English class as illustrative diagrams of a person's lifestyle. This experiment will be a welcome contribution to scientific literature.

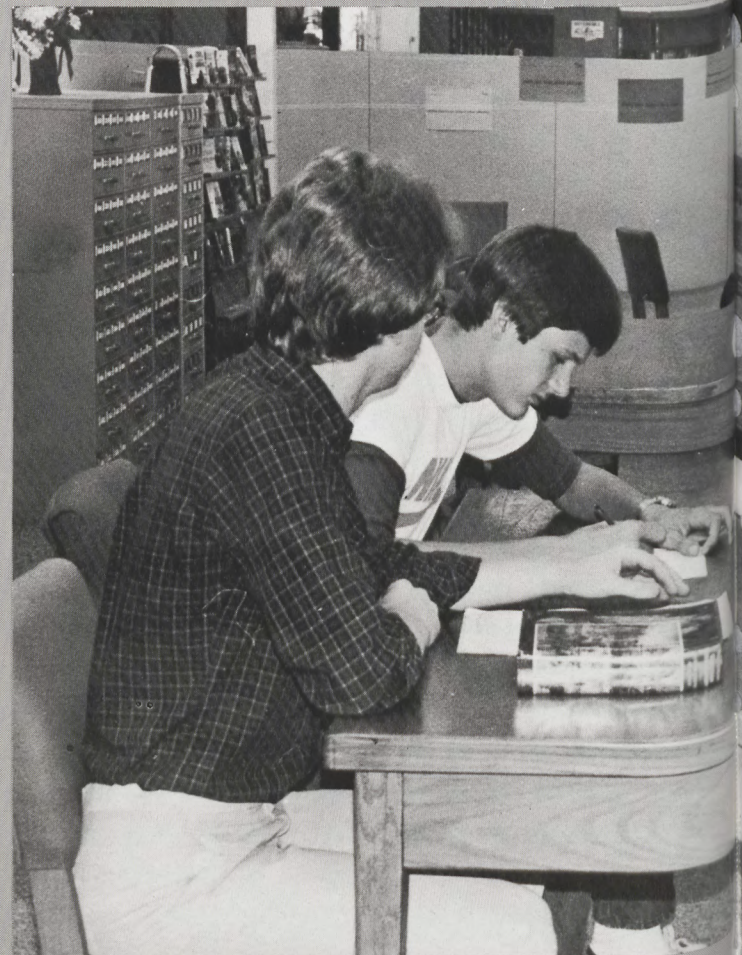

TIME

Ronald Vining and Debbie Blades are sharpening their knowledge of history. Their telescopic pencils will soon run out of lead as the beepers in the classroom begin to sound off the end of the period.

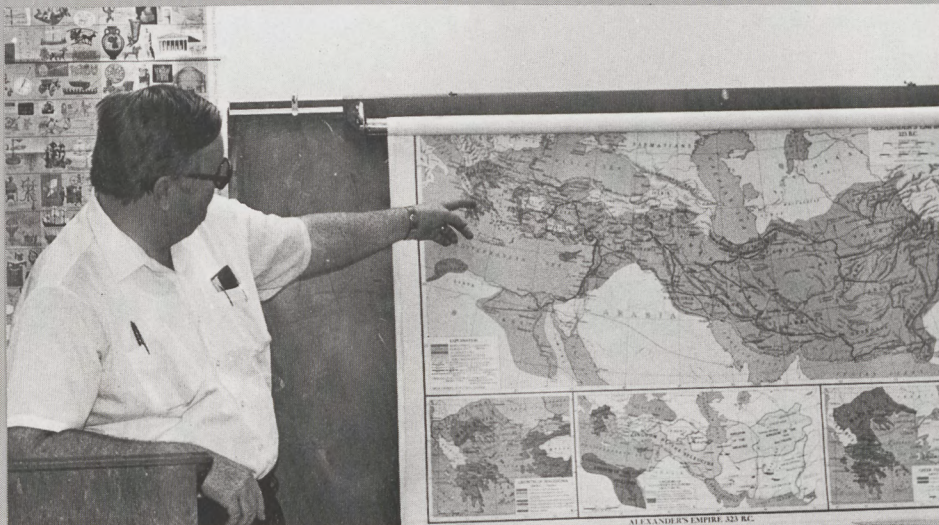

Headmaster. Coach Ogden, assists Kerry Conrad in theorizing some historical information on a current lesson.

The study of earth Western Civilization requires the symbolic language of All-Prep for higher-level translation. John, Paul, Chris, and Daniel combine their electronic brains for greater output.

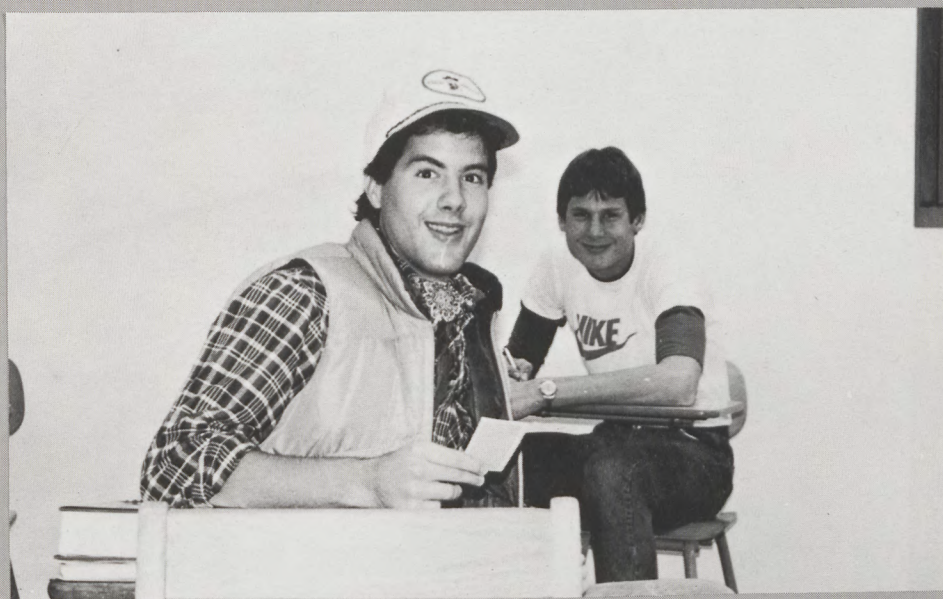

Michelle Dillion is engrossed by the galaxian research in Western Civilization. Her entranced state can only be released by a high frequency.

Henry Fant uses his electronic zapper to zero in on the SMJC 8283 space station. Cadets observe the radar ability with which a spectrum forms around the proposed location.

VOYAGERS

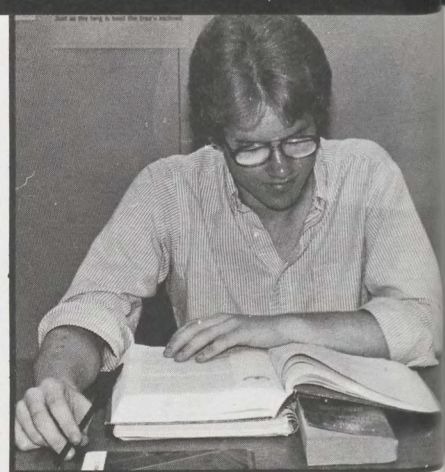

Telepathic thoughts are channeled between Daniel Wiggins and Paul Howell. Whatever the substratum, it must be distributed to the area of earth history.

That's what we think too. We've been at this so long, we have cosmic dust in our eyes.

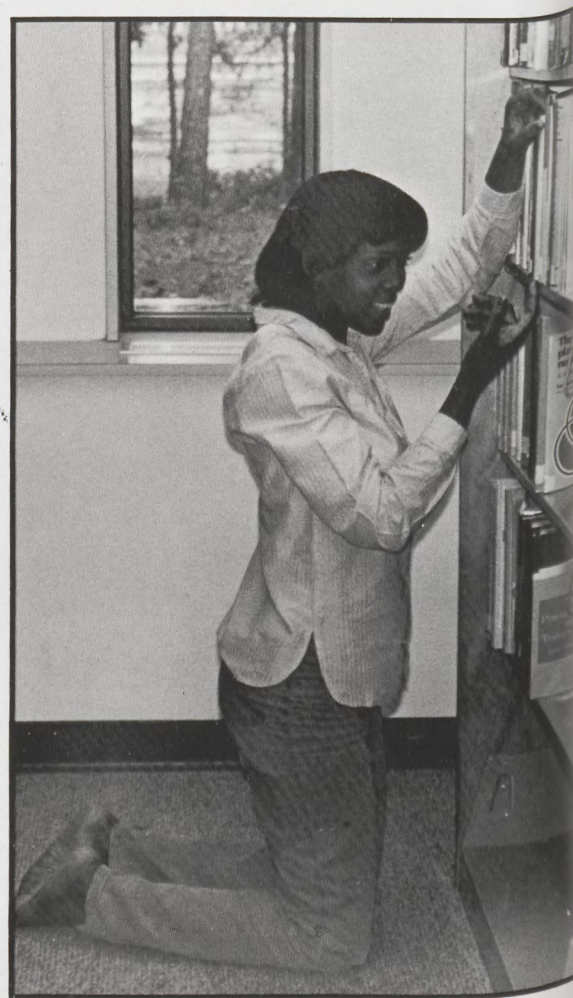

SOLVING COSMIC

Ann Collins looks for a lead in the cosmic dust she has found. It sifted out of a galaxy book sitting next to the astronomy dictionary.

What cosmic mystery are you solving? I can't seem to get started. My hands just won't let me.

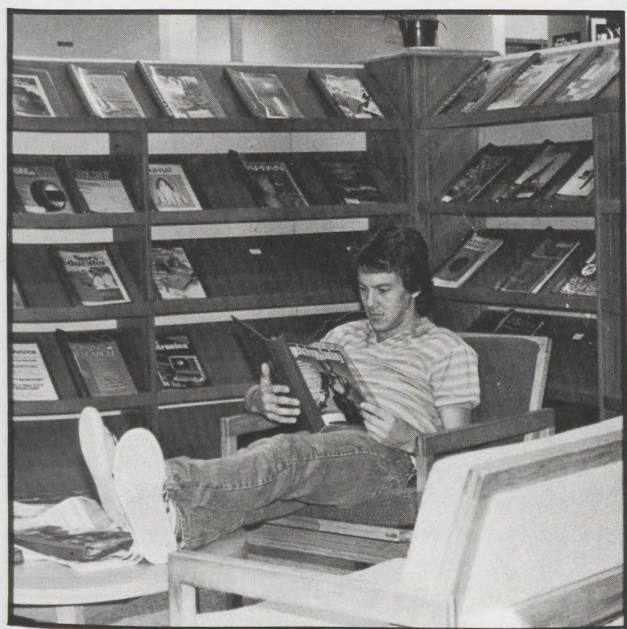

Left: Deeply hypnotized by his literature book, John Crosby discovers a mystery above and beyond his beliefs!

Below: Student Library Assistants are from left, Gale Clark, Penny Rembert, Mary Ann Collins, and Cynthia Dunn. Not pictured: Leslie Speights, Hattie Smith, Violet Tolliver, and Lisa Alexander.

MYSTERIES

Above: Space cadet, Will Soyar, looks eagerly at *PSYCHOLOGY TODAY* seeking the knowledge of earth persons and their ways of communication and thought.

Right: Adolfo is quietly searching for information about the mass-luminosity curve.

Kendall Turnage and Paul Howell send out waves of harmony. These waves make a circular vibration and leave planetary images on the backdrop.

MAGNANIMOUS

Below: One, two, three—Steve Henson sets the pace on the keyboard, a hemispheric message is

The SW 8283 space station has a stage band, which sends out musical harmony in the form of electromagnetic waves. The four saxophones produce columns of vibrating air.

Mark Seals beams as he listens to Michelle Bond melodize to a hemispheric tune. He is waiting his turn to send out an invisible message in code.

Below: Signals are constantly emitted from the resonating cavity of the space station's Fine Arts Building auditorium.

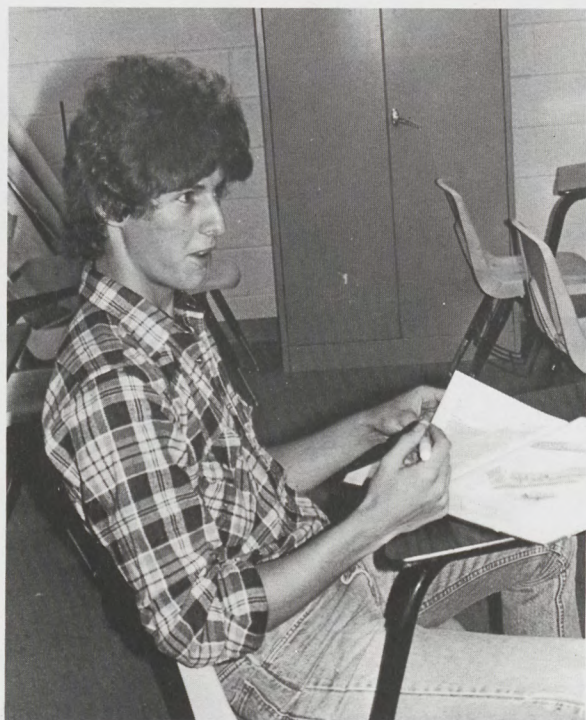

RADIOWAVES

Above: Marilyn Brister prepares to communicate with the people on All-Prep by the formation of pulsations in the soundboard of the piano.

Left: Willie Sue, Reggie, Jan, and Mark search for a fundamental overtone within this musical tool. If one is found, reverse motion will result.

Mapping out plans for the next hemispheric journey, Louie Burges sits astonished and in a trance in Anatomy and Physiology.

RELATIVITY-LY

Below: New Biology cadets from All-Prep are busily being informed by their headmaster, Dr. Burrows, about earth and its effects upon living creatures.

Last-minute corrections must be done on this assignment, or their formula will fail. Steve and Wayne are quite engrossed at the moment.

This Intermediate Algebra really involves a lot of invisible signals. Brenda Wooten and Alan Sayes are patiently awaiting the unexpected solution.

Willie Murl Rogers concentrates intently on the rotational effects produced by the chemical composition of the fluid fountain.

SPEAKING

Allison Alexander and Lisa Alexander appear to be seeing some mystical illusion. They were so engrossed, they failed to bring a supply of material for note-taking.

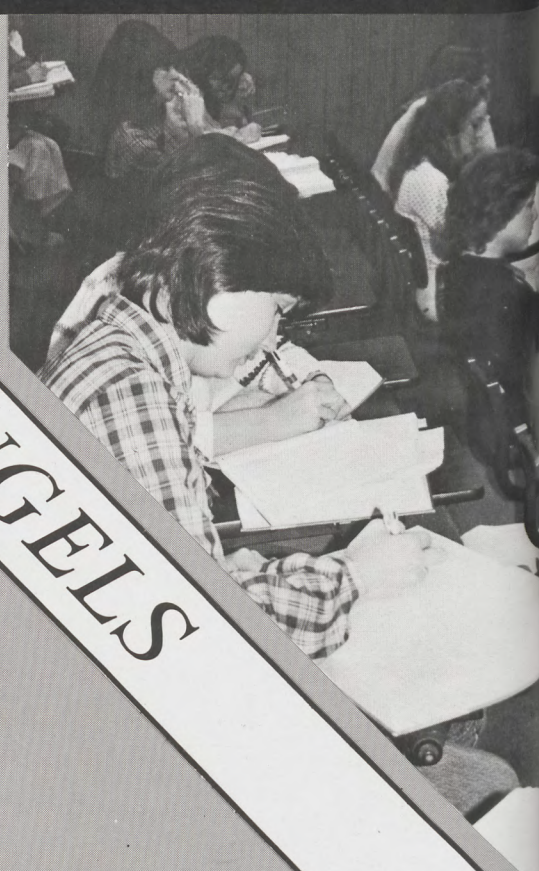

Microbiology classes on earth are simple to people from All-Prep. Intelligence rates are increased by the addition of brain energizers.

Angels of Mercy arise from the earth's cerebral hemisphere. On this space station, they are referred to as "nurses."

Past technical knowledge was exhibited in the earth month, July, when scores from the Registered Nurse Licensure Examination surpassed a one-hundred percent target on the ethereal crest.

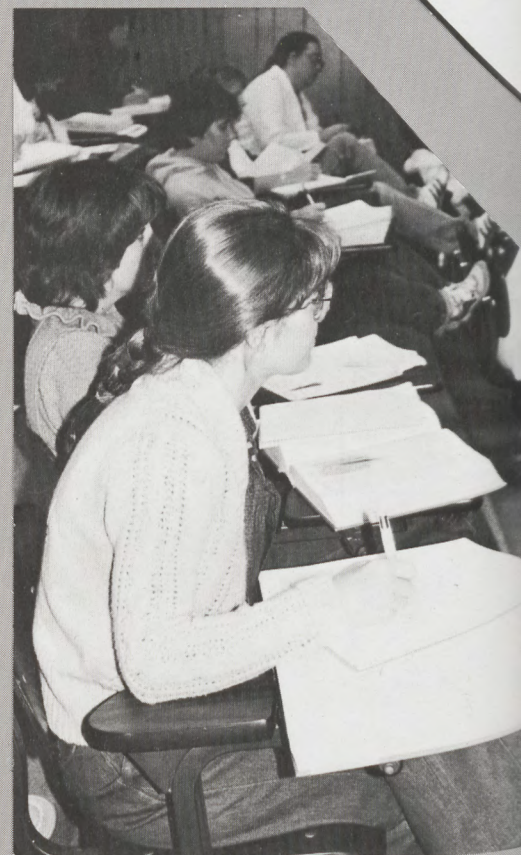

These Angels of Mercy add a glowing light to the age of the stars, and form a protective capsule for the universal health of the planet earth.

ANGELS

Right: Cadets of Twozome nurse clusters find that note-taking never ceases. This cadet constantly records galactic information in invisible ink.

Angels of Mercy observe the various types of scientific hypotheses. In the latter part of the class era, these students may leave on an errand of mercy.

Nursing Instructor, Becky Wilson, imparts the knowledge of universal health phenomena to the cluster of Sophomore nursing students.

OF MERCY

Double-time in earth class sessions produces a bright light on the books of many nursing students. Each must fulfill his own planetary duty, and be on call for whatever event arises.

The realm of nursing is an enlightening field of knowledge to be gained by many.

I can't believe this mannequin wig would take so many curlers! At least it doesn't say "nanoo, nanoo" back to me.

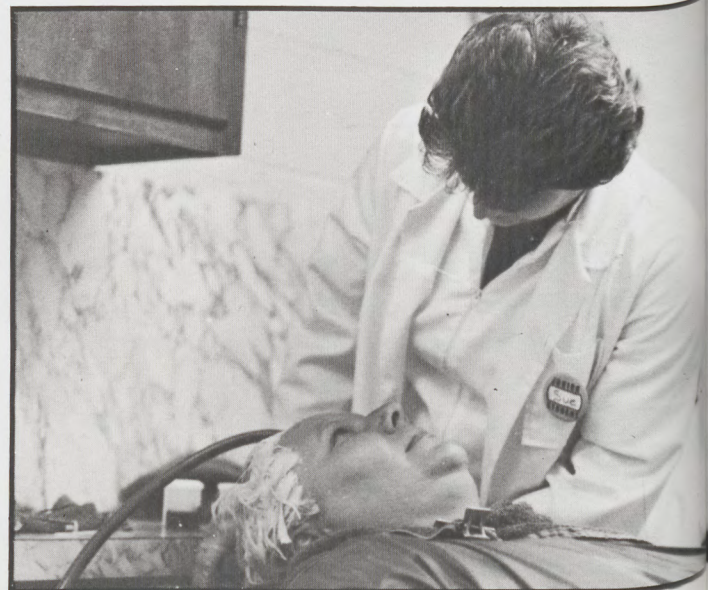

A multitude of hairstyles was judged in the Inner Galactic Sculptor Contest. This is the latest cadet hairstyle for 82-83.

PLANETARY

Say, what flavor is that shampoo? It is called the "Milky Way Trail."

Planetary pandemonium usually results in the Cosmetology section of the planetary system. Professional magnitude is exemplified today.

PANDEMONIUM

Brain waves are monitored while a person's hair is styled in the cosmic section of the planetary system. One of the mysteries yet to be solved is the formation of waves in the hair of the person being tested.

Larry Green and Amos Varnado make use of their astronomical skills. Say, man! This must be a problem we need to solve.

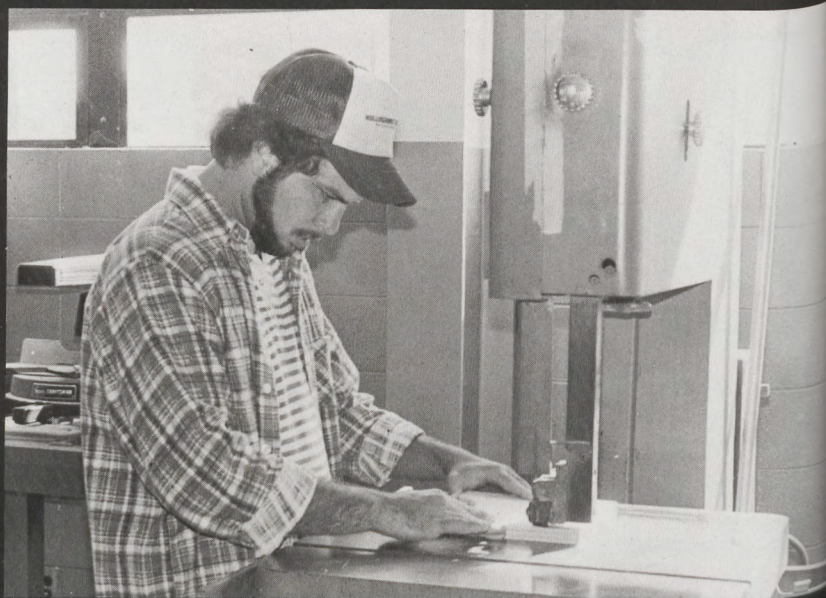

ASTRONOMICAL

Steve Lofton carefully completes a strenuous lesson. This project will fit the next astronomical mission set in motion.

Eric Kent is lining up a piece of cosmic wood on his jigsaw to cut an astronomical design. Eric must be careful not to lose any cosmic dust.

Left: John "Chicago" Vanderwarf patiently sharpens his astronomical knowledge from his tool shed. Here he fastens together wires that will complete a computerized circuit.

Below: Mikell Craft applies glue to a 2 by 6 before he can continue his project. This piece will give a finishing touch and form a powerful transformation.

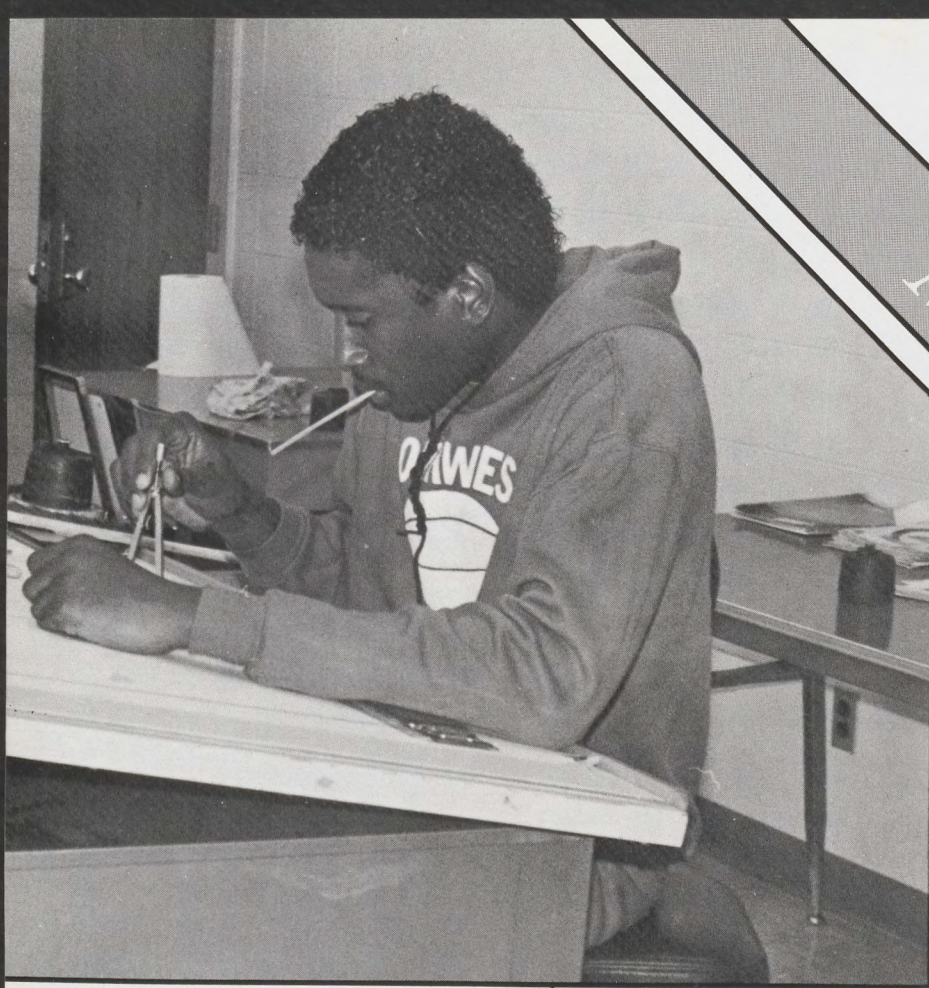

Bill Hinson, in his space cadet helmet, is ready for the next colorful spark performance. Whatever it takes, his earth machine is ready to send off signals.

TOOLHOUSE

Albert Hanner, Otis Washington, and Jewel Bell take out time for a cosmic break.

This department is really on schedule. Donald Gains encompasses his puzzle while he grasps another tool of maneuver.

METAGALACTIC

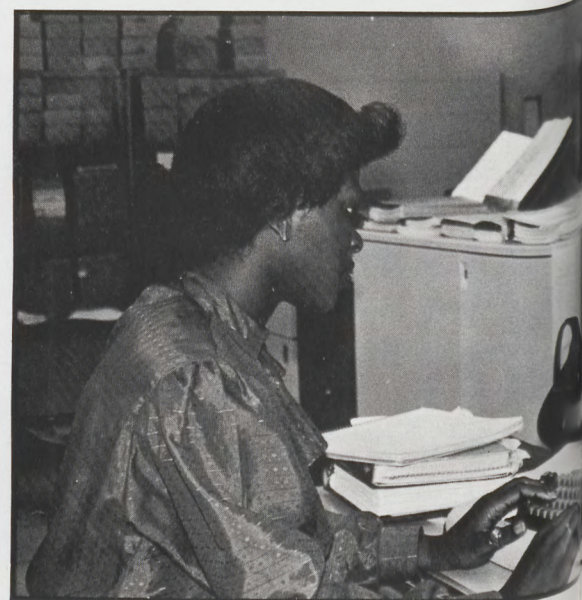

Above: Amanda Arnold and Donna Young wonder if this metagalactic puzzle has a solution. If it does, these two cadets will have to re-examine their instructional manual.

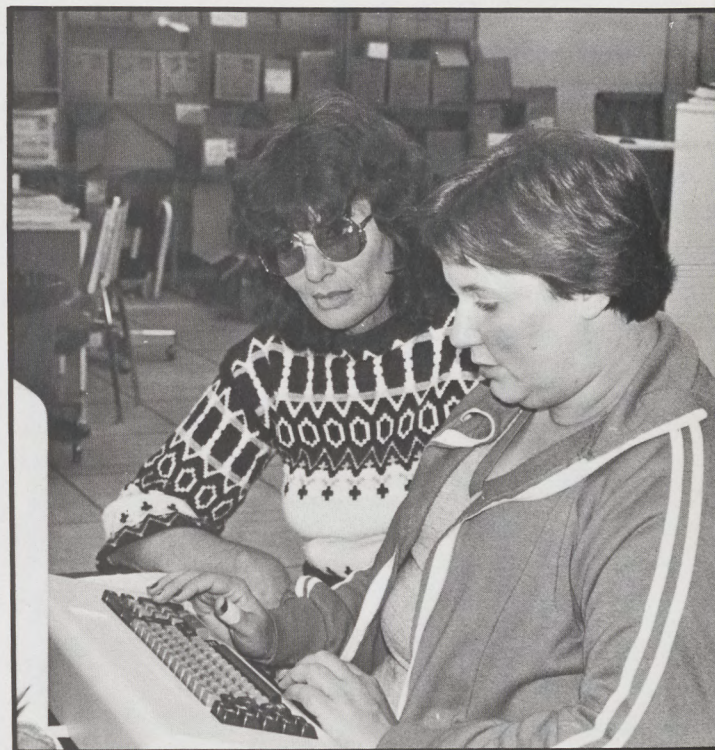

Below: Dusty, Melissa, and Gloria are tabulating space data.

Patricia Harness watches the screen as a solution is completed. She hoped that a lightning rod wouldn't interfere with the completion of the next message.

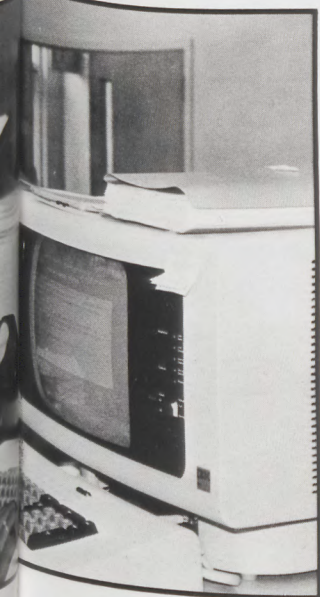

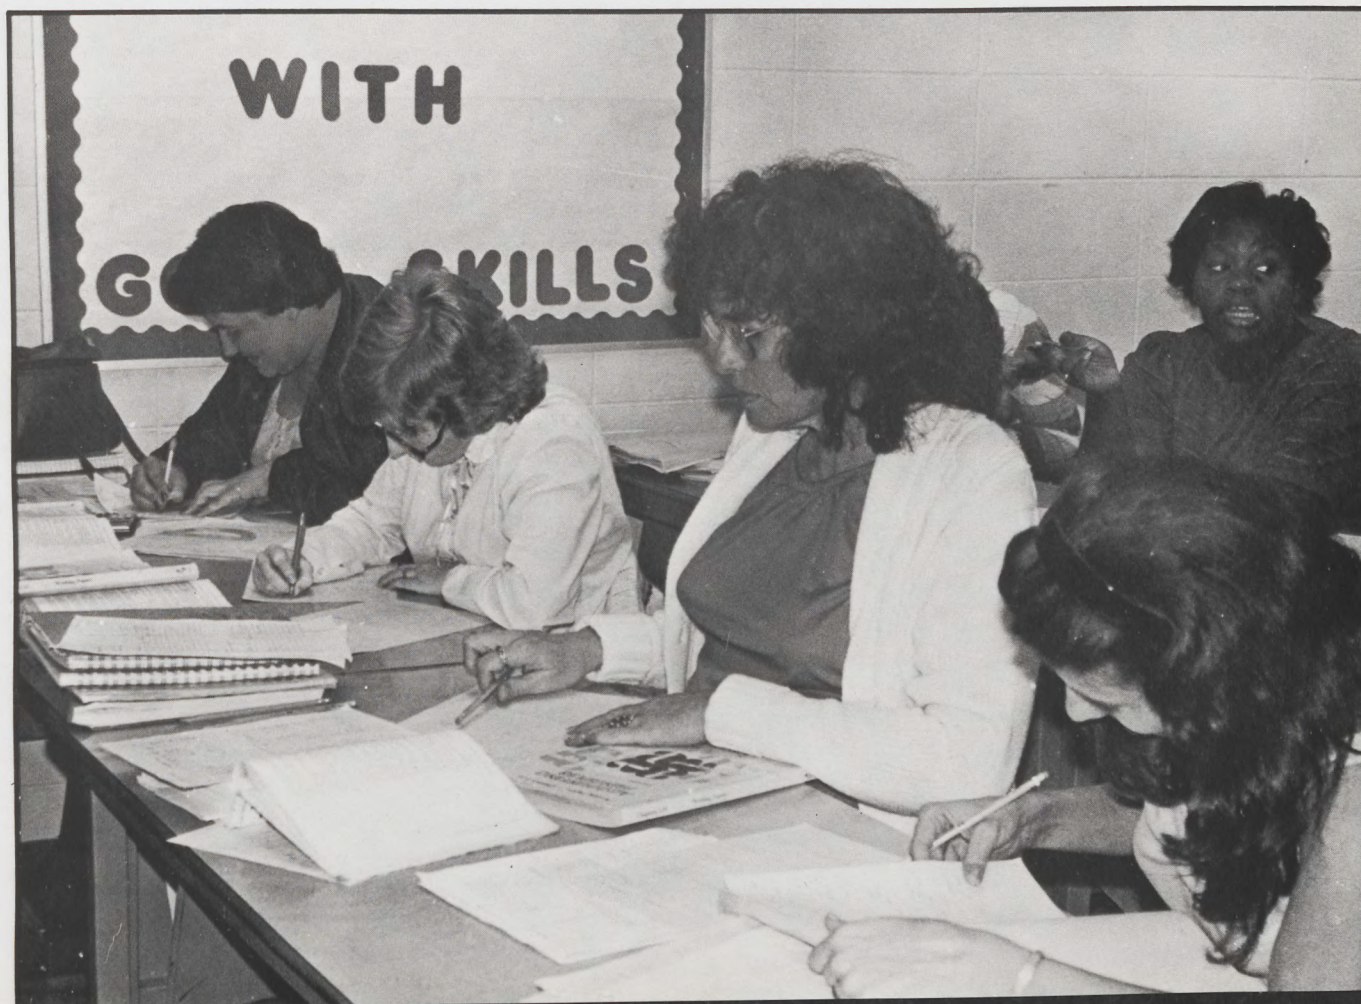

The heck with all this! It's past time to put away this tool of knowledge. If she wishes to complete her survey in Accounting, she can do mine too.

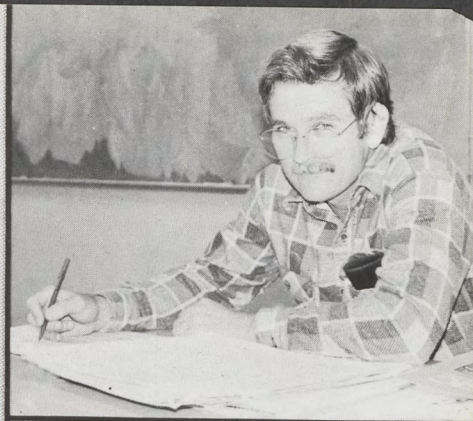

Cadets, Cleda Sharon and Charlotte Rhodus, proceed with the speed of light calculating everyday ordeals of the earth society.

PUZZLES

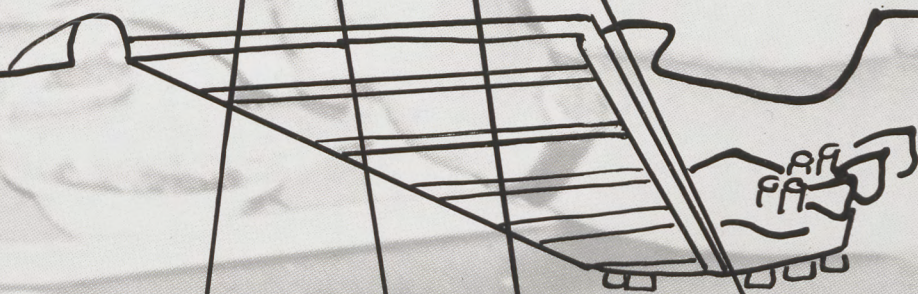

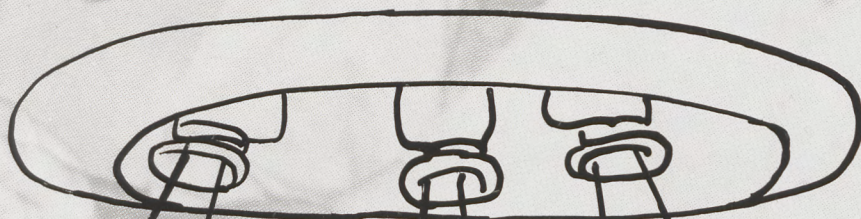

From the message on the bulletin board, one can perform feats of spacial heights. The look on one cadet shows us the evolution of a new discovery.

Girls' Dorm Matron

The cadets are prepared for the unexpected, not knowing whether to stay for the results of the scientific experiment, or make a run for it! Dr. Burrows has this group zoomed into close range.

Mrs. Jeanne Williams, in the middle of another mighty season, informs her cadets to be prepared for any unexpected encounter!

ORIGINAL EARTH BEHAVIOR

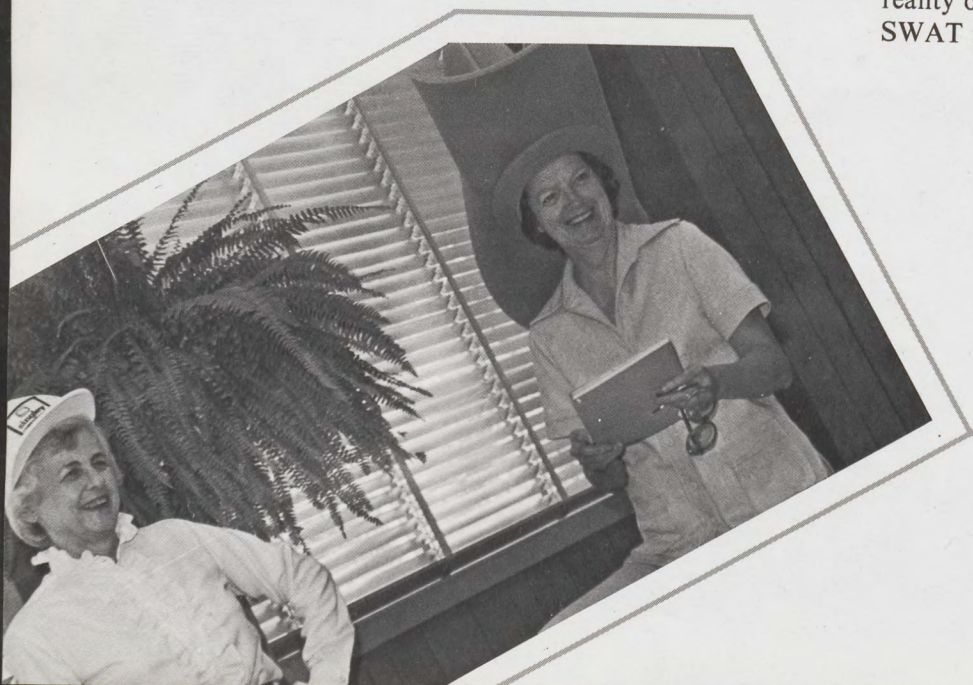

To each "SWAT" team member, the learning of new trainee faces is like working a metagalactic puzzle. Even so, this faculty is highly equipped to imprint the names, faces, and needs of each individual trainee on the 8283 space station into his memory bank.

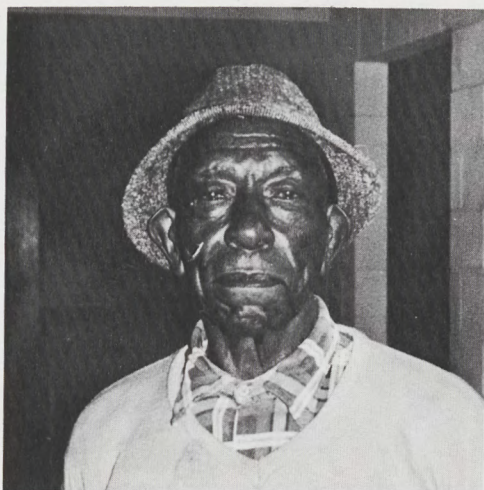

Upon the arrival of the space cadets, the SWAT force met them at Stargate 8283 at 0800 hours. Full throttle was enforced as the faculty began the journey through the maze of cosmic forces surrounding the interplanetary dome of the earth station.

With the challenge of the "Homecoming," many of trainees marvelled at the energetic involvement of SWAT. The team's enthusiasm could be seen when Mr. Price wore his rancher's hat, and when Mrs. Brewer wore her huge starfoam sombrero!

Many strategic encounters are planned in the faculty. The trainees are tested about earth law in Mr. McKinney's Federal Government class. Experimentation of new languages, both English and French, forms a lasting impression in the minds of those cadets who are summoned by Mrs. Williams, Mrs. Barron, Mrs. Craig, or Mr. Johnson. Every cadet and SWAT member knows the earth year 8283 will be one of knowledgeable input, transformable personages, and electrical shocks to those who wake up to the reality of what they have learned from the unique principalities of earth SWAT members.

Ike Barnes, Maintenance.

GENERAL OF THE S

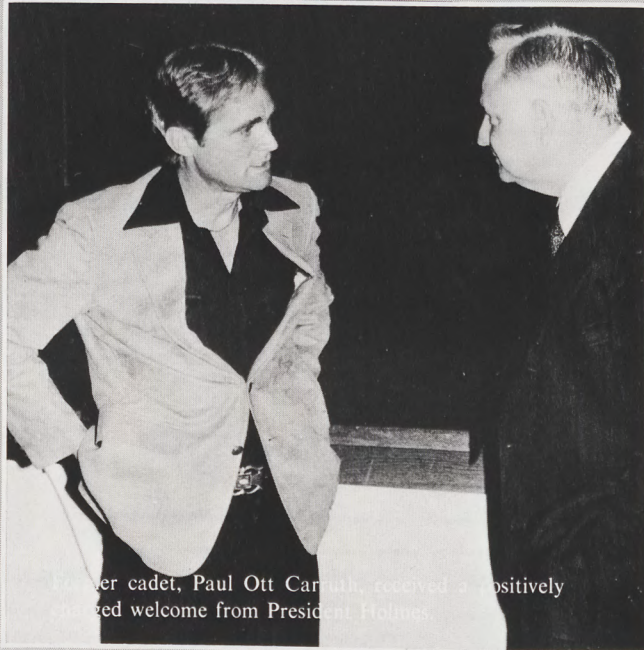

PRESIDENT HORACE C. HOLMES

SMJC STAR STATION

EARTH DATA ANALYSIS:

President Horace C. Holmes is a leader who has been with Southwest a long time. He has shown intense interest in Southwest from the beginning and has been a dedicated hardworking, loving man.

His life has been an inspiration to those with whom he comes in contact. Besides being dedicated to his family and church, over the years he has served the people of Southwest with pleasure. He is more than just one who sees that the students do their part to keep the school functioning, but one that ensures that the school be the best it can to serve the students. Whether it's seeing that a new building is built, providing new faculty members, helping out in organizational activities, or just being an all-around sensitive and caring friend, Horace Holmes is surely a dedicated and respected leader at Southwest.

Former cadet, Paul Ott Caruth, received a positively charged welcome from President Holmes.

President and Mrs. Holmes, with their granddaughter Miley Holmes, welcome all cadets to the SW 8283 space station.

Interplanetary communications have long been a practice used by President Holmes. The telephone is an essential device on the planet earth.

SPACE

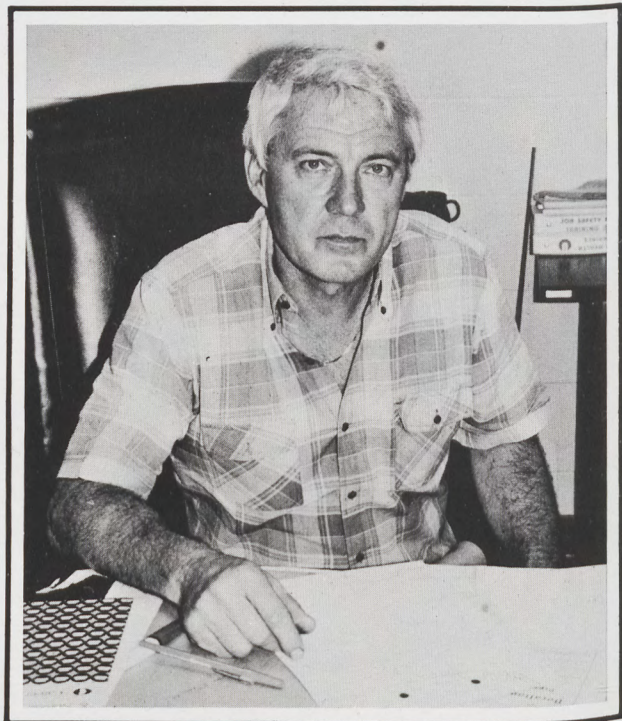

COLONIST

DIRECTORS

With the rotation of the earth setting the end of the SW 8283 space station training at a fixed point on the star map, the directors have helped lead the star crew through a system of mazes once again.

Left: Bill Quin, Business Manager

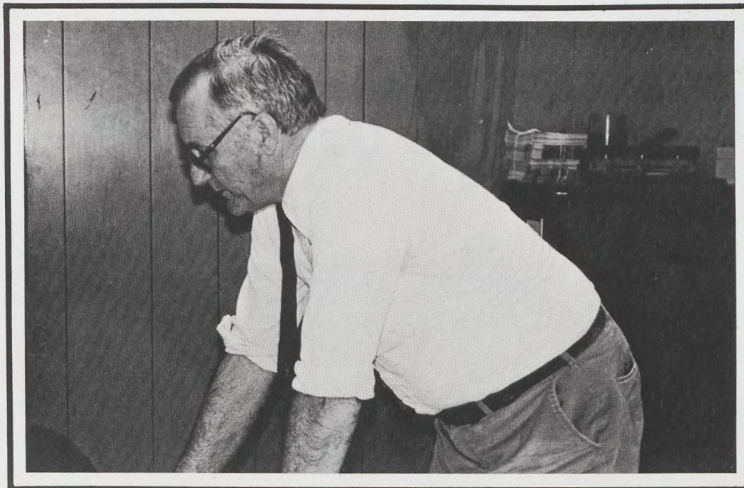

K.L. Simmons, Director of Vocational.

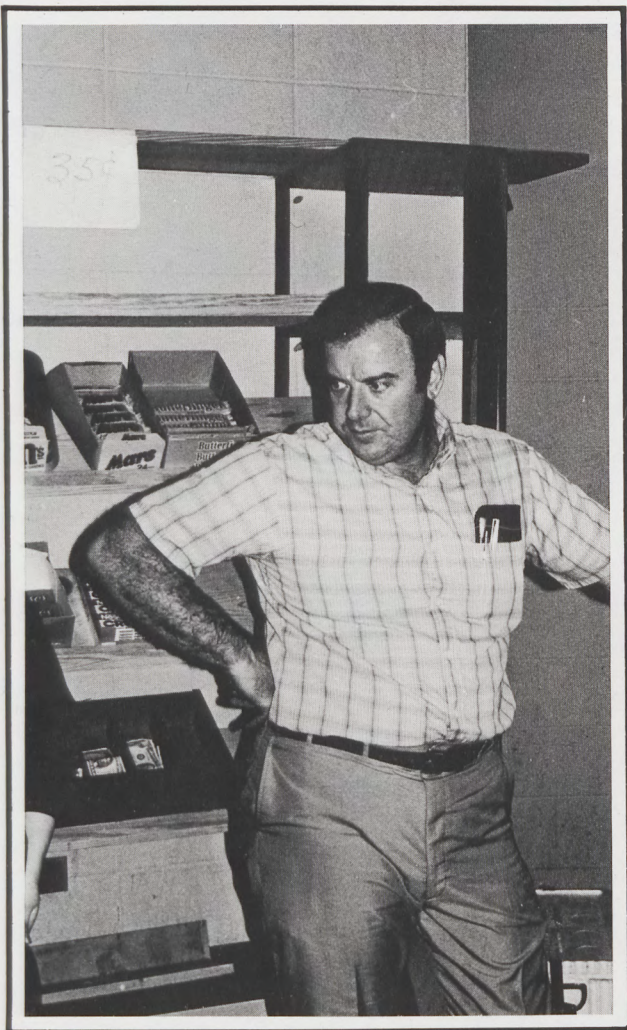

Left: A strange green light captures the attention of Bill Quin. Could it be a Martian spaceship?

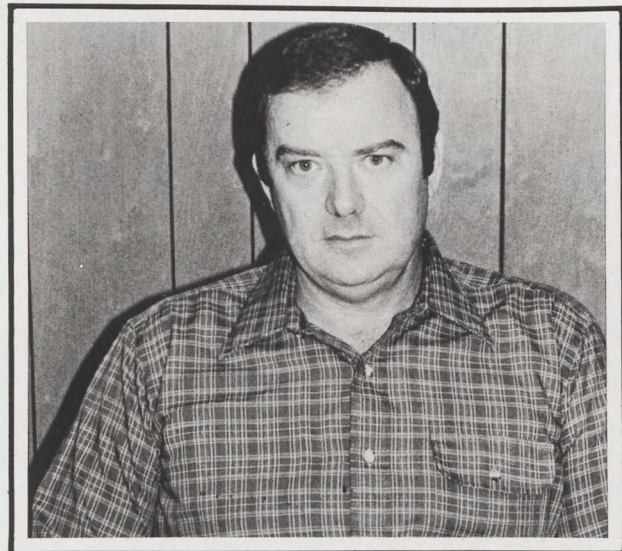

Charles Breeland, Dean of Instruction and Registrar.

Charles Breeland directs his attention to a peculiar bombardment of cosmic rays. Realistic views of cadet problems are solved in this manner.

Jerry Reid, Dean of Students.

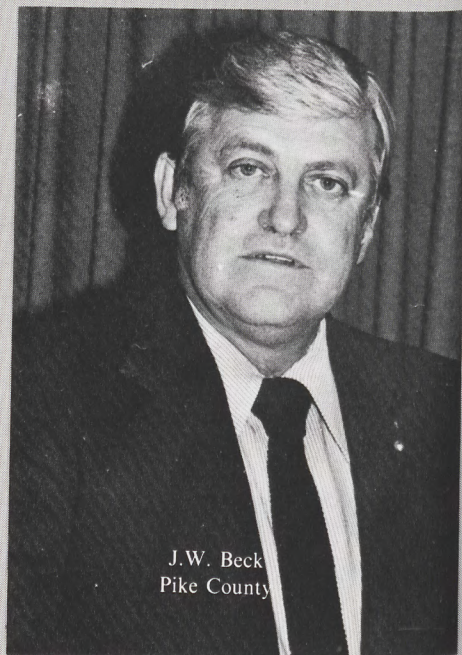

Observation of unusual events is one of Dean Jerry Reid's duties. One of the space cadets was being transferred to an Orbital Station for toleration training.

OCCUPATIONS BUILDING

Gentry Lambert stops to regain some of his lost molecular energy.

Earth technicians released sparks into the atmosphere as they rushed to finish the new Health Occupations Building.

A WORLD OF YOUR OWN

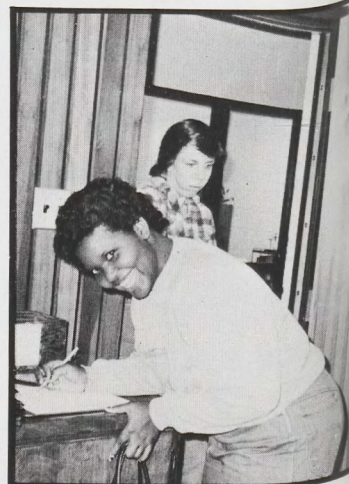

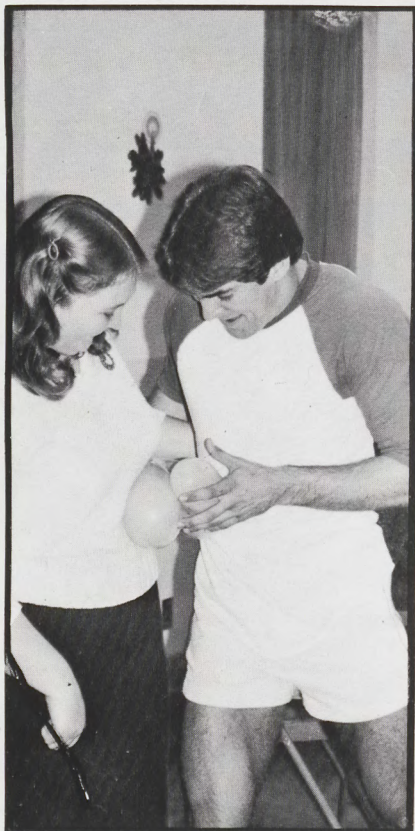

Many voyages take us through time and space, but none is more significant than our college days. The parties, the studying, the tears, and the laughter will all form a persistent glow in the innermost recesses of the heart and mind of each of us.

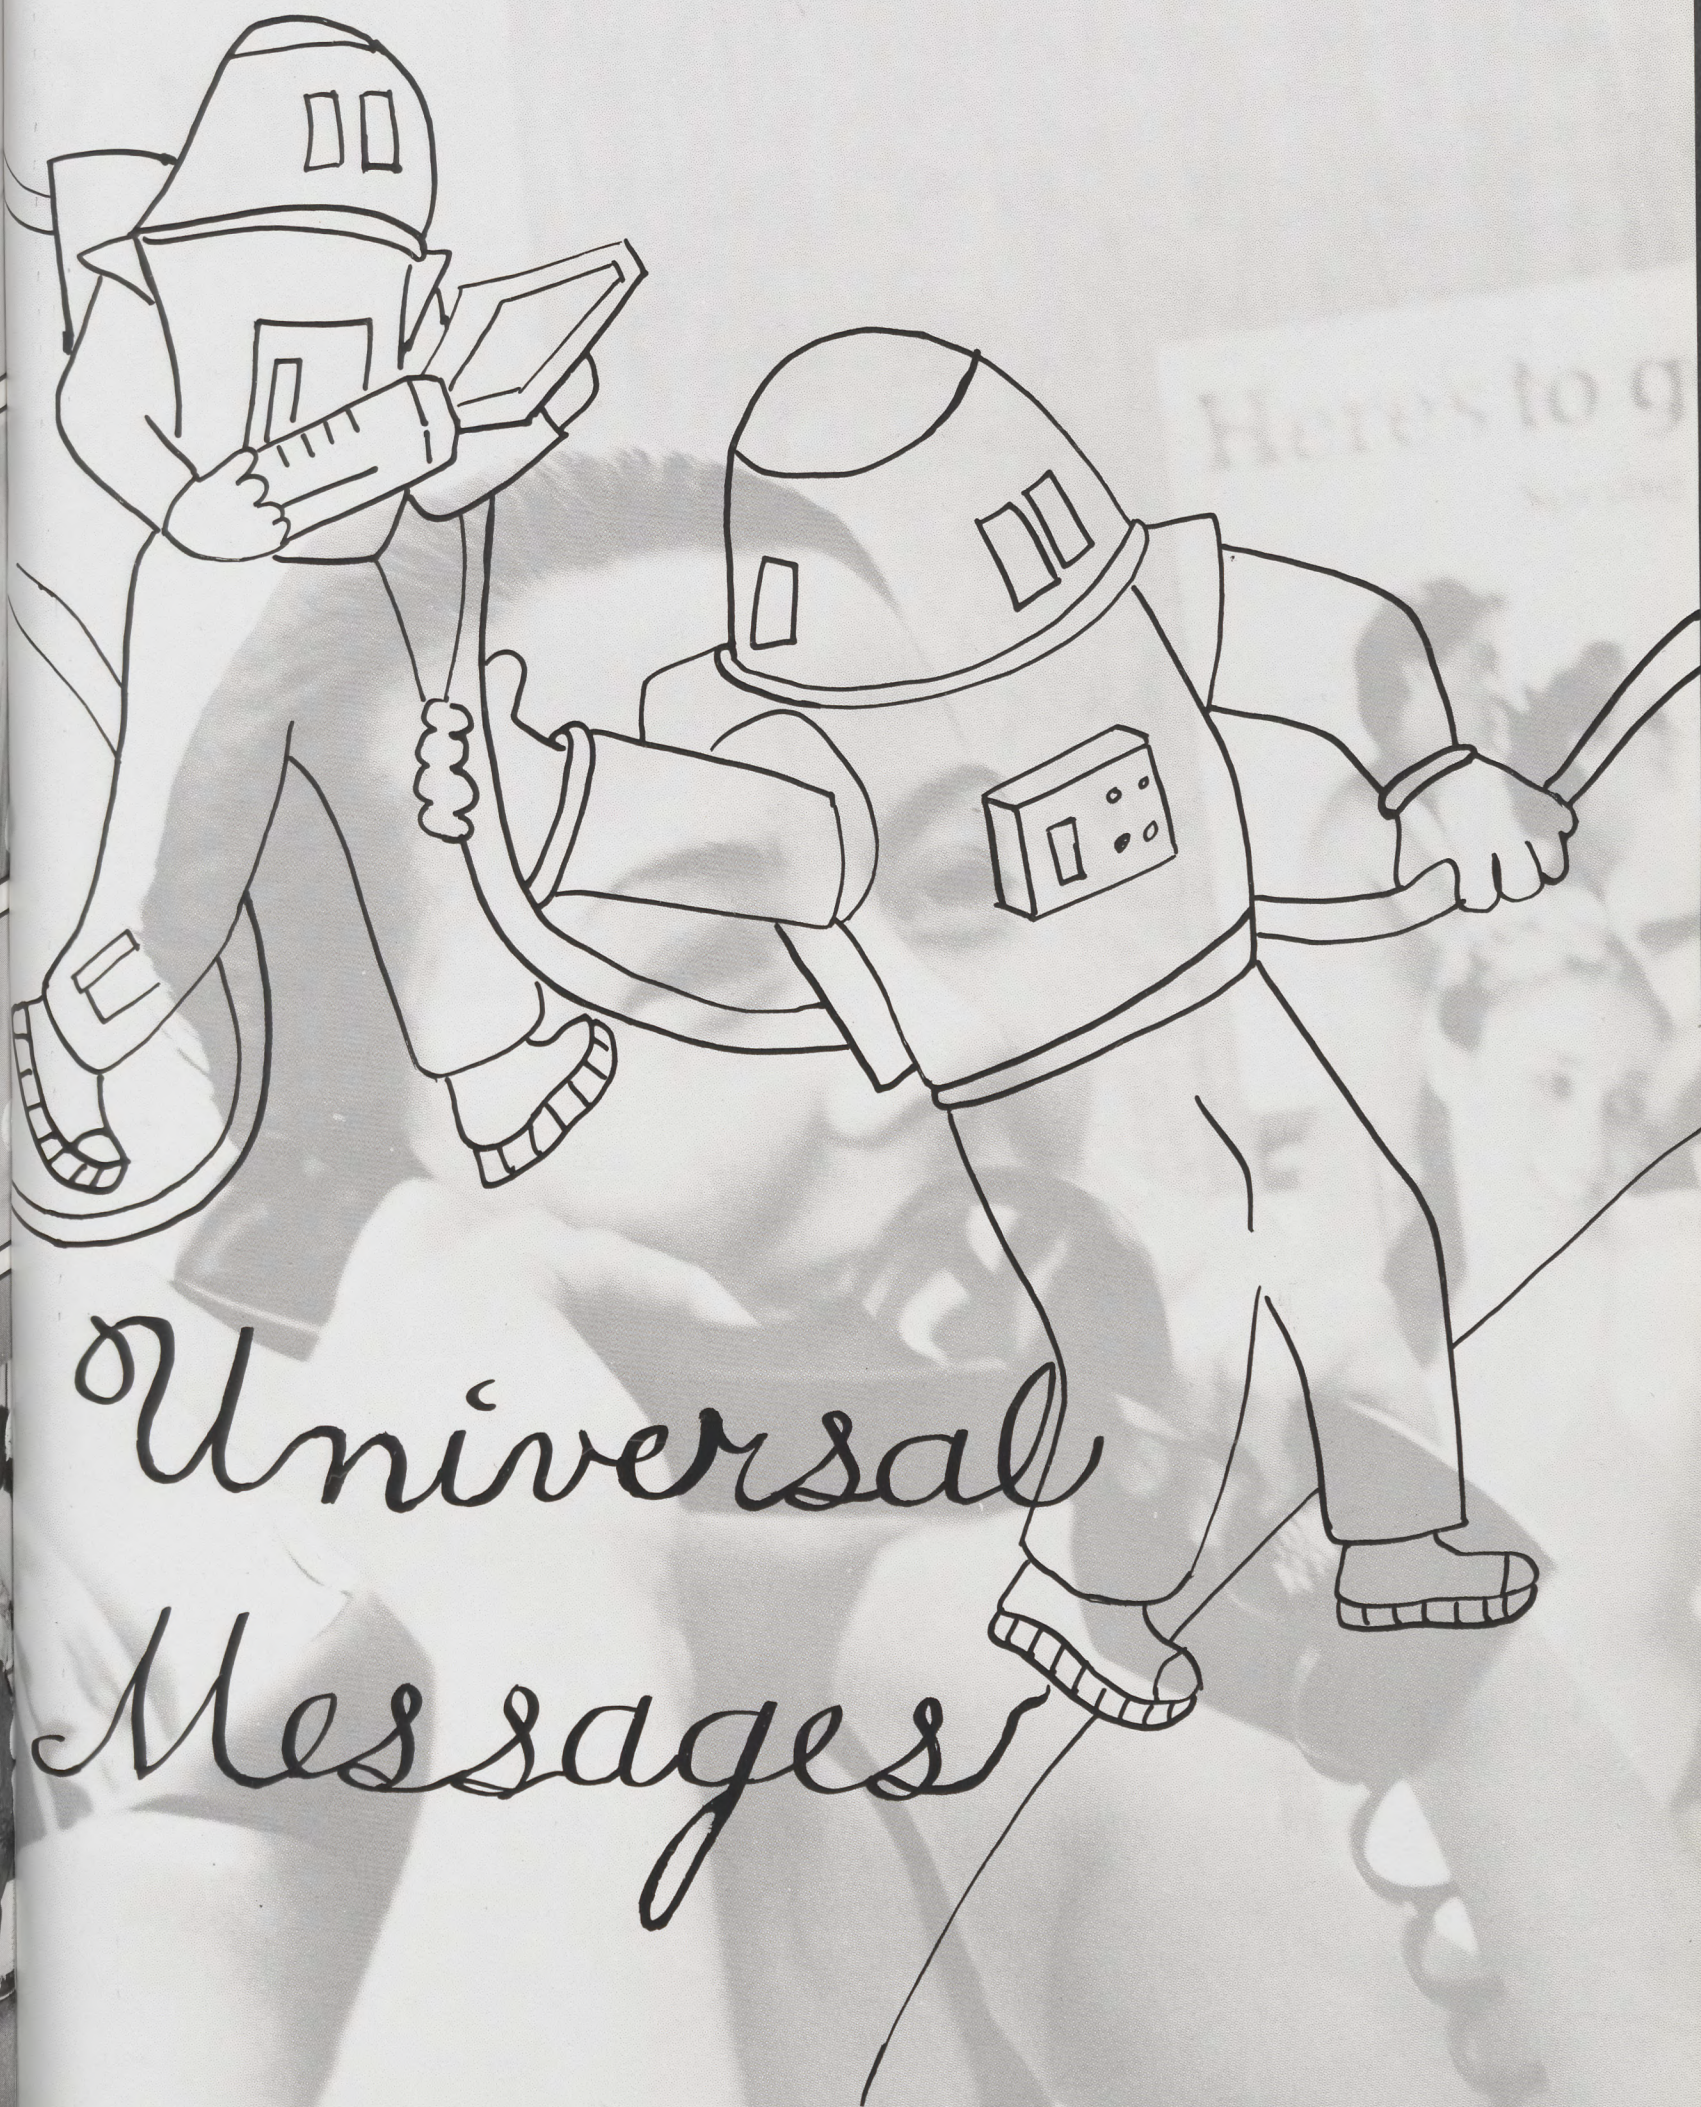

Remembrances of the Homecoming dance will invade your thoughts and make you wonder what your college heartthrob is doing now. You'll remember a certain friend who was always there to console you, or to make an excuse for your not being in class. The images of all those boyfriends or girlfriends will appear and make you question yourself as to how you dated each one without the other finding out!

But with each rotation and revolution of the earth, you will have grown older and wiser, and wonder how in the world you stayed up until 4 AM in the morning and made it to an 8 AM class. (Watch Out! Your age is beginning to show.)

Those days are to be highlighted and not forgotten. The splendor of sharing at BSU, the openness of friendship at dances, the sometimes sad departure for the holidays, later coupled with an eager return, the fun and food on Bear Necessities Day, and the sharing of triumphs and failures will make this a memorable year.

This time does not linger, but disappears into thin air. The swirl of these memories will appear in one's mind constantly to comfort him, or make him laugh, assured that "God's in His heaven and all's right with the world."

Something for "Little" Johnny!!

I want to sincerely thank those involved in the creation of this spectrum of events. A special thanks is extended to Lamar Tumminello and the universal messengers. Most of all, I am grateful for the assistance given to me by my mother. Her intrinsic brightness and supportiveness, has meant a lot to me. Also, thanks to my entire family and friends for their enthusiasm that has added to the kaleidoscope of events recorded in the 1982-83 Whispering Pines.

Commander in Chief, Shari Blailock

Shari Blailock
Commander in Chief

For many of us, the year was one of intergalactic fun and excitement. Every turn around the corner presented some new problem or discovery. But with each star burst, there was a treasure of wealth to be gained; both in knowledge and experience. You'll probably never forget dissecting that pig in Dr. Burrows' biology class; especially when you accidentally cut the wrong part! Even so, one main concern for each of us was to survive through the year. If one can accomplish such a magnificent feat, he certainly is skyrocketing toward a shining future.

There have been many "bright" workers on this year's annual staff. Each one has given a vast expanse of time and help into the creation of this memorable star log of events.

Besides the fond memories each of us takes home in our memory bank, this star log should spark a constant light of what once was, and that which will materialize an individual into what he will be light years from now. With the journey ending, the universal challenge has absorbed a non-computable number of SMJC's cadets to the other stations. But some will return, settling down like diamond dust to be shaped into future stars of the galaxy.

In Memorium

SOLITUDE

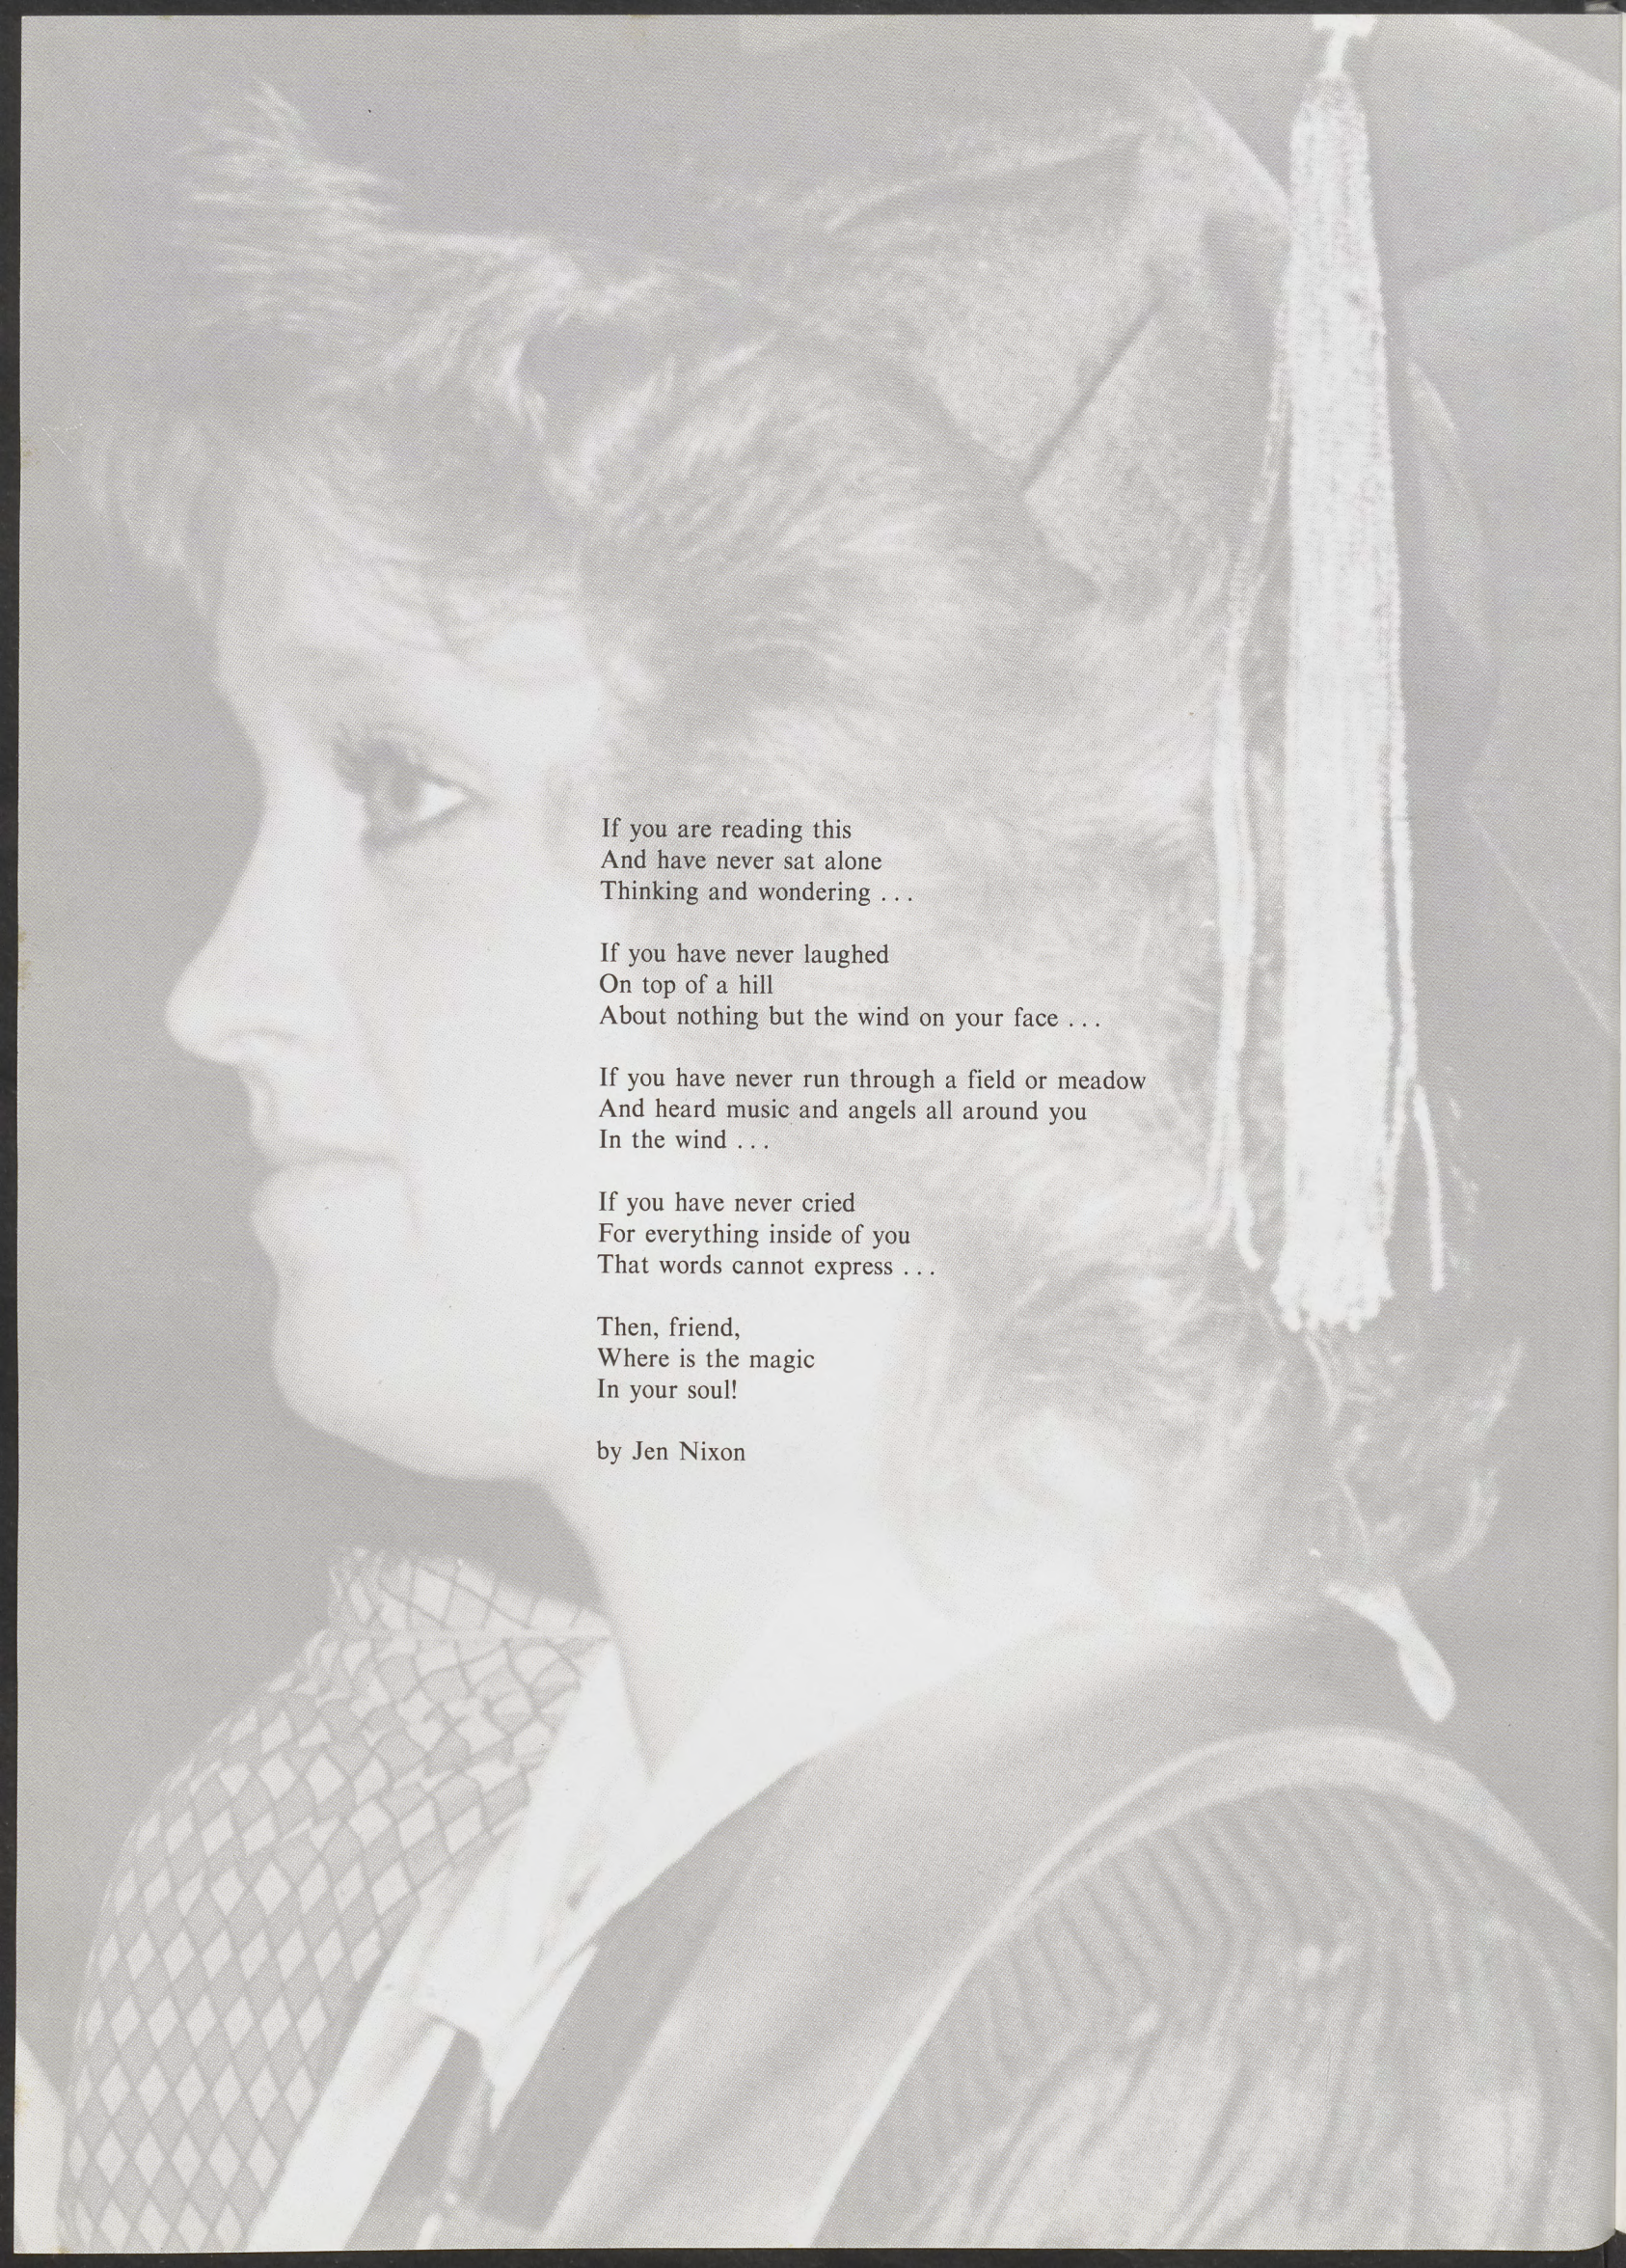

I needed the quiet, so He drew me aside—
into the shadows where we could confide;
Away from the hustle where all the day long
I hurried and worried when active and
strong.

I needed the quiet, though at first I rebelled,
But gently, so gently my cross He upheld,
And whispered so sweetly of spiritual
things,—
Though weakened in body my spirit took
wings
To height never dreamed of when active and
gay.
He loved me so gently, He drew me away.

I needed the quiet, no prison my bed
But a beautiful valley of blessing instead;
A place to grow richer, in Jesus to hide
I needed the quiet, so He drew me aside.

Mrs. Ilse Brown

If you are reading this
And have never sat alone
Thinking and wondering . . .

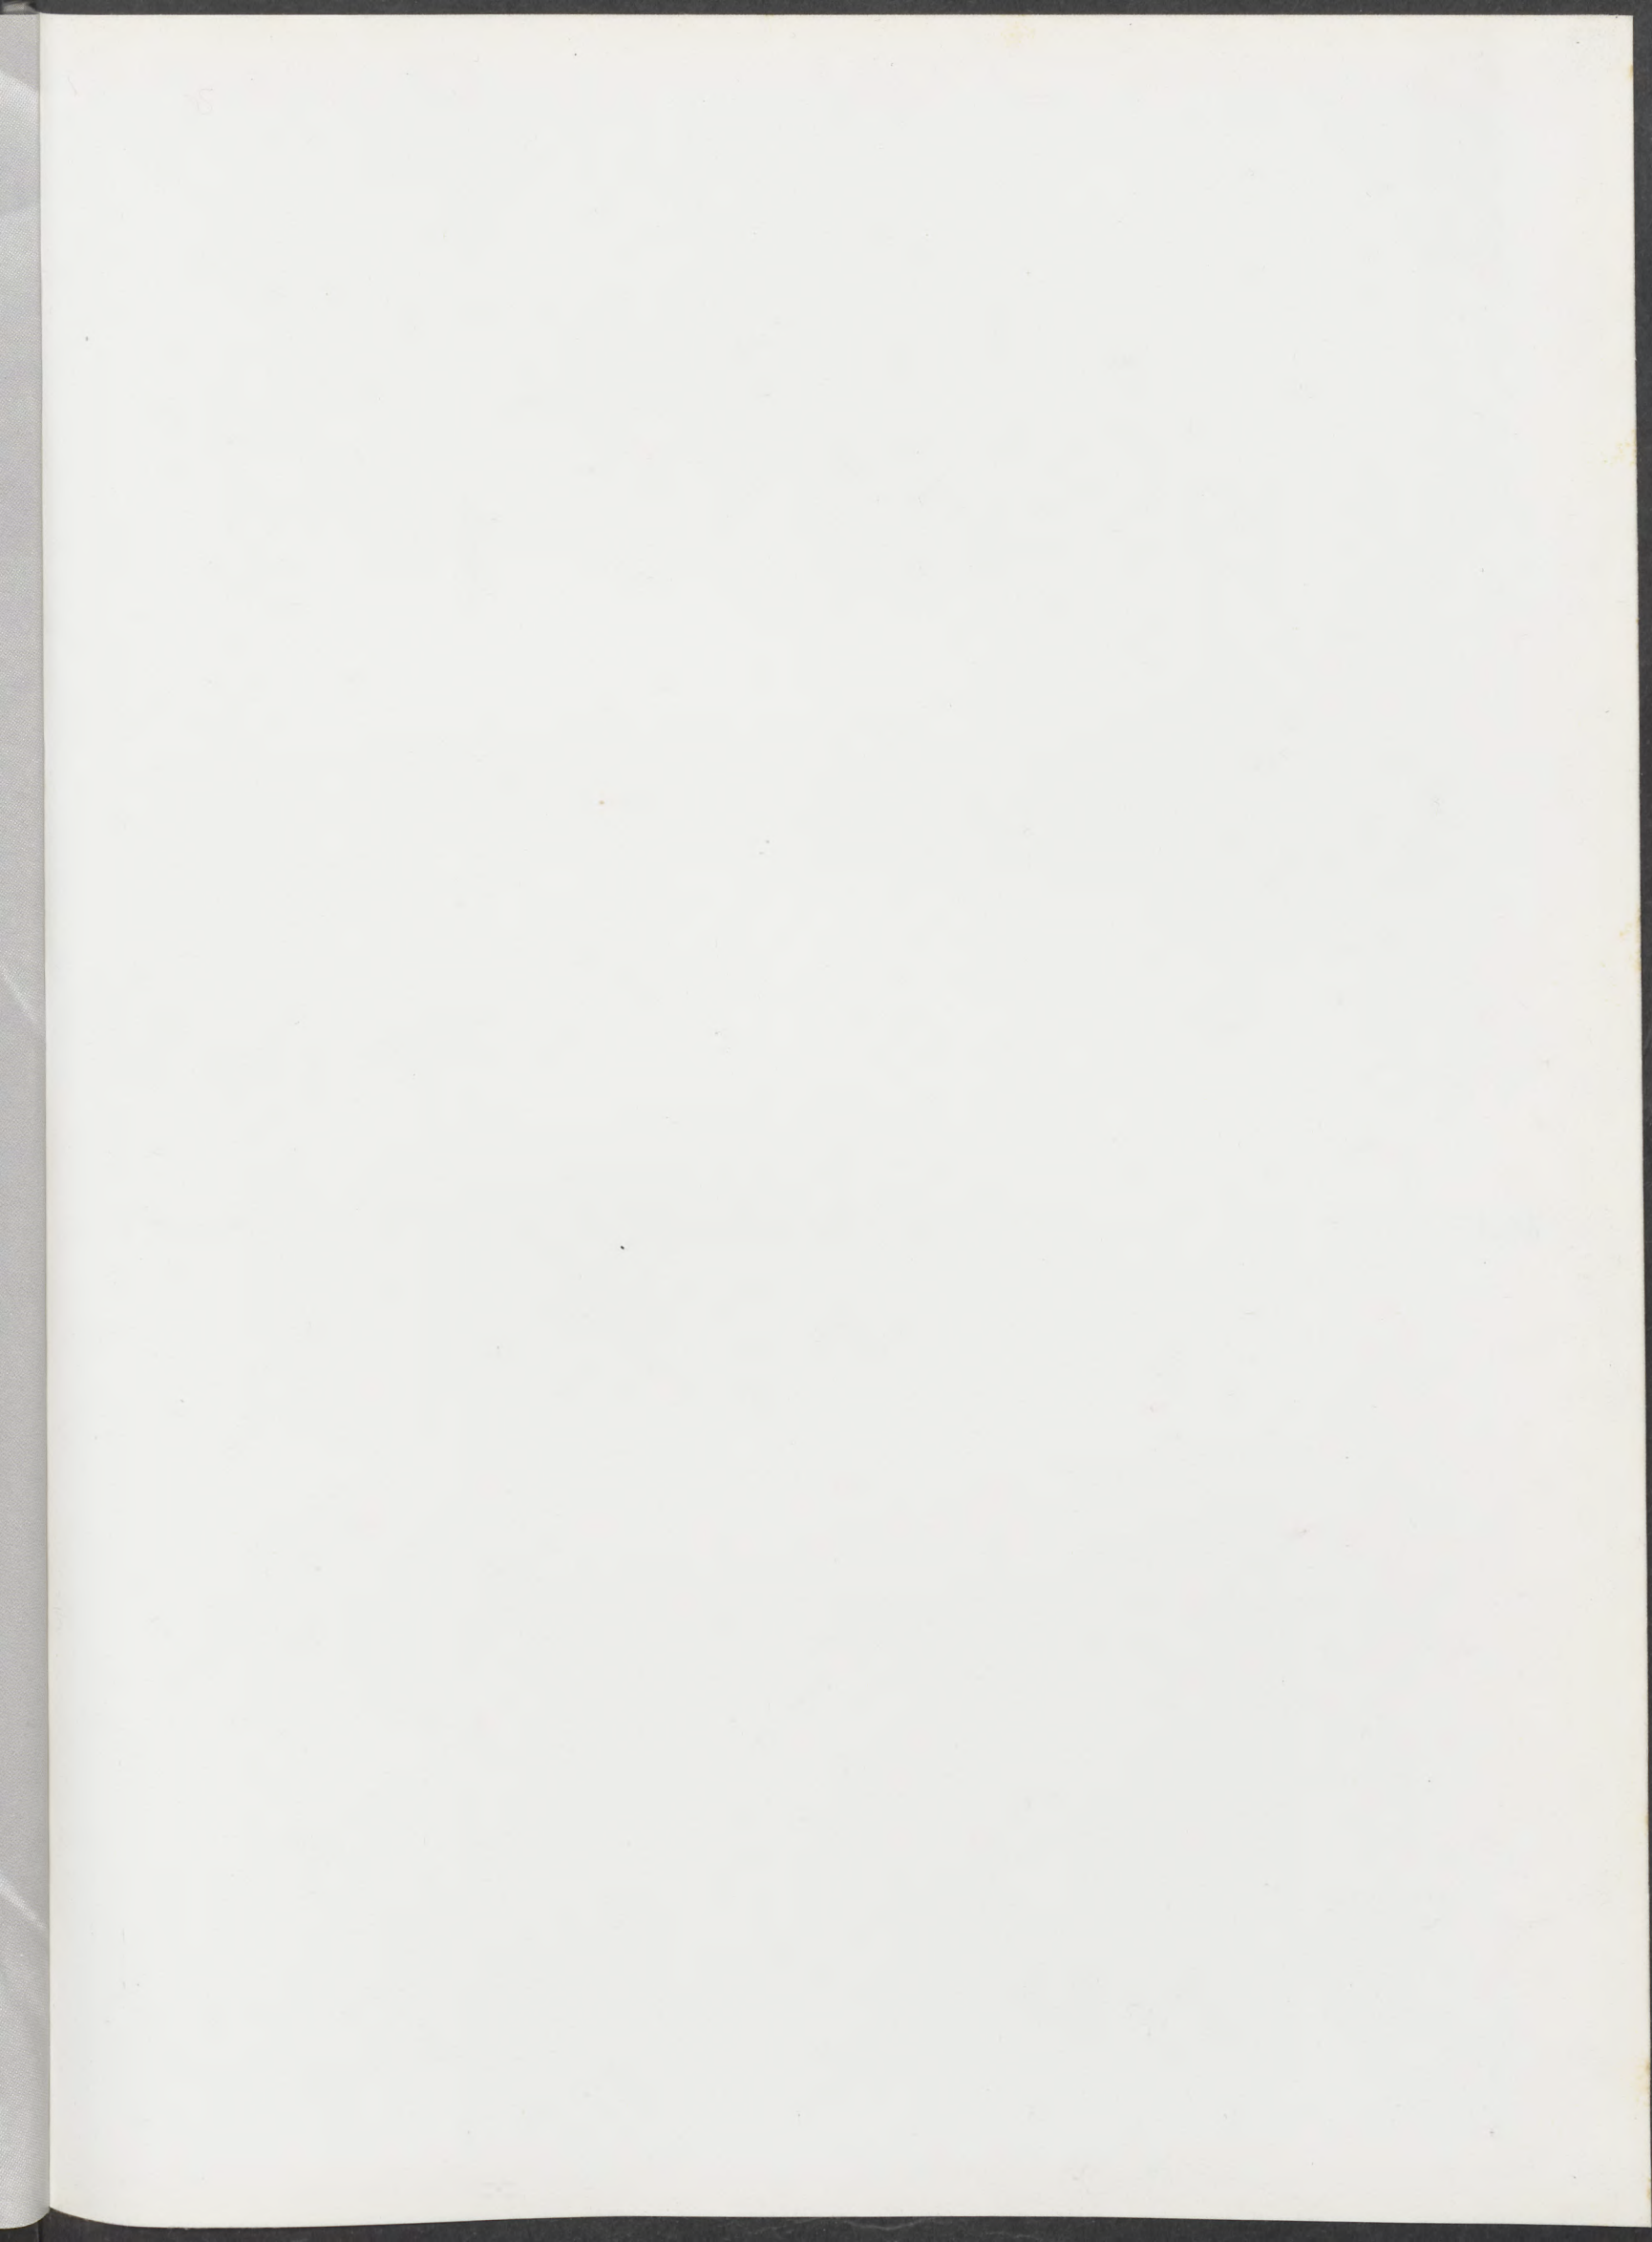

If you have never laughed
On top of a hill
About nothing but the wind on your face . . .

If you have never run through a field or meadow
And heard music and angels all around you
In the wind . . .

If you have never cried
For everything inside of you
That words cannot express . . .

Then, friend,
Where is the magic
In your soul!

by Jen Nixon

1983
